Elite Activism And Political Transformation In China:

Elite Activism and Political Transformation in China Mary Backus Rankin, 1986 Chinese Business Groups in Hong Kong and Political Change in South China 1900-1925 S. Chung, 1998-04-27 Politics can be a profitable business as can be found in Republican era Canton amidst a politically fragmented China Competing merchant groups in Hong Kong sought to finance the regional Canton government in return for financial concessions This patronage system made commercial endeavours dependent on politics and embedded business in politics *Liu Hung-Chang and China's Early Modernization* Samuel C. Chu, Kwang-Ching Liu, 2016-09-16 This is a study of Li Hung chang which represents a collaboration of Li experts among Chinese and Western scholars The biography examines the beginnings of China's modernisation the Confucian as a patriot and pragmatist his formative years 1823 1866 and other aspects of his life **Gutenberg in Shanghai** Christopher Reed, 2004-12-31 In the mid 1910s what historians call the Golden Age of Chinese Capitalism began accompanied by a technological transformation that included the drastic expansion of China's Gutenberg revolution Gutenberg in Shanghai is a brilliant examination of this process It finds the origins of that revolution in the country's printing industries of the late imperial period and analyzes their subsequent development in the Republican era Under diverse social political and economic influences this technological and cultural revolution saw woodblock printing replaced with Western mechanical processes This book which relies on documents previously unavailable to both Western and Chinese researchers demonstrates how Western technology and evolving traditional values resulted in the birth of a unique form of print capitalism whose influence on Chinese culture was far reaching and irreversible Its conclusion contests scholarly arguments that view China's technological development as slowed by culture or that interpret Chinese modernity as mere cultural continuity A vital reevaluation of Chinese modernity Gutenberg in Shanghai will appeal to scholars of Chinese history Likewise it will be enthusiastically received by specialists in cultural studies political science sociology the history of the book and the anthropology of science and technology *China's Local Councils in the Age of Constitutional Reform, 1898-1911* Roger R. Thompson, 2020-03-23 Dazzled by the model of Japan's Western style constitutional government Chinese officials and elite activists made plans to establish locally elected councils By October 1911 government agencies had reported the establishment of about 5 000 councils Throughout the period data on self government reforms collected from localities were compiled in provincial capitals then collated summarized and archived in Beijing Simultaneously directives were being sent from the capital to the provinces From this wealth of previously unexamined material Roger R Thompson draws a portrait in motion of the reforms He demonstrates the energy and significance of the late Qing local self government movement while making a compelling case that it was separate from the well studied phenomenon of provincial assemblies and constitutionalism in general Popular Protest And Political Culture In Modern China Jeffrey N Wasserstrom, 2018-02-07 This innovative and widely praised volume uses the dramatic occupation of Tiananmen Square as the foundation for

rethinking the cultural dimensions of Chinese politics Now in a revised and expanded second edition the book includes enhanced coverage of key issues such as the political dimensions of popular culture addressed in a new chapter on Chinese rock and roll by Andrew Jones and the struggle for control of public discourse in the post 1989 era discussed in a new chapter by Tony Saich Two especially valuable additions to the second edition are art historian Tsao Tsing yuans eyewitness account of the making of the Goddess of Democracy and an exposition of Chinese understandings of the term revolution contributed by Liu Xiaobo one of Chinas most controversial dissident intellectuals The volume also includes an analysis by noted social theorist and historical sociologist Craig C Calhoun of the similarities and differences between the new social movements of recent decades and the old social movements of earlier eras

Modern China's Network Revolution Zhongping Chen, 2011-06-27 Chambers of commerce developed in China as a key part of its sociopolitical changes In 1902 the first Chinese chamber of commerce appeared in Shanghai By the time the Qing dynasty ended over 1 000 general chambers affiliated chambers and branch chambers had been established throughout China In this new work author Zhongping Chen examines Chinese chambers of commerce and their network development across Lower Yangzi cities and towns as well as the nationwide arena He details how they achieved increasing integration and how their collective actions deeply influenced nationalistic reformist and revolutionary movements His use of network analysis reveals how these chambers promoted social integration beyond the bourgeoisie and other elites and helped bring society and the state into broader and more complicated interactions than existing theories of civil society and public sphere suggest With both historical narrative and theoretical analysis of the long neglected local chamber networks this study offers a keen historical understanding of the interaction of Chinese society business and politics in the early twentieth century It also provides new knowledge produced from network theory within the humanities and social sciences

Religious Publishing and Print Culture in Modern China Philip Clart, Gregory Adam Scott, 2014-12-16 Scholarly interest in print culture and in the study of religion in modern China has increased in recent years propelled by maturing approaches to

the study of cultural history and by a growing recognition that both were important elements of China's recent past. The influence of China in the contemporary world continues to expand and with it has come an urgent need to understand the processes by which its modern history was made. Issues of religious freedom and of religion's influence on the public sphere continue to be contentious but important subjects of scholarly work and the role of print and textual media has not dimmed with the advent of electronic communication. This book, *Religious Publishing and Print Culture in Modern China, 1800-2012*, speaks to these contemporary and historical issues by bringing to light the important and abiding connections between religious development and modern print culture in China. Bringing together these two subjects has a great deal of potential for producing insights that will appeal to scholars working in a range of fields from media studies to social historians. Each chapter demonstrates how focusing on the role of publishing among religious groups in modern China generates new insights and raises new questions. They examine how religious actors understood the role of printed texts in religion dealt with issues of translation and exegesis produced print media that heralded social and ideological changes and expressed new self-understandings in their published works. They also address the impact of new technologies such as mechanized movable type and lithographic presses in the production and meaning of religious texts. Finally, the chapters identify where religious print culture crossed confessional lines connecting religious traditions through links of shared textual genres, commercial publishing companies and the contributions of individual editors and authors. This book thus demonstrates how, in embracing modern print media and building upon their longstanding traditional print cultures, Christian, Buddhist, Daoist and popular religious groups were developed and defined in modern China. While the chapter authors are specialists in religious traditions, they have made use of recent studies into publishing and print culture and like many of the subjects of their research are able to make connections across religious boundaries and link together seemingly discrete traditions.

The Peking Gazette in Late Imperial China Emily Mokros, 2021-05-20

How news circulated from the Qing dynasty court. In the Qing dynasty, 1644-1911, China experienced far greater access to political information than suggested by the blunt measures of control and censorship employed by modern Chinese regimes. A tenuous partnership between the court and the dynamic commercial publishing enterprises of late imperial China enabled the publication of gazettes in a wide range of print and manuscript formats. For both domestic and foreign readers, these official gazettes offered vital information about the Qing state and its activities, transmitting state news across a vast empire and beyond. And the most essential window onto Qing politics was the Peking Gazette, a genre that circulated globally over the course of the dynasty. This illuminating study presents a comprehensive history of the Peking Gazette and frames it as the cornerstone of a Qing information policy that paradoxically prized both transparency and secrecy. Gazettes gave readers a glimpse into the state's inner workings but also served as a carefully curated form of public relations. Historian Emily Mokros draws from international archives to reconstruct who read the gazette and how they used it to guide their interactions with the Chinese state. Her research into

the Peking Gazette's evolution over more than two centuries is essential reading for anyone interested in understanding the relationship between media information and state power **Li Hung-chang and China's Early Modernization** Samuel C. Chu, Kwang-Ching Liu, 1994 Li Hung-chang 1823-1901 was a Chinese statesman particularly notable for his promotion of industrialization and advocacy of bureaucratic reform. Most of the papers in this volume were first presented in two panels devoted to Li at the 1987 annual meeting of the Pacific Coast Branch of the American Historical Association. The volume is divided into six parts: introduction, The Beginnings of China's Modernization, the rise of Li Hung-chang, Li in the role of a national official, Li as diplomat, Li as modernizer, and conclusion, including a bibliographical essay. Paper edition, unsewn, 225 pp.

Annotation copyright by Book News Inc., Portland, OR **Associations and the Chinese State: Contested Spaces** Jonathan Unger, 2014-12-18 What role do Chinese popular associations play in the expansion of civil society and democratization? Under Mao, few associations were permitted to exist; while today over 200,000 associations are officially recognized. Are they important foundations of civil society or vehicles for state corporatism and control? In this book, leading China specialists examine an interesting range of associations, from business associations to trade unions to urban homeowners' associations, women's groups, anti-domestic violence groups, and rural NGOs that develop anti-poverty programs. The contributors find different important trends underway in different parts of China's economy and society. Their findings are nuanced, insightful, and often not what might be expected. **Extending Citizenship, Reconfiguring States** Michael P. Hanagan, Charles Tilly, 1999 Citizenship has come under intense discussion recently because of threats to welfare and shifting immigration policies. The European Union has opened transnational citizenship rights, and fledgling democracies throughout the world are struggling to establish their own versions of citizenship. *Extending Citizenship, Reconfiguring States* connects all these current discussions and places them in historical perspective. The book presents a thematically unified analysis of changing citizenship practices over two centuries—from the eve of the French Revolution to contemporary China. Showing how rights emerge with the appearance of new social groups and the reconfiguration of states, the authors identify conditions under which rights and citizenship expand as new groups develop within consolidated states as well as how rights and citizenship emerge within fragmented states with cross-cutting legal jurisdictions. Robert Hart and China's Early Modernization Richard Smith, John K. Fairbank, Katherine Bruner, 2020-03-23 As the Chinese government's Inspector General of the Maritime Customs Service, Robert Hart was the most influential Westerner in China for half a century. These journal entries continue the sequence begun in *Entering China's Service* and cover the years when Hart was setting up Customs procedures, establishing a modus operandi with the Chinese bureaucracy, and inspecting the treaty ports. They culminate in Hart's return visit to Europe with the Pin-chun Mission and his marriage in Northern Ireland. Smith, Fairbank, and Bruner interleave the segments of Hart's journals with lively narratives describing the contemporary Chinese scene and recounting Hart's responses to the many challenges of establishing a Western-style organization within a Chinese milieu. The

Routledge Handbook of Chinese Citizenship Zhonghua Guo, 2021-11-29 Two assumptions prevail in the study of Chinese citizenship one holds that citizenship is unique to the Western political culture and China has historically lacked the necessary conditions for its development the other implies that China is an authoritarian regime that has always been subject to autocratic power in which citizens and citizenship play a limited role This volume negates both assumptions On the one hand it shows that China has its own unique and rich experiences of the emergence development rights obligations acts culture education and sites of citizenship indicating the need to widen the scope of citizenship studies to include non Western societies On the other hand it aims to show that citizenship has been a core issue running through China's political development since the modern period urging scholars to bring citizenship into consideration in the study of Chinese politics This Handbook sets a new agenda for citizenship studies and Chinese politics Its clear accessible style makes it essential reading for students and scholars interested in citizenship and China studies

Katz, 2014-04-01 Paul R Katz has composed a fascinating account of the fate of Chinese religions during the modern era by assessing mutations of communal religious life innovative forms of religious publishing and the religious practices of modern Chinese elites traditionally considered models of secular modernity The author offers a rare look at the monumental changes that have affected modern Chinese religions from the first all out assault on them during the 1898 reforms to the eve of the Communist takeover of the mainland Tracing the ways in which the vast religious resources texts expertise symbolic capital material wealth etc that circulated throughout Chinese society during the late imperial period were reconfigured during this later era Katz sheds new light on modern Chinese religious life and the understudied nexus between religion and modern political culture Religion in China and Its Modern Fate will appeal to a broad audience of religionists and historians of modern China
