Freiburger Munster:

Kirchenbegehungen im Freiburger Münster Markus Aronica, 2014 **Cultural Translation and Receptions of Paul in the First Four Centuries** František Ábel, 2025-07-10 There are two overlapping themes which serve as the focus of Cultural Translation and Receptions of Paul in the First Four Centuries a reception of the apostle Paul in subsequent Christian traditions and b the hypothesis that while Paul himself continued to think as a Jew he was subsequently re interpreted by non Jews in non Jewish and anti Jewish ways the so called Paul within Judaism school The distinctive focus of this volume is on the dynamic of cultural translation meaning for example the translation from the cultural world of Diaspora Judaism and its Septuagint to Greek philosophical and Greek Christian categories The contributions to the book are diverse ranging from younger to more senior scholars from both North America and Europe **"Sculpting Simulacra in Medieval Germany, 1250-1380 "** Assaf Pinkus, 2017-07-05 Engaging with the imaginative nonreligious response to Gothic sculpture in German speaking lands and tracing high and late medieval notions of the living statue and the simulacrum in religious lay and travel literature this study explores the subjective and intuitive potential inherent in thirteenth and fourteenth century sculpture It addresses a range of works from the oeuvre of the so called Naumburg Master through Freiburg im Breisgau to the imperial art of Vienna and Prague As living simulacra the sculptures offer themselves to the imaginative horizons of their viewers as factual presences that substitute for the real In perceiving Gothic sculpture as a conscious alternative to the sacred imago the book offers a new understanding of the function production and use of three dimensional images in late medieval Germany By blurring the boundaries between viewers and works of art between the imaginary and the real the sculptures invite the speculations of their viewers and in this way produce an unstable meaning perpetually mutable and alive The book constitutes the first art historical attempt to theorize the idiosyncratic character of German Gothic sculpture much of which has never been fully documented and provides the first English language survey of the historiography of these works **The Origins of the German Principalities, 1100-1350** Graham A. Loud, Jochen Schenk, 2017-07-06 The history of medieval Germany is still rarely studied in the English speaking world This collection of essays by distinguished German historians examines one of most important themes of German medieval history the development of the local principalities These became the dominant governmental institutions of the late medieval Reich whose nominal monarchs needed to work with the princes if they were to possess any effective authority Previous scholarship in English has tended to look at medieval Germany primarily in terms of the struggles and eventual decline of monarchical authority during the Salian and Staufer eras in other words at the failure of a centralised monarchy Today the federalised nature of late medieval and early modern Germany seems a more natural and understandable phenomenon than it did during previous eras when state building appeared to be the natural and inevitable process of historical development and any deviation from the path towards a centralised state seemed to be an aberration In addition by looking at the origins and consolidation of the principalities the

book also brings an English audience into contact with the modern German tradition of regional history *Landesgeschichte*. These path breaking essays open a vista into the richness and complexity of German medieval history. **The Grove Encyclopedia of Medieval Art and Architecture** Colum Hourihane, 2012. This volume offers unparalleled coverage of all aspects of art and architecture from medieval Western Europe from the 6th century to the early 16th century. Drawing upon the expansive scholarship in the celebrated Grove Dictionary of Art and adding hundreds of new entries it offers students, researchers and the general public a reliable up to date and convenient resource covering this field of major importance in the development of Western history and international art and architecture. Holding On to Reality Albert Borgmann, 2007-12-01. *Holding On to Reality* is a brilliant history of information from its inception in the natural world to its role in the transformation of culture to the current Internet mania and its attendant assets and liabilities. Drawing on the history of ideas, the details of information technology and the boundaries of the human condition, Borgmann illuminates the relationship between things and signs, between reality and information. Borgmann has offered a stunningly clear definition of information in *Holding On to Reality*. He leaves room for little argument unless one wants to pose the now vogue objection. I guess it depends on what you mean by nothing. Paul Bennett, *Wired*. A superb anecdotal analysis of information for a hype addled age. *New Scientist*. This insightful and poetic reflection on the changing nature of information is a wonderful antidote to much of the current hype about the information revolution. Borgmann reminds us that whatever the reality of our time, we need a balance of signs and things in our lives. Margaret Wertheim, *LA Weekly*. The Catholic Encyclopedia Charles George Herbermann, Edward Aloysius Pace, Condé Benoist Pallen, Thomas Joseph Shahan, John Joseph Wynne, Andrew Alphonsus MacErlean, 1909. **Death in the Middle Ages and Early Modern Times** Albrecht Classen, 2016-04-11. Death is not only the final moment of life; it also casts a huge shadow on human society at large. People throughout time have had to cope with death as an existential experience, and this also of course in the premodern world. The contributors to the present volume examine the material and spiritual conditions of the culture of death, studying specific buildings and spaces, literary works and art objects, theatrical performances and medical tracts from the early Middle Ages to the late eighteenth century. Death has always evoked fear, terror and awe; it has puzzled and troubled people, forcing theologians and philosophers to respond and provide answers for questions that seem to evade real explanations. The more we learn about the culture of death, the more we can comprehend the culture of life. As this volume demonstrates, the approaches to death varied widely also in the Middle Ages and the early modern age. This volume hence adds a significant number of new facets to the critical examination of this ever present phenomenon of death, exploring poetic responses to the Black Death, types of execution of a female murderess, death as the springboard for major political changes and death reflected in morality plays and art. *The Catholic Encyclopedia* Charles Herbermann, 1909. **Library Catalog of the Metropolitan Museum of Art, New York** Metropolitan Museum of Art (New York, N.Y.). Library, 1980. Das Münster zu Freiburg im Breisgau Johann Heinrich

SCHREIBER,1826 *Die Landschaft interpretieren: Interdisziplinäre Ansätze* Werner Kreisel,Peter H. Marsden,Tobias Reeh,2021 There is no generally valid recognised definition of what landscape actually is On the basis of its relatedness to the environment to aesthetics territory society politics economics geography planning ethnology and philosophy the concept of landscape is considered to be a composite notion shaped by a thousand years of Central European ideas and of literary and art history In other words the very term landscape is ambiguous and it is used in different ways both in the scholarly world and everyday speech The aim of this volume is to present various possible approaches to the phenomenon of landscape Far from laying any claim to be exhaustive or comprehensive we have simply tried to do justice to the overarching interdisciplinary approach of the Zentrum f r Landschaftsinterpretation und Tourismus ZELT Centre for Landscape Interpretation and Tourism by singling out and addressing individual instances of this fascinating multifaceted phenomenon
