Exuberance Paul Kurtz,1985-02 No Marketing Blurb *The Bloomsbury Encyclopedia of Philosophers in America* John R. Shook,2016-02-11 For scholars working on almost any aspect of American thought The Bloomsbury Encyclopedia to Philosophers in America presents an indispensable reference work Selecting over 700 figures from the Dictionary of Early American Philosophers and the Dictionary of Modern American Philosophers this condensed edition includes key contributors to philosophical thought From 1600 to the present day entries cover psychology pedagogy sociology anthropology education theology and political science before these disciplines came to be considered distinct from philosophy Clear and accessible each entry contains a short biography of the writer an exposition and analysis of his or her doctrines and ideas a bibliography of writings and suggestions for further reading Featuring a new preface by the editor and a comprehensive introduction The Bloomsbury Encyclopedia to Philosophers in America includes 30 new entries on twenty first century thinkers including Martha Nussbaum and Patricia Churchland With in depth overviews of Waldo Emerson Margaret Fuller Noah Porter Frederick Rauch Benjamin Franklin Thomas Paine and Thomas Jefferson this is an invaluable one stop research volume to understanding leading figures in American thought and the development of American intellectual history **Dictionary of World Philosophy** A. Pablo Iannone,2013-04-15 The Dictionary of World Philosophy covers the diverse and challenging terminology concepts schools and traditions of the vast field of world philosophy Providing an extremely comprehensive resource and an essential point of reference in a complex and expanding field of study the Dictionary covers all major subfields of the discipline Key features Cross references are used to highlight interconnections and the cross cultural diffusion and adaptation of terms which has taken place over time The user is led from specific terms to master entries which provide valuable historical and cultural context Each master entry is followed by at least two suggestions for further reading on the subject creating a substantial bibliography of world philosophy References extend beyond philosophy to related areas such as cognitive science computer science language and physics Subdisciplines covered include aesthetics ethics sociopolitical philosophy the philosophy of law epistemology logic the philosophy of science the philosophy of mind the philosophy of culture and history metaphysics the philosophy of religion Entries are drawn from West Africa Arabic Chinese Indian Japanese Jewish Korean Latin American Maori and Native American philosophy including the important and so far largely neglected instance of Pre Hispanic thought Nahua philosophy **Promethean Love** Timothy Madigan,2008-12-18 The myth of Prometheus has inspired countless generations of humanists throughout the ages Prometheus who stole fire from the gods and gave it to humans to help them survive remains a symbol for those who reject theistic orthodoxies and who fearlessly challenge accepted beliefs Artists such as Byron Goethe Beethoven and Wagner have been influenced by this story Most importantly Prometheus is a symbol for selfless love In this collection of essays the Promethean myth and its relationship to the philosophy of love is explored from its origins in Ancient Greece to its similarities and contrasts with the

figure of Christ Special emphasis is given to the work and writings of Paul Kurtz the foremost contemporary defender of humanism as a worldview who has made the figure of Prometheus a special part of his own philosophy **Dictionary Of Atheism Skepticism & Humanism** Bill Cooke,2009-12-30 In the tradition of Voltaire s Philosophical Dictionary Ambrose Bierce s Devil s Dictionary and Joseph McCabe s Rationalist Encyclopedia this accessible dictionary addresses the contemporary need for a reference book that succinctly summarizes the key concepts current terminology and major contributions of influential thinkers broadly associated with atheism skepticism and humanism In the preface author Bill Cooke notes that his work is intended for freethinkers in the broadest sense of the word people who like to think for themselves and not according to the preplanned routes set by others This dictionary will serve as a guide for all those people striving to lead fulfilling morally responsible lives without religious belief Readers are offered a wide range of concepts from ancient well known notions such as God free will and evil to new concepts such as eupraxsophy Also included are current buzzwords that have some bearing on the freethought worldview such as metrosexual The names of many people whose lives or work reflect freethought principles form a major portion of the entries Finally a humanist calendar is included on which events of interest to freethinkers are noted This unique accessible and highly informative work will be a welcome addition to the libraries of open minded people of all philosophic persuasions **The Final Superstition** Joseph L. Daleiden,1994-08 The Final Superstition clears away myths and deliberate falsehoods to reach the bedrock of truth about Western society s Judeo Christian traditions To help readers reach the core of Christian belief Joseph L Daleiden presents an in depth look at topics such as the authority of the Catholic church Jesus myths proofs of God s existence and much more Icons of Unbelief S. T. Joshi,2008-10-30 Discusses the ideas and impact of 27 atheists agnostics and secularists whose ideas have shaped society over the last 200 years In the opinion of many critics and philosophers we are entering an age of atheism marked by the waning of Christian fundamentalism and the flourishing of secular thought Through alphabetically arranged entries written by expert contributors this book profiles 27 iconic figures of unbelief whose ideas have shaped American society over the last 200 years Included are entries on influential figures of the past such as Albert Einstein and Voltaire as well as on such contemporary figures as Richard Dawkins and Sam Harris Each entry discusses the ideas and lasting significance of each person or group provides sidebars of interesting information and illuminating quotations and cites works for further reading The volume closes with a selected general bibliography Students in social studies and history classes will welcome this reference as a guide to the ideas central to the American separation of Church and State and to many of the political debates at the heart of society today Each entry discusses the ideas and lasting significance of the person or group provides sidebars of interesting information and quotations and closes with a list of works for further reading The volume ends with a selected general bibliography Students in history and social studies classes will welcome this reference as a guide to the American separation of Church and State and to the ideas central to contemporary political debates **Logic**

and Mr. Limbaugh Ray Perkins (Jr.),1995 Logic and Mr Limbaugh is both an entertaining introduction to the elements of logic and a serious critique of the practical logic of a major conservative propagandist Professor Perkins takes 50 examples of logical reasoning from Rush s statements identifies the logical arguments and points out fallacies Happiness and the Limits of Satisfaction Deal Wyatt Hudson,1996 In classical and medieval times happiness was defined as well being a notion that included moral goodness Today happiness is most often defined as well feeling and identified with subjective states such as satisfaction and peace of mind Deal Hudson argues that the prevailing view is dangerous in politics as well as ethics creating individuals with no other sense of obligation than finding personal satisfaction regardless of the moral and spiritual cost to themselves and others Hudson calls for a return to the classical tradition no one should be called happy who cannot also be called morally good However a contemporary version of happiness should also go beyond the classical notion by making room in the happy life for suffering and passion Using the history of the idea of happiness as a backdrop to a critique of contemporary views Hudson examines happiness from philosophical religious psychological sociological literary and political points of view for example he shows how the tension between the two definitions of happiness is at the heart of the Declaration of Independence The result is an excellent overview of the history of an idea as well as a compelling argument for moral and political change in our time *Science and Psychic Phenomena* Chris Carter,2012-02-22 A factual and conscientious argument against materialism s vehement denial of psi phenomena Explores the scandalous history of parapsychology since the scientific revolution of the 17th century Provides reproducible evidence from scientific research that telepathy clairvoyance precognition and psychokinesis are real Shows that skepticism of psi phenomena is based more on a religion of materialism than on hard science Reports of psychic abilities such as telepathy clairvoyance precognition and psychokinesis date back to the beginning of recorded human history in all cultures Documented reproducible evidence exists that these abilities are real yet the mainstream scientific community has vehemently denied the existence of psi phenomena for centuries The battle over the reality of psi has carried on in scientific academies courtrooms scholarly journals newspapers and radio stations and has included scandals wild accusations ruined reputations as well as bizarre characters on both sides of the debate If true evidence exists why then is the study of psi phenomena parapsychology so controversial And why has the controversy lasted for centuries Exploring the scandalous history of parapsychology and citing decades of research Chris Carter shows that contrary to mainstream belief replicable evidence of psi phenomena exists The controversy over parapsychology continues not because ESP and other abilities cannot be verified but because their existence challenges deeply held worldviews more strongly rooted in religious and philosophical beliefs than in hard science Carter reveals how the doctrine of materialism in which nothing matters but matter has become an infallible article of faith for many scientists and philosophers much like the convictions of religious fundamentalists Consequently the possibility of psychic abilities cannot be tolerated because their existence would refute materialism and contradict a deeply ingrained ideology By outlining

the origin of this passionate debate Carter calls on all open minded individuals to disregard the church of skepticism and reach their own conclusions by looking at the vast body of evidence *The Dictionary of Modern American Philosophers: K-Q* John R. Shook, Richard T. Hull, 2005 This biographical dictionary contains around 900 entries on philosophers and other intellectuals who impacted philosophical thought in America from 1860 to the present i e 2005 The Journal of the American Society for Psychical Research American Society for Psychical Research, 1992 List of members in v 1 6 12

American Philosophical Quarterly Nicholas Rescher, 1986 Nietzsche as Affirmative Thinker Y. Yovel, 2012-12-06 The full century that has elapsed since Nietzsche was at the height of his work did not obliterate his impact In many ways he is still a contemporary philosopher even in that sense of contemporary which points to the future We may have outgrown his style always however admirable and exciting to read his sense of drama his creative exaggeration his sometimes flamboyant posture of a rebel wavering between the heroic and the puerile Yet Nietzsche's critique of transcendental values and especially his attack on the inherited conceptions of rationality remain pertinent and continue to provoke anew cultural critique or dissent Today Nietzsche is no longer discussed apologetically nor is his radicalism shunned or suppressed That his work remains the object of extremely diverse readings is befitting a philosopher who replaced the concept of truth with that of interpretation It is indeed around the concept of interpretation that much of the renewed interest in Nietzsche seems to center today Special emphasis is being laid on his manner of doing philosophy and his views on interpretation and the genealogical method are often re-read in the context of contemporary hermeneutics and deconstructionist positions

Humanist Outlook ,1996 **Religious Humanism** ,1988 **Exuberance** Paul Kurtz, 2015-05-13 Happiness is within everyone's grasp and is only a matter of making the right choices Taking destiny into one's own hands and having the creative audacity to strive seek and meet challenges is the essence of life's drama and exaltation Life per se has no meaning it only presents opportunity to be seized and acted upon thus paving the way for personal achievement and the full life Paul Kurtz in *Exuberance* shows his readers how to banish drudgery from life and how to find happiness in the active life Drawing upon his personal experience knowledge and success Kurtz explains his philosophy of life discussing learning and work pleasure eroticism and sexuality morality the need for love and friendship and participation in contemporary issues He suggests that self power resourcefulness daring creativity and intelligence help guide and control one's life in spite of the many obstacles along the way Only the individual can initiate his own success and therefore can take pride in accomplishing what he sets out to do *Exuberance* also shows the reader how to cope with an ambiguous world Life is charged with unexpected events and bizarre happenings It is filled with richly diverse and idiosyncratic characters Constant effort and exertion is needed in making a living meeting new friends falling in love raising children seeing projects through and coming to terms with old age and death Dealing with these problems directly rather than fleeing from life's risks reinforces a person and leads him towards an exuberant rich zestful life According to Dr Kurtz the fulfillment of one's own purpose is in creating

one's own ends and expending the power and energy to attain them. Thus life's great sin, he suggests, is being lazy and noncreative. **The Atheist**, 1998. The Philosopher's Index, 1987. Vols for 1969 include a section of abstracts. **Ispita transcendentiei** Paul Kurtz, 2022-09-02. Traducere de Ines Simionescu. În această carte de referință Paul Kurtz analizează motivele pentru care foarte mulți oameni cred în fenomene supranaturale și paranormale în pofida multitudinii dovezilor ce le pun la îndoială. Kurtz consideră că acest lucru se datorează unei înclinării omenești către gândirea magică a ispita transcendentiei, care subminează judecata critică și pregătește terenul pentru adoptarea unor credințe neîntemeiate. Astfel, apelând la filozofie, știință și psihologie, filozoful american supune unei analize detaliate doctrina și activitatea fondatorilor celor trei mari religii monoteiste: creștinismul, iudaismul și islamul, precum și fundamentele ideilor aflate în spatele misticismului. Credința în nemurire și în Dumnezeu, reîncarnări, astrologiei și ufologiei. Ispita transcendentiei este o lectură obligatorie pentru oricine vrea să nu se lăseze cu adevărat lumea în care trăiește. Ispita transcendentiei ne ajută să descoperim adevărata natură a gândirii religioase umane și instrumentele raionale critice. **Choice**. O carte foarte importantă, scrisă clar și bazată pe argumente solide. *Journal of the American Academy of Religion*. Începutul neîmpiedicării conștientizării faptului că nu există dovezi suficiente care să confirme că am fost creați de vreo divinitate și că suntem într-o anumită măsură responsabili pentru propriul destin. Ființele umane pot ajunge la această via bună, dar vor avea parte de ea cel mai probabil prin cultivarea virtuților inteligenței și curajului, nu prin credință oarbă sau obediență. PAUL KURTZ.
