Corruption and Economic Growth in Africa David N. Abdulai, 2023-12-28 Corruption is one of the major challenges impeding Africa s growth and development efforts and its impact is much more pronounced at this point of the continent s development trajectory Corruption has political economic and social consequences and this book argues that any efforts to help Africa grow and develop must prioritise the fight against it so that the aid and funding given for projects in the region can continue to be sustained The book also tackles the issue of national security and instability caused by corruption The author argues that progress cannot happen in countries and environments where instability exists and persists Corruption in Africa has contributed to instability and other national security challenges especially in fragile states on the continent The book starts by looking at the three major types of corruption petty grand and systemic and then goes on to address the different categories of corruption such as bureaucratic legislative political as well as public and private sector aspects It also deals with common forms of corruption as well as some of the causes such as bad governance and excessive greed to mention a few Further it critically examines how current political systems on the continent contribute to this condition The book argues that some of the solutions that have been proposed to date are not viable or have not worked in practice and through applied research offers workable solutions that policy makers African politicians academics and students of economics and development can use as a reference guide in the fight against corruption *Corruption and Constitutionalism in Africa* Charles M. Fombad, Nico Steytler, 2020-03-12 This collection of essays to focuses on the critical issue of corruption that lies at the heart of the crisis of constitutionalism in Africa Most anti corruption measures over the years have been inadequate serving merely as symbolic gestures to give the impression something is being done The African Union s declaration of 2018 as the African anti corruption year belated though it be is an open recognition by African governments of the impact corruption will have on the continent unless urgent steps are taken The key objective of this volume is to draw attention to the problem of corruption the complexity of the situation with all its multi faceted social political economic and legal
