Flying and Preserving Historic Aircraft David Frederick Ogilvy, 2023-11-23 David Ogilvy has spent more than a full working life in aviation As a schoolboy he was sent out with a bugle and binoculars to blow a warning if a V1 flying bomb appeared Soon after this he joined the Royal Air Force and served for six years as a pilot flying types ranging from the Tiger Moth to the Mosquito and Meteor As a civilian he spent fourteen years involved in pilot training and became Chief Instructor of the Air Schools group with responsibility for three establishments He was a keen display and racing pilot and competed in many events flying several historic types At an early age David realised the need for owners and operators of flyable pre war machines to have a representative organization to look after their concerns and interests so in 1951 when 22 and still serving in the RAF he was a co founder of the Vintage Aeroplane Club He was also a founding member and now a Vice President of the Historic Aircraft Association In 1966 David was appointed general manager of the famous Shuttleworth Collection at Old Warden During this time he brought in several historic aircraft including initiating the retrieval of a 1935 Hawker Hind from Afghanistan He flew many of the Collection s remarkable airplanes organizing and participating in the displays As well as outlining his remarkable career the main focus of this book is on David Ogilvy s descriptions of many of the historic aircraft he helped rescue and preserve and what it was like to be at their controls It therefore provides a unique compendium of the flying characteristics of a range of historic aircraft for one or two of which he unashamedly admits he is possibly the last man alive to have flown Away from the cockpit David has been associated with many organizations including being a founder member of the UK Aircraft Owners and Pilots Association serving for 45 years in the roles of editor Executive Chairman and

Simons,2021-01-18 A history of the British airline company featuring details on the aircrafts routes and operations as well as stories from the crews and staff Founded in 1961 as Euravia by British businessman Ted Langton and aviation consultant J E D Walker at a time of considerable turmoil for the independent sector of the British air operators industry Britannia Airways went on to become the world's largest holiday airline Just as Court Line evolved from Autair so Britannia Airways evolved from Euravia Both UK airlines had strong links with the travel industry Court Line with Clarksons Holidays and Britannia with the Thomson Group in particular the Sky Tours brand Both were innovative in their own ways and both grabbed the UK

travel industry by the scruff of the neck and shook it into the jet age Court line traveling down the brasher cheap and cheerful road while Britannia took the more staid upmarket route By 1972 Britannia had developed to such a degree that it was the biggest of the British independent charter airlines It was also a groundbreaking operation during the late 1960s it became the first charter airline to offer assigned seating as well as hot in flight meals Prior to the mid 1970s Britannia much like other British charter airlines of the era had concentrated upon low cost flights to Spain and the use of provincial airports to provide its services The company s management however harbored ambitions to grow beyond this As a result for example Britannia s 767s began regular charter flights between Britain and Australia in 1988 a route to New Zealand being added the following year Between 1968 and 1984 Britannia carried nearly forty two million passengers while the company s fleet grew to include twenty nine Boeing 737s and a pair of 767s Drawing on the author s in depth research and knowledge as well as firsthand interviews with individuals such as Ted Langton the original tour operator who wanted his own airline and Jed Williams who created Britannia this the full story of one of the most important airlines in the history of civil aviation

Henry 'Chips' Channon: The Diaries (Volume 2) Chips Channon,2021-09-09 The second volume of the remarkable Sunday Times bestselling diaries of Chips Channon A masterpiece a time machine that transports the reader back to British politics

and high society at the end of the 1930s Robert Harris The uncensored unvarnished thought of one of the 20th century s greatest diarists Best Biographies of the Year Telegraph An unrivalled guide to the social and political life of Britain in the first half of the 20th century Books of the Year The Times Fascinating New Statesman Never a dull day never a dull sentence Daily Mail _____

This second volume of the bestselling diaries of Henry Chips Channon takes us from the heady aftermath of the Munich agreement when the Prime Minister so admired by Chips was credited with having averted a general European conflagration through the rapid unravelling of appeasement and on to the tribulations of the early years of the Second World War It closes with a moment of hope as Channon in recording the fall of Mussolini in July 1943 reflects The war must be more than half over For much of this period Channon is genuinely an eye witness to unfolding events He reassures Neville Chamberlain as he fights for his political life in May 1940 He chats to Winston Churchill while the two men inspect the bombed out chamber of the House of Commons a few months later From his desk at the Foreign Office he charts the progress of the war But with the departure of his boss Rab Butler to the Ministry of Education and Channon s subsequent exclusion from the corridors of power his life changes and with it the preoccupations and tone of the diaries The conduct of the war remains a constant theme but more personal preoccupations come increasingly to the fore As he throws himself back into the pleasures of society he records his encounters with the likes of No 1 Coward Prince Philip General de Gaulle and Oscar Wilde s erstwhile lover Lord Alfred Douglas He describes dinners with members of European royal dynasties and recounts gossip and scandal about the great the good and the less good And he charts the implosion of his marriage and his burgeoning passionate friendship with a young officer on Wavell s staff These are diaries that bring a whole epoch vividly to life

Defending London Mike Osborne,2011-11-30 For two thousand years London has been at the heart of Britain s development as a nation providing a focus for its political life The military element is now usually visible

only through the pageantry which attends royal occasions but this masks a more serious underlying intent Frequently the target for both foreign invaders and domestic factions it has been required to defend itself against everything from seaborne raiders to aerial bombardment and the threat of nuclear war At the same time the direction of military affairs has been centred on London along with the military infrastructure of barracks depots magazines dockyards and munitions factories The evidence for much of this can be seen in the landscape from the mediaeval Tower of London and the underground nuclear citadels in the urban centre to the royal palaces moated sites airfields and anti invasion defences in the suburbs and the green belt This book describes the various elements of London s military heritage and places them in their historical and social context From the castles and strong houses of the mediaeval and Tudor monarchs and statesmen to the pseudo fortresses of the Victorian militia and rifle volunteers the airfields of the anti Zeppelin fighters of the Royal Flying Corps and the Battle of Britain bases of the RAF to the pillboxes of the defences against invasion in 1940 and the anti nuclear defences of the Cold War and beyond
