

Feminist Legal Theory: A Primer (Critical America, 53)

An updated edition of the praised primer for feminist legal theory and how it shapes contemporary gender issues. At long last, the complex field of feminist legal theory is presented in accessible, teachable form by two of its experts, Nancy Levit and Robert R. M. Verchick. In this outstanding primer, the authors introduce the diverse strands of feminist legal theory and the array of substantive legal issues relevant to women's and gender studies. The book centers on feminist legal theories⁸²¹³including equal treatment theory, cultural feminism, dominance theory, critical race feminism, lesbian feminism, postmodern feminism, and ecofeminism. The authors also address feminist legal methods, such as consciousness raising and storytelling. The primer demonstrates the ways feminist legal theory operates in real-life contexts, including domestic violence, reproductive rights, workplace discrimination, education, sports, pornography, and global issues of gender. Levit and Verchick highlight a sweeping range of cutting edge topics at the intersection of law and gender, such as single sex schools, women in the military, abortion, same sex marriage, date rape, and the international trafficking in women and girls. At its core, Feminist Legal Theory shows the importance of the role of law and feminist legal theory in shaping contemporary gender issues.

Feminism, Postfeminism and Legal Theory
Dorota Gozdecka, Anne Macduff, 2018-12-19 There is much debate about postfeminism what it is and its role in feminist politics Whilst postfeminism has become increasingly influential in the study of literature popular culture and philosophy it has so far received comparatively little attention in law This book aims to remedy this situation The book brings together feminist legal scholars working in different contexts to examine the idea of postfeminism and assess its contemporary relevance It explores a range of questions including the following Does postfeminism describe an age that follows modernism an age where identity politics has realised its goals and feminism is no longer needed Or does postfeminism describe the feminism of a postmodernist age where identity can mean anything at all Or differently again does the term capture a new feminism that discredits feminism and attempts to reshape its political consciousness And what might the answers to these questions mean for law and legal theory and a feminist politics of law reform

Women and Equality in Iran Leila Alikarami, 2019-05-30 Iran's continued retention of discriminatory laws stands in stark contrast to the advances Iranian women have made in other spheres since the Revolution in 1979 Leila Alikarami here aims to determine the extent to which the actions of women's rights activists have led to a significant change in their legal status She argues that while Iranian women have not yet obtained legal equality the gender bias of the Iranian legal system has been successfully challenged and has lost its legitimacy More pertinently the social context has become more prepared to accommodate legal rights for women Highlighting the key challenges that proponents of gender equality face in the Muslim context Alikarami attempts to ascertain the causes of Iran's failure to ratify the CEDAW and questions whether and to what extent interpretations of Islamic principles prevent Iran from doing so Applying feminist legal theory to contemporary Iran Alikarami's approach re evaluates the underlying principles that have shaped the struggle for equal rights between the sexes

An Introduction to African Legal Philosophy John Murungi, 2013-04-11 A book on legal philosophy necessarily focuses attention on law In addition to this focus An Introduction to an African Legal Philosophy focuses attention on philosophy The link between law and philosophy is brought into relief which is done through an African context An attempt is made to spell out what is African about legal philosophy without being cut off of African legal philosophy from non African legal philosophy The book draws

attention to the view that a basic component of African legal philosophy consists of an investigation of what it is to be an African and because an African is a human being among other human beings the investigation is about what it is to be a human being Ubuntuism is an African derived word that captures this mode of being human Moreover because human beings are cultural beings African cultural context guides the investigation Inescapably it is claimed that every legal philosophy is embedded in a culture African legal philosophy is not an exception It is deeply rooted in African culture a culture that is today shaped in part by a European colonialist culture One feature that will strike one as one reads the book is that the book approaches African legal philosophy as a means of decolonization of African culture African legal philosophy can accomplish this intelligently and effectively if it is itself decolonized In doing this it contrasts sharply with mainstream Western legal philosophy
