Everyday Objects

William Henry Davenport Adams, 2015-02-24

Example in this ebook The very favourable reception accorded both by Press and Public to the Circle of the Year has induced me to prepare a second volume similar in design but dealing with different branches of the same subject As the former was founded on the first series of a popular French work Les Saisons by M Hoefer so the present has been suggested by the second series but in availing myself of it I have omitted much I have revised more and at various parts my additions have been considerable And here as in my former effort I have written from a popular rather than a scientific point of view It has not been my object to sketch the outlines or lay down the foundations of any science but to show as best I could how much of wonder and beauty enters into our daily life and what inexhaustible sources of study lie at our very feet It is perhaps a misfortune of our common systems of education that they too much neglect the tuition of the eye that the young are not taught to mark the curious and interesting objects which are comprehended within their daily vision that they know so much about ancient mythology and so little about modern science so much about gods and heroes so little about stars and flowers I have called this volume Everyday Objects not because those which it describes may be seen every day but because they mostly belong to the region of the commonplace and familiar and I have called it Picturesque Aspects of Natural History because I have endeavoured in companionship with my French collaborateur to indicate the poetical side of the various sciences into which I have presumed to penetrate If it should awaken a love of nature in any breast or develop a spirit of inquiry which may lead the student further and further on the path of knowledge the labour bestowed upon these pages will not have been in vain The instinct of curiosity says M Hoefer in his preface to the first series of Les Saisons is the awakening of the intellectual life it commences with the lisping of the child accompanies the adult in every phase of his existence and far from becoming extinct with the last throb of the heart revives before the unknown shadows of the grave What then is there in the whole world of greater importance to follow and direct than the movements and impulses of this curiosity of these uncertain pulsations of the soul In this lies the secret of all education and upon education depends the future of humanity Unfortunately he continues the methods hitherto employed have been absolutely insufficient And the insufficiency is most notable as regards the imperfect and defective training given to the instinct of curiosity Observe the child Of everything which excites his attention he never fails to ask you the reason why It is thus that he enters into the connexion of cause and effect It is a sign But instead of following up this natural indication and developing the thought by the exercise of the reason we proceed as if the being under our charge were incapable of reason we overload the memory of the child with a multitude of words whose value he cannot understand until later in life and perhaps never The true direction of the mind is to proceed from the thought to the word and not from the word to the thought It is for want of having recognised and applied this principle that our educational systems have failed so

Julian Spilsbury,2008-09-18 An epic true story of treachery revenge and courage The Indian Mutiny is a real page turner an epic story with surprising modern parallels Fomer army officer turned TV scriptwriter Julian Spilsbury is the ideal author to take us back to the desperate summer of 1857 when thousands of Indian soldiers mutinied They murdered their officers hunted down the women and children and burned and slaughtered their way to Delhi The tiny British garrison at Lucknow held out against all odds the one at Cawnpore surrendered only to be betrayed and massacred Modern Indian accounts call this the first war of liberation but as Julian Spilsbury reveals 80 per cent of the so called British forces were from the sub continent Sikhs Gurkhas and Afghans fought alongside small numbers of British soldiers Together they faced terrible odds and won In the process they created a new army that would play a vital role in the Allied forces in both World Wars Julian Spilsbury weaves the story together from some of the most vivid eyewitness accounts ever written From the women and children hiding from blood crazed mobs to the epic battles that decided the campaign to the grisly revenge exacted by the British forces this is a gripping recreation of the greatest crisis of Empire
