Introduction To Comparative Mysticism:

Introduction to Comparative Mysticism Jacques De Marquette, 1949 *Comparative Mysticism* Steven T. Katz, 2013 This collection of primary texts introduces readers to the mystical literature of the world's great religious traditions. Beginning with an introduction by Steven T. Katz, a leading scholar of mysticism, the anthology comprises poetry, prayer, narrative, and other writings from Jewish, Christian, Muslim, Hindu, Buddhist, Taoist, Confucianist, and Native American traditions. This collection provides readers not only with the primary mystical texts from each religious tradition but with an explanation of the context of the source and tradition. *Comparative Mysticism* shows how the great mystical traditions of the world are deeply rooted in the religious traditions from which they originated. The contextual methodological approach taken throughout the anthology also addresses the critical question of what these mystical traditions at their highest level have in common. Despite the prevailing view that mystical traditions throughout the world are essentially similar, the presentation of the sources in this volume suggests that in fact the various traditions have distinct teachings and different metaphysical goals. The writings collected in *Comparative Mysticism* address the most fundamental and important methodological, epistemological, and hermeneutical questions regarding the study and interpretation of mysticism and mystical sources across cultures. This anthology will be an invaluable resource to students and scholars of mystic tradition for years to come.

The Bibliographical Guide to the Global History of Philosophy, *Mystifying Kabbalah* Boaz Huss, 2020 Boaz Huss argues that Jewish mysticism is a modern construct and that the identification of Kabbalah and Hasidism as forms of mysticism has problematically shaped the way in which they are perceived and studied today. **Routledge Handbook of Yoga and Meditation Studies** Suzanne Newcombe, Karen O'Brien-Kop, 2020-10-28 The Routledge Handbook of Yoga and Meditation Studies is a comprehensive and interdisciplinary resource which frames and contextualises the rapidly expanding fields that explore yoga and meditative techniques. The book analyses yoga and meditation studies in a variety of religious, historical, and geographical settings. The chapters, authored by an international set of experts, are laid out across five sections: Introduction to yoga and meditation studies; History of yoga and meditation in South Asia; Doctrinal perspectives, technique, and praxis; Global and regional transmissions; Disciplinary framings. In addition to up-to-date explorations of the history of yoga and meditation in the Indian subcontinent, new contexts include a case study of yoga and meditation in the contemporary Tibetan diaspora and unique summaries of historical developments in Japan and Latin America, as well as an introduction to the growing academic study of yoga in Korea. Underpinned by critical and theoretical engagement, the volume provides an in-depth guide to the history of yoga and meditation studies and combines the best of established research with attention to emerging directions for future investigation. This handbook will be of interest to multidisciplinary academic audiences from across the humanities, social sciences, and sciences. Chapters 1, 4, 9, 12, and 27 of this book are freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com> under a Creative Commons Attribution-NonCommercial
