Provocative Eloquence Laura L. Mielke, 2019-02-26 In the mid 19th century rhetoric surrounding slavery was permeated by violence Slavery s defenders often used brute force to suppress opponents and even those abolitionists dedicated to pacifism drew upon visions of widespread destruction Provocative Eloquence recounts how the theater long an arena for heightened eloquence and physical contest proved terribly relevant in the lead up to the Civil War As antislavery

speech and open conflict intertwined the nation became a stage The book brings together notions of intertextuality and interperformativity to understand how the confluence of oratorical and theatrical practices in the antebellum period reflected the conflict over slavery and deeply influenced the language that barely contained that conflict The book draws on a wide range of work in performance studies theater history black performance theory oratorical studies and literature and law to provide a new narrative of the interaction of oratorical theatrical and literary histories of the nineteenth century U S [The Literature of Reconstruction](#) Brook Thomas,2017-01-17 In this groundbreaking new study author Brook Thomas argues that literary analysis can enhance our historical understanding of race and Reconstruction The standard view that Reconstruction ended with the Compromise of 1877 is a retrospective construction Works of literature provide the perspective of those who continued to see possibilities for its renewal well past 1877 Historians have long tried to reconcile social history s emphasis on the local with political history s emphasis on the national Literature creates national political allegories while focusing on events in a particular locale Moreover the debate over Reconstruction was a debate about state legitimacy as well as specific laws It was a question of foundational myths as well as foundational legal principles Literature s political allegories allow us to recreate those debates rather than view the end of Reconstruction as a foregone conclusion Because many of the issues raised by Reconstruction remain unresolved those debates continue into the present Chapters treat how the racial issues raised by Reconstruction are interwoven with debates over state v national authority efforts to combat terrorism the KKK the paternalism of welfare economic expansion and the question of who should rightly inherit the nation s past Thomas examines authors who opposed Reconstruction authors who supported it and authors who struggled with mixed feelings This exciting text will set the standard in literary historical studies for decades to come [Reading and Writing for Civic Literacy](#) Donald Lazere,2015-12-03 This brief edition of a groundbreaking textbook addresses the need for college students to develop critical reading writing and thinking skills for self defense in the contentious arena of American civic rhetoric Designed for first year or more advanced composition and critical thinking courses it is one third shorter than the original edition more affordable for students and easier for teachers to cover in a semester or quarter It incorporates up to date new readings and analysis of controversies like the growing inequality of wealth in America and the debates in the 2008 presidential campaign expressed in opposing viewpoints from the political left and right Exercises help students understand the ideological positions and rhetorical patterns that underlie such opposing views Widely debated issues of whether objectivity is possible and whether there is a liberal or conservative bias in news and entertainment media as well as in education itself are foregrounded as topics for rhetorical analysis [Lincoln's Sacred Effort](#) Lucas E. Morel,2000-01-19 Lucas Morel examines what the public life of Abraham Lincoln teaches about the role of religion in a self governing society Lincoln s understanding of the requirements of republican government led him to accommodate and direct religious sentiment toward responsible self government As a successful republic requires a moral or self controlled people Lincoln believed the moral and religious
