Management Accounting Al Bhimani, Michael Bromwich, 2009-09-16 Management Accounting is part of the celebrations to mark CIMA's 90th anniversary in 2009 It looks at the development of cost and management accounting from the founding of the Institute to today It considers a number of immediate challenges to management accountants and surveys a range of issues and challenges that will likely affect

management accounting thought and practice in the future The authors examine the possibilities for accountants to widen their focus and become more familiar with the enterprise technology determining their organisations cost structures and with the effects of multiple production in various locations such as economies or diseconomies of scale Such change may require the alteration of traditional cost models used by accountants to become more nuanced The book suggests how this may be accomplished and highlights the need for management accountants to work as part of management teams throughout the organisation as business partners rather than remain grounded in specialist information provision roles Alnoor Bhimani is Professor of Management Accounting at the London School of Economics He is also a Certified Management Accountant as well as an author of 15 books and over 100 articles Michael Bromwich was CIMA s Professor of Accounting and Financial Management at the London School of Economics and Political Science 1985 to 2006 now Emeritus He is a Past President of CIMA 1987 88 and currently serves on CIMA s Technical Committee A unique survey of 90 years of CIMA research Analyses the research to determine future challenges for management accounting and business practices Charts the history of management accountancy and business practice over nearly 100 years

Understanding the Dynamics of the Value Chain William D. Presutti, 2013-01-25 In his 1985 book Competitive Advantage Michael Porter introduced the concept of the value chain and described it as a systematic way of examining all activities a firm performs and how they interact necessary for analyzing the sources of competitive advantage and introduced the idea of linkages which was the real breakthrough in management thinking Thinking of a firm as a series of horizontal and vertical linkages put the spotlight on the silo mentality within which firms operated and how business schools structured curriculum The silo mentality caused business students unable to see the firm as a holistic entity an understanding of how all of its parts fit together to develop competitive advantage Students graduating with a silo mentality perpetuated the silo mentality in business firms This book draws together existing knowledge to help facilitate the shift of mind necessary to effectively manage the value chain and introduces a new conception of the value chain one that has been copyrighted 2006 and provides a new perspective of the value chain commensurate with the demands of the 21st century global economy
