Government People:

The People's Government Del Dickson, 2014-07-21 The People's Government is premised on the idea that democracy is based on two fundamental rights freedom and liberty Liberty is the right to be left alone while freedom is the right to participate in a political community How people view democracy depends on which of these two rights they think is more important Liberal democrats place a higher value on liberty while free democrats see freedom as the primary right From this starting point the author adds five dimensions to define and distinguish democratic societies rights participation and representation inclusion equality and power Liberal democracies emphasize individualism negative rights representative government inclusive citizenship equal opportunity and limited government Free democracies stress community positive rights direct participation exclusive citizenship equal outcomes and robust government The book examines the most important arguments for and against democracy and explores the life cycle of democracies how countries democratize mature and fail Finally the author uses the five dimensions established earlier to evaluate and grade American democracy

Brannen Jr., 2015-02-04 Legal brief filed by the people of a rural Pennsylvania municipality against a corporation attempting to inject fracking wastes into their community The brief demands that the federal court find that the people possess the right of local community self government and find the corporation liable for a violation of their self government rights **The Right of the People to Establish Forms of Government** Benjamin Franklin Hallett, 1848 **Young People's Views of Government, Peaceful Coexistence, and Diversity in Five Latin American Countries** Wolfram Schulz, John Ainley, Cristián Cox, Tim Friedman, 2018-08-29 This open access report presents findings from the five Latin American countries that participated in the second cycle of the IEA International Civic and Citizenship Education Study ICCS 2016 ICCS 2016 investigated the ways in which a range of countries are preparing their young people to undertake their roles as citizens during the second decade of the 21st century The study also responded to new challenges in civic and citizenship education and its findings allow robust comparisons of lower secondary students attitudes to and perceptions of a wide range of aspects related to civics and citizenship The results presented in this report come mainly from data collected via a regional Latin American student questionnaire The findings provide insights into Latin American lower secondary students thoughts on government practices e g corruption and authoritarian government their attitudes toward peaceful coexistence e g use of violence disobedience to the law empathy and their perceptions of diversity in society e g tolerance of and discrimination against minorities and homosexuals Four of the five participating Latin American countries also participated in the previous cycle of this study ICCS 2009 making it possible to explore changes in young people's civic related perceptions and attitudes between 2009 and 2016 Data from the international part of the study test and questionnaire were used to review the extent to which region specific

Governments Around the World Ernestine Giesecke, 2009-08-15 Introduces the concept of government exploring various types of systems including democracy communism and socialism and presenting international organizations such as the UN and NATO

People's Republic of China International Monetary Fund. Asia and Pacific Dept, 2014-07-30 KEY ISSUES Context After three decades of remarkable growth the economy has been slowing Much of the slowdown has been structural reflecting the natural convergence process and waning dividends from past reforms weak global growth has also contributed Moreover since the global financial crisis growth has relied too much on investment and credit which is not sustainable and has created rising vulnerabilities Growth was 7.7 percent in 2013 and is expected to slow to around 7.1-7.2 percent this year and decline further over the medium term Focus The pattern of growth since the global financial crisis is not sustainable and has resulted in rising vulnerabilities The discussions focused on assessing the risks posed by the continued build up of vulnerabilities reforms to unleash new sustainable engines of growth and reduce vulnerabilities and how to best manage aggregate demand in this context as growth is slowing yet risks are still rising A key takeaway is that to secure a safer development path accommodative policies need to be carefully unwound accompanied by decisive implementation of the announced reform agenda to promote rebalancing The result will be somewhat slower but safer growth in the near term with the significant long run benefit of securing more inclusive environment friendly and sustainable growth Risks Credit and shadow banking local government finances and the corporate sector particularly real estate are the key and interlinked areas of rising vulnerability In the near term the risk of a hard landing is still considered low as the government has the capacity to combat potential shocks However without a change in the pattern of growth the hard landing risk continues to rise and is assessed to be medium likely over the medium term Reform agenda The authorities have announced a comprehensive and ambitious blueprint of reforms Successful implementation should achieve the desired transformation of the economy but will also be challenging Demand management Reining in credit growth local government borrowing and investment will address the risks but also slow growth Macro support should be calibrated to allow needed adjustments to take place while preventing growth from slowing too much Scenarios and spillovers With faster adjustment and reform implementation growth will be somewhat lower in the near term with moderate spillovers for trading partners However in the medium term income and consumption will both be higher a result that is good for China and good for the global economy

The People's Blue Book. Taxation as it is and as it ought to be. By C. Tennant. Second edition ,1862

The People's Congresses and Governance in China Ming Xia, 2007-10-30 This book provides a balanced assessment of China's communist rule its viability as well as its prospect of democracy The People's Congresses and Governance in China presents a complex but convincing analysis of the transformation of governance in China As the first systemic and theoretical study of China's provincial legislatures it draws our attention to one of the most promising growth points in China's changing

constitutional order Through in depth and first hand research the author provides a comprehensive explanation about why the provincial legislatures have acquired institutional maturation and expanded power in the context of Chinese transitional political economy The book portrays an innovative pattern of legislative development sums up pragmatic local strategies for market creation and identifies multiple dynamics for promoting accountability and democracy Based upon the case study of provincial legislatures Ming Xia reveals the formation of a new mode of governance in China s national politics the network structure featuring institutional arrangements and the mohe co operation through competition pattern of interaction abided by the major power players This volume will be of interest to parliamentary scholars and parliamentarians who are concerned with the role of parliaments in transitional politics and economies of both post communist and developing countries It will also appeal to students and researchers of Chinese politics governance and Asian studies Administrative Law Steven J. Cann,2005-08-11 In this new edition author Steven J Cann once again enlivens the topic of United States administrative law through the use of recent and classic legal cases to make it accessible and interesting to students Administrative Law Fourth Edition is an engaging casebook that presents a unique problem solving framework that contrasts democracy with the administrative state This novel approach places the often complex subject matter of U S administrative law into a more comprehensible context The Fourth Edition has been completely updated and revised and includes many new cases to reflect changes in the law since the year 2000 China's Foreign Investment Legal Regime Yawen Zheng,2023-01-09 China s foreign investment legal regime encompasses domestic laws governing inward and outward investments investment treaties and the Belt and Road Initiative Can China s foreign investment legal regime lead its two way investments towards the country s five development goals building technological capacity deepening integration into the global economy promoting green development protecting security and participating in global economic governance and rule making Yawen Zheng pioneers a systematic study of China s foreign investment legal regime finding that the regime has gradually made progress towards the development goals but the effort is diluted by obstacles such as outdated treaties conflicts with the West and domestic political challenges **St. Louis Law Review** ,1925 Government support towards the additional living costs of working-age disabled people Great Britain: Parliament: House of Commons: Work and Pensions Committee,2012-02-19 The Government s Welfare Reform Bill includes measures to introduce a new benefit in 2013 the Personal Independence Payment PIP will replace Disability Living Allowance DLA for working age claimants to help meet the additional living costs of disabled people A new eligibility assessment process will also be brought in But this report finds that the Government should not introduce Personal Independence Payment PIP assessments nationally until it has satisfied itself in the planned initial roll out of the new assessment in a limited geographical area that the assessment is empathetic and accurate The report highlights a number of areas of concern The current draft criteria on which the assessment will be based are still too reliant on a medical model of disability and may fail to take sufficient account of the impact of social

practical and environmental factors such as housing and access to public transport on disabled people's ability to participate in society and the additional costs they therefore incur. The Committee believes that the Government should listen to the views of disabled people and their representative organisations and conduct a further trial before the criteria are adopted and the new assessment is introduced. Once the initial assessments for PIP have been completed in the first geographical area, the Government should look again at the value of face to face assessments for PIP claims where claimants' conditions are severe and unlikely to change. It is also important that DWP gets the contracting process with the private suppliers right.

The author explores the topic from the perspective of the provincial People's Congress which is at the intermediate level in the Chinese political hierarchy as the corresponding level of provincial government possesses local legislature power. With further normalization of the central government management, local governance will be critical to political development in the future. Improvement of the budgetary supervision system of the provincial People's Congress will promote legal construction of the local government which will necessarily affect the game of standardization of the powers of the government and civil rights. The book also analyzes the power of amendment of draft budget and legal construction of the disclosure of budget information, especially investigating the provincial power structure during the process of budgetary supervision and uncovering the problems and difficulties in the budgetary supervision system in China. Press and Publications Summary United States Information Service (Taipei, Taiwan), 1965-02. **The European Magazine, and London Review**, 1822. **People's Diplomacy of Vietnam** Harish C. Mehta, 2019-08-20 This is the first full length book on the concept of People's Diplomacy promoted by the president of North Vietnam Ho Chi Minh at the peak of the Vietnam War from 1965-1972. It holds great appeal for historians, international relations scholars, diplomats and the general reader interested in Vietnam. A form of informal diplomacy, people's diplomacy was carried out by ordinary Vietnamese including writers, cartoonists, workers, women, students, filmmakers, medical doctors, academics and sportspersons. They created an awareness of the American bombardment of innocent

Vietnamese civilians and made profound connections with the anti war movements abroad People s diplomacy made it difficult for the United States to prolong the war because the North Vietnamese together with the peace movements abroad exerted popular pressure on the American presidents Lyndon Johnson and Richard Nixon to end the conflict It was much more effective than the formal North Vietnamese diplomacy in gaining the support of Westerners who were averse to communism It damaged the reputation of the United States by casting North Vietnam as a victim of American imperialism
