The New and Complete Dictionary of the German and English Languages Ebers, 1798      **History of the Hutterite Mennonites** Arnold Hofer, Norman Hofer, 2011-07-01      **The Fish Lands** Bart Holtermann, 2020-09-21

The late medieval German trade with the North Atlantic islands in the margins of the Hanseatic trade network has received only limited scholarly attention. Merchants from predominantly Hamburg and Bremen established direct trade relations with these islands in the late 15th century and managed to control the international trade with Iceland, the Faroes and Shetland for much of the 16th century. However, the Hanseatic commercial infrastructure was absent in the North Atlantic, which forced these merchants to develop new trade strategies. Besides a critical re-evaluation of the economic and political conditions, this volume offers a comprehensive study of the organisation of the trade and the methods used to establish and maintain networks between islanders and German merchants. Moreover, it analyses the role and socio-economic position of the communities of merchants with the North Atlantic in their home towns. The book shows that the North Atlantic trade was anything but insignificant. It was a dynamic and integral part of the trade network of the northern German cities, and its study is highly relevant for the economic history of Northern Europe.

*The New and Complete Dictionary of the German and English Languages ... Elaborated (etc.)* Johann Ebers, 1798      Becoming East German Mary Fulbrook, Andrew I. Port, 2013-09-01

For roughly the first decade after the demise of the GDR, professional and popular interpretations of East German history concentrated primarily on forms of power and repression as well as on dissent and resistance to communist rule. Socio-cultural approaches have increasingly shown that a single-minded emphasis on repression and coercion fails to address a number of important historical issues, including those related to the subjective experiences of those who lived under communist regimes. With that in mind, the essays in this volume explore significant physical and psychological aspects of life in the GDR, such as health and diet, leisure and dining, memories of the Nazi past as well as identity, sports and experiences of everyday humiliation. Situating the GDR within a broader historical context, they open up new ways of interpreting life behind the Iron Curtain while providing a devastating critique of misleading mainstream scholarship which continues to portray the GDR in the restrictive terms of totalitarian theory.

Germans to Poles Hugo Service, 2013-07-11

At the end of the Second World War, mass forced migration and population movement accompanied the collapse of Nazi Germany's occupation and the start of Soviet domination in East Central Europe. Hugo Service examines the experience of Poland's new territories, exploring the Polish Communist attempt to cleanse these territories in line with a nationalist vision against the legacy of brutal wartime occupations of Central and Eastern Europe by Nazi Germany and the Soviet Union. The expulsion of over three million Germans was intertwined with the arrival of millions of Polish settlers. Around one million German citizens were categorised as native Poles and urged to adopt a Polish national identity. The most visible traces of German culture were erased. Jewish Holocaust survivors arrived and for the most part soon left again. Drawing on two case

studies the book exposes how these events varied by region and locality

Political Philosophy from an Intercultural Perspective Bianca Boteva-Richter, Sarhan Dhouib, James Garrison, 2021-06-27 The objective of the following collected volume is to encourage a critical reflection on the relationship between power and non power in our contemporary world and proceeding from various philosophical traditions to investigate the multifaceted aspects of this relationship The authors respective investigations proceed from an intercultural perspective and fall predominantly in the domain of political theory and philosophy This volume takes an intercultural political perspective which means on the one hand involving non European philosophies in a global debate about power relations and their effects in the world and on the other hand confronting local traditions of thought with a global inquiry in order to enter into a philosophical political dialogue with these traditions An intercultural approach of this type to political philosophy seeks not only to join others in reflecting upon global problems but also to decenter of our understanding of the world drawing attention to new ways of thinking Insofar as the authors of the planned volume deal with concrete philosophical political problems unfolding in various regions of the world they seek to shed light on burning issues like migration human rights violations dictatorship and language global poverty power asymmetries experiences of injustice with the further goal of offering a particularly intercultural analysis of these problems along with approaches to resolving them To date there is no book that collects various essays from different countries and perspectives and poses political philosophical problems from an intercultural point of view

Germany 1945 Richard Bessel, 2012-09-27 In 1945 Germany experienced the greatest outburst of deadly violence that the world has ever seen. Germany 1945 examines the country's emergence from the most terrible catastrophe in modern history. When the Second World War ended, millions had been murdered, survivors had lost their families, cities and towns had been reduced to rubble and were littered with corpses. Yet people lived on and began rebuilding their lives in the most inauspicious of circumstances. Bombing, military casualties, territorial loss, economic collapse and the processes of denazification gave Germans a deep sense of their own victimhood, which would become central to how they emerged from the trauma of total defeat, turned their backs on the Third Reich and its crimes, and focused on a transition to relative peace. Germany's return to humanity and prosperity is the hinge on which Europe's twentieth century turned. For years we have concentrated on how Europe slid into tyranny, violence, war and genocide; this book describes how humanity began to get back out.

*Living in Two Worlds* Else Behrend-Rosenfeld, Siegfried Rosenfeld, 2021-12-16 This unique collection of diaries and letters offers a vivid personal account of the experiences of a Jewish couple living parallel lives during the Second World War. While their children left for England just before war broke out, and Siegfried soon followed, Else Behrend was unable to obtain her visa in time and remained in Germany. This volume includes Else's account of her years of persecution under the Nazi dictatorship and of her life underground in Berlin before her eventual daring escape to Switzerland on foot in 1944. Her dramatic story is presented alongside Siegfried's account of his very different experience living penniless and in isolation in England, as well as some of her letters to her close friend and confidante Eva. Complemented by QR codes that allow readers to listen to Else's own voice from her 1963 BBC interviews. Published in English for the first time, *Living in Two Worlds* offers an unforgettable and moving insight into the impact of the Second World War on everyday life.

Wittgenstein's Ladder Marjorie Perloff, 2012-06-12 Perloff has brilliantly adapted Wittgenstein's conception of meaning and use to an analysis of contemporary language poetry. Linda Voris, Boston Review. Marjorie Perloff, among our foremost critics of twentieth-century poetry, argues that Ludwig Wittgenstein provided writers with a radical new aesthetic, a key to recognizing the inescapable strangeness of ordinary language. Taking seriously Wittgenstein's remark that philosophy ought really to be written only as a form of poetry, Perloff begins by discussing Wittgenstein the poet. What we learn is that the poetics of everyday life is anything but banal. This book has the lucidity and the intelligence we have come to expect from Marjorie Perloff. Linda Munk, American Literature. Wittgenstein's Ladder offers significant insights into the current state of poetry literature and literary study. Perloff emphasizes the vitality of reading and thinking about poetry and the absolute necessity of pushing against the boundaries that define and limit our worlds. David Clippinger, Chicago Review. Marjorie Perloff has done more to illuminate our understanding of twentieth-century poetic
