Individual Differences in Addictive

Behaviors Lucy J. Troup, Young-A Lee, 2024-05-29 The study of addiction draws primarily on methods and approaches to understanding treating and supporting addiction drawn from traditional approaches The foundations of which focus on responses seen across groups but often neglecting to account for the role the individual differences plays in understanding and treating addiction It is clear from the literature that there is often a lack of consensus in both understanding and treating those struggling with addiction Individual differences therefore whilst not always conforming to the accepted model for developing theoretical interpretations and practice in the field are key to successful outcomes in treating addiction *Drugs and Addictive Behaviour* Hamid Ghodse, 2002-10-24 In this completely revised and updated third edition of his highly successful book Hamid Ghodse presents a comprehensive overview of substance misuse and dependence There is a particular emphasis on practical evidence based approaches to the assessment and management of a wide range of drug related problems in a variety of clinical settings and he has written an entirely new chapter on alcohol abuse He defines all the terms and describes the effects of substance misuse on a patient s life Epidemiology and international prevention and drug control policies are covered to address the global nature of the problem and the appendix provides a series of clinical intervention tools among them a Substance Misuse Assessment Questionnaire This will be essential reading for all clinicians and other professionals dealing with addiction from counsellors and social workers to policy makers
