**International Studies in Educational Inequality, Theory and Policy** Richard Teese, Stephen Lamb, Marie Duru-Bellat, 2007-05-18 Inequality is a marked and persistent feature of education systems both in the developed and the developing worlds Major gaps in opportunity and in

outcomes have become more critical than in the past thanks to the knowledge economy and globalization The pursuit of equity as a goal of public policy is examined in this book through a series of national case studies The book covers many different global contexts from the wealthiest to some of the poorest nations on earth It therefore offers a broad range of different theoretical and methodological approaches and brings together extensive international experience in equity policy

Caught in the Act Cyril Julie, Lorna Holtman, Charles R. Smith, 2019-12-11 The research reported in Caught in the Act draws together the insights gained from a continuous professional development initiative for high school mathematics teachers teaching in low socio economic status and socially challenged environments in South Africa The chapters show the possibilities for enhancing achievement in school mathematics if a strength based approach is adopted to develop teaching with teachers and when their concerns are taken seriously The book demonstrates that the ecological relevance fitness for the context in which teachers are teaching of the goods developed and distributed by initiatives should be a major consideration to offer hope for sustainable implementation to improve school mathematics education The book is of interest to mathematics teachers school leaders mathematics curriculum advisors policy makers and researchers

Steady Gains and Stalled Progress Katherine Magnuson, Jane Waldfogel, 2008-10-09 Addressing the disparity in test scores between black and white children remains one of the greatest social challenges of our time Between the 1960s and 1980s tremendous strides were made in closing the achievement gap but that remarkable progress halted abruptly in the mid 1980s and stagnated throughout the 1990s How can we understand these shifting trends and their relation to escalating economic inequality In Steady Gains and Stalled Progress interdisciplinary experts present a groundbreaking analysis of the multifaceted reasons behind the test score gap and the policies that hold the greatest promise for renewed progress in the future Steady Gains and Stalled Progress shows that while income inequality does not directly lead to racial differences in test scores it creates and exacerbates disparities in schools families and communities which do affect test scores Jens Ludwig and Jacob Vigdor demonstrate that the period of greatest progress in closing the gap coincided with the historic push for school desegregation in the 1960s and 1970s Stagnation came after efforts to integrate schools slowed down Today the test score gap is nearly 50 percent larger in states with the highest levels of school segregation Katherine Magnuson Dan Rosenbaum and Jane Waldfogel show how parents level of education affects children s academic performance as educational attainment for black parents increased in the 1970s and 1980s the gap in children s test scores narrowed Sean Corcoran and William Evans present evidence that teachers of black students have less experience and are less satisfied in their careers than teachers of white students David Grissmer and Elizabeth Eiseman find that the effects of economic deprivation on cognitive and emotional development in early childhood lead to a racial divide in school readiness on the very first day of kindergarten Looking ahead Helen Ladd stresses that the task of narrowing the divide is not one that can or should be left to schools alone Progress will resume only when policymakers address the larger social and economic forces behind the

problem Ronald Ferguson masterfully interweaves the volume's chief findings to highlight the fact that the achievement gap is the cumulative effect of many different processes operating in different contexts. The gap in black and white test scores is one of the most salient features of racial inequality today. *Steady Gains and Stalled Progress* provides the detailed information and powerful insight we need to understand a complicated past and design a better future.

**The Minimum Core for Numeracy: Knowledge, Understanding and Personal Skills** Sheine Peart, 2009-06-02 The teacher training framework introduced in September 2007 requires all teachers in the post-16 sector to possess knowledge, understanding and personal skills to at least level 2 in the minimum core for numeracy. Coverage and assessment of the core have to be embedded in all Certificate and Diploma courses leading to QTLS and ATLS status. This book is a practical guide to numeracy for trainee teachers in the Lifelong Learning sector. It enables trainee teachers to identify and develop their own numeracy skills and also to support their students' numeracy.

Professional Standards for Educational Leaders Joseph F. Murphy, 2016-12-21 Unpack the standards and build a plan for leading learning. *Professional Standards for Educational Leaders* introduces the foundations of the recently revised professional educational leadership standards and provides an in-depth explanation and application of each one. Written by the primary architect of PSEL, educational leadership expert Joseph F. Murphy, this authoritative guide to understanding and applying the standards explores the new emphasis on leadership of learning, school culture and diversity, values, ethics and professional norms of educational leadership, teacher quality, instruction and caring support. Written for higher education faculty, professional development providers and school and district leaders, the author truly brings the standards to life. This comprehensive manual will power the educational leadership profession through the challenges of the next decade and beyond. Murphy offers an exploration of the kind of leadership that matters most for each and every student. Let us hope the thinking reflected in this book and the new PSEL standards redirects our attention to what it really means to lead in education.

Michelle D. Young, UCEA Executive Director, Professor of Leadership, University of Virginia. Joseph Murphy debunks myths about standards for educational leaders and skillfully unpacks the moral, foundational and experiential basis for the revised professional standards to guide effective leadership of our nation's schools. This book is a must-read for those interested in leadership for learning and the academic success and wellbeing of students because these standards will shape our field for the next quarter century as the ISLLC standards have done since 1996.

Martha McCarthy, Presidential Professor, Loyola Marymount University.
