Elusive Prophet Ahad Ha'am And The Origins Of Zionism:

Ahad Ha'am Elusive Prophet Steven J Zipperstein, 2012-08-27 An incisive biography of the guiding intellectual presence and chief internal critic of Zionism during the movement's formative years between the 1880s and the 1920s Ahad Ha'am One of the People was the pen name of Asher Ginzberg 1856-1927 a Russian Jew whose life intersected nearly every important trend and current in contemporary Jewry His influence extended to figures as varied as the scholar of mysticism Gershom Scholem the Hebrew poet Hayyim Nahman Bialik and the historian Simon Dubnow Theodor Herzl may have been the political leader of the Zionist movement but Ahad Ha'am exerted a rare perhaps unequalled authority within Jewish culture through his writings Ahad Ha'am was a Hebrew essayist of extraordinary knowledge and skill a public intellectual who spoke with refreshing and also according to many exasperating candour on every controversial issue of the day He was the first Zionist to call attention to the issue of Palestinian Arabs He was a critic of the use of aggression as a tool in advancing Jewish nationalism and a foe of clericalism in Jewish public life His analysis of the prehistory of Israeli political culture was incisive and prescient Steven J Zipperstein offers all those interested in contemporary Jewry in Zionism and in the ambiguities of modern nationalism a wide ranging perceptive reassessment of Ahad Ha'am's life against the back drop of his contentious political world This influential figure comes to life in a penetrating and engaging examination of his relations with his father with Herzl and with his devotees and opponents alike Zipperstein explores the tensions of a man continually torn between sublimation and self revelation between detachment and deep commitment to his people between irony and lyricism between the inspiration of his study and the excitement of the streets As a Zionist intellectual Ahad Ha'am rejected both xenophobia and assimilation seeking for the Jews a usable past and a plausible future *Elusive Prophet* Steven J. The Paradox of Liberation Michael Walzer, 2015-03-01 Many of the successful campaigns for national liberation in the years following World War II were initially based on democratic and secular ideals Once established however the newly independent nations had to deal with entirely unexpected religious fierceness Michael Walzer one of America's foremost political thinkers examines this perplexing trend by studying India Israel and Algeria three nations whose founding principles and institutions have been sharply attacked by three completely different groups of religious revivalists Hindu militants ultra Orthodox Jews and messianic Zionists and Islamic radicals In his provocative well reasoned discussion Walzer asks why these secular democratic movements have failed to sustain their hegemony Why have they been unable to reproduce their political culture beyond one or two generations In a postscript he compares the difficulties of contemporary secularism to the successful establishment of secular politics in the early American republic thereby making an argument for American exceptionalism but gravely noting that we may be less exceptional today

[Moses Mendelssohn and the Religious Enlightenment](#) David Sorkin, 2012-08-27 Moses Mendelssohn 1729-1786 was the premier Jewish thinker of his day and one of the best known figures of the German Enlightenment earning the sobriquet the Socrates of Berlin He was thoroughly involved in the central issue of Enlightenment religious thinking the inevitable conflict between reason and revelation in an age contending with individual rights and religious toleration He did not aspire to a comprehensive philosophy of Judaism since he thought human reason was limited but he did see Judaism as compatible with toleration and rights David Sorkin offers a close study of Mendelssohn's complete writings treating the German and the often neglected Hebrew writings as a single corpus and arguing that Mendelssohn's two spheres of endeavour were entirely consistent

[Arieh Sharon and Modern Architecture in Israel](#) Eran Neuman, 2023-11-30 Arieh Sharon and Modern Architecture in

Israel Building Social Pragmatism offers the first comprehensive survey of the work of Arie Sharon and analyzes and discusses his designs and plans in relation to the emergence of the State of Israel. A graduate of the Bauhaus, Sharon worked for a few years at the office of Hannes Mayer before returning to Mandatory Palestine. There he established his office, which was occupied in its first years in planning kibbutzim and residential buildings in Tel Aviv. After the establishment of the State of Israel in 1948, Arie Sharon became the director and chief architect of the National Planning Department, where he was asked to devise the young country's first national masterplan. Known as the Sharon Plan, it was instrumental in shaping the development of the new nation. During the 1950s and 1960s, Sharon designed many of Israel's institutions, including hospitals and buildings on university campuses. This book presents Sharon's exceptionally wide range of work and examines his perception of architecture in both socialist and pragmatist terms. It also explores Sharon's modernist approach to architecture and his subsequent shift to Brutalist architecture when he partnered with Benjamin Idelson in the 1950s and when his son Eldar Sharon joined the office in 1964. Thus, the book contributes a missing chapter in the historiography of Israeli architecture in particular and of modern architecture overall. This book will be of interest to researchers in architecture, modern architecture, Israel studies, Middle Eastern studies, and migration of knowledge.

Next Year in Jerusalem Leonard J. Greenspoon, 2019-10-15. Next Year in Jerusalem recognizes that Jews have often experienced or imaged periods of exile and return in their long tradition. The fourteen papers in this collection examine this phenomenon from different approaches, genres, and media. They cover the period from biblical times through today. Among the exiles highlighted are the Babylonian Exile (sixth century BCE), the exile after the destruction of the Jerusalem Temple (70 CE), and the years after the Crusaders' tenth century CE. Events of return include the aftermath of the Babylonian Exile (fifth century BCE), the centuries after the Temple's destruction (first and second CE), and the years of the establishment of the modern State of Israel (1948 CE). In each instance, authors pay close attention to the historical settings, the literature created by Jews and others, and the theological explanations offered. Typically, this was seen as divine punishment or reward for Israel's behavior. The entire volume is written authoritatively and accessibly.

The Making of Eretz Israel in the Modern Era Yehoshua Ben-Arieh, 2020-03-09. Napoleon's invasion of the Middle East marks the beginning of the modern era in the region. This book traces the developments that led to the making of a new and separate geographical political entity in the Middle East, known as Eretz Israel, and the establishment of the State of Israel within its bounds. Thus, its time frame runs from Napoleon's invasion of Eretz Israel/Palestine in 1799 to the establishment of Israel in 1948. 1949, Eretz Israel, as the formal name of a separate entity in the modern era, first appeared in the early translations into Hebrew of the Balfour Declaration, while in the original document the country was referred to as Palestine. During the period of Ottoman rule, the territory that would in time be called Eretz Israel/Palestine was not a separate political unit. Among Jews, use of Eretz Israel increased only after the beginning of Zionist aliyot. Had the Zionist movement not arisen, it is doubtful whether the development to which this study is

devoted would have occurred The motivating force behind that process is without doubt the Zionist element That is why Jews are the major protagonists in this book

Inventing New Beginnings Asher D. Biemann, 2009-01-01 Inventing New Beginnings is the first book length study to examine the conceptual underpinnings of the Jewish Renaissance or return to Judaism that captured much of German speaking Jewry between 1890 and 1938 The book addresses two very fundamental yet hitherto strangely understated questions What did the term renaissance actually mean to the intellectuals and ideologues of the Jewish Renaissance and how did this understanding relate to wider currents in European intellectual and cultural history of the nineteenth and early twentieth centuries It also addresses the larger question of how we can contemplate renaissance as a mode of thought that is conditioned by the consciousness and experience of modernity and that extends to our present time

Jewish Tradition and the Challenge of Darwinism Geoffrey Cantor, Marc Swetlitz, 2008-09-15 Darwin's theory of evolution transformed the life sciences and made profound claims about human origins and the human condition topics often viewed as the prerogative of religion As a result evolution has provoked a wide variety of religious responses ranging from angry rejection to enthusiastic acceptance While Christian responses to evolution have been studied extensively little scholarly attention has been paid to Jewish reactions Jewish Tradition and the Challenge of Darwinism is the first extended meditation on the Jewish engagement with this crucial and controversial theory The contributors to Jewish Tradition and the Challenge of Darwinism from several academic disciplines and two branches of the rabbinate present case studies showing how Jewish discussions of evolution have been shaped by the intersections of faith science philosophy and ideology in specific historical contexts Furthermore they examine how evolutionary theory has been deployed when characterizing Jews as a race both by Zionists and by anti Semites Jewish Tradition and the Challenge of Darwinism addresses historical and contemporary as well as progressive and Orthodox responses to evolution in America Europe and Israel ultimately extending the history of Darwinism into new religious domains

Studies in Contemporary Jewry: XI: Values, Interests, and Identity Peter Y. Medding, 1995 This collection of original articles addresses the often conflicting roles of values interests and identity in contemporary Jewish politics with its focus on Jews and contemporary politics particularly the interplay of politics and Jewish history this new work makes an outstanding contribution to the scholarly literature

The Dream of Zion Lawrence J. Epstein, 2016-01-14 The Dream of Zion tells the story of the Jewish political effort to restore their ancient nation At the First Zionist Congress in Basel Switzerland in August 1897 Theodor Herzl convened a remarkable meeting that founded what became the World Zionist Organization defined the political goals of the movement adopted a national anthem created the legal and financial instruments that would lead to statehood and ushered the reentry of the Jewish people into political history It was there in Basel that Herzl the man some praised and some mocked as the new Moses became the leader The book provides an overview of the history that led to the Congress an introduction to key figures in Israeli history a discussion of the climate at the time for Jews including the pogroms in Russia and a discussion of themes

that remain relevant today such as the Christian reaction to the Zionist idea As political debates continue to swirl around Israel this book opens a window into its founding

Glory and Agony Yael Feldman, 2010-09-01 *Glory and Agony* is the first history of the shifting attitudes toward national sacrifice in Hebrew culture over the last century Its point of departure is Zionism's obsessive preoccupation with its haunting primal scene of sacrifice the near sacrifice of Isaac as evidenced in wide ranging sources from the domains of literature art psychology philosophy and politics By placing these sources in conversation with twentieth century thinking on human sacrifice violence and martyrdom this study draws a complex picture that provides multiple sometimes contradictory insights into the genesis and gender of national sacrifice Extending back over two millennia this study unearths retellings of biblical and classical narratives of sacrifice both enacted and aborted voluntary and violent male and female Isaac Ishmael Jephthah's daughter Iphigenia Jesus *Glory and Agony* traces the birth of national sacrifice out of the ruins of religious martyrdom exposing the sacred underside of Western secularism in Israel as elsewhere

Booking Passage Sidra DeKoven Ezrahi, 2023-12-22 Sidra DeKoven Ezrahi's sweeping study of modern Jewish writing is in many ways a long meditation on the thematics of geography in Jewish culture what she calls the poetics of exile and return Until the late nineteenth century Jews were identified in their own religious and poetic imagination as wanderers and exiles their sacred center Jerusalem Zion fatefully out of reach Opening the book with *Jewish Journeys* Ezrahi begins by examining the work of medieval Hebrew poet Yehuda Halevi to chart a journey whose end was envisioned as the sublime realignment of the people with their original center When the Holy Land became the site of a political drama of return in the nineteenth century Jewish writing reflected the shift traced here in the travel fictions of S Y Abramovitsh S Y Agnon and Sholem Aleichem In *Jewish Geographies* Ezrahi explores aspects of reterritorialization through memory in the post Holocaust writing of Paul Celan Dan Pagis Aharon Appelfeld I B Singer and Philip Roth Europe where Jews had dreamed of return has become the new ruined shrine The literary pilgrimages of these writers recall familiar patterns of grieving and representation and a tentative reinvention of the diasporic imagination in America of course but paradoxically even in Zion Sidra DeKoven Ezrahi's sweeping study of modern Jewish writing is in many ways a long meditation on the thematics of geography in Jewish culture what she calls the poetics of exile and return Until the late nineteenth century Jews were identified

The Book of the People Dan Tsahor, 2023-07-04 Hebrew encyclopedias have an intriguing history The genre which began as modest initiatives to disseminate general knowledge and strengthen literacy among Russian Jews quickly became the most popular in modern Hebrew literature with tens of thousands of subscribers to publications such as *Encyclopaedia Hebraica* and *Encyclopaedia Biblica* The makers of these vast bodies of knowledge hoped to demonstrate Hebrew's mimetic power and the vitality of newly created Jewish research institutions They also hoped that the encyclopedias would be an essential tool in shaping and reshaping Zionist national culture and nurturing an ideal national persona Thus the printed pages of the encyclopedias give us unique access to what Zionists were saying about themselves how they perceived their

neighbors and what they were hoping for the future thereby going beyond the official Zionists documents newspaper articles and the writings of intellectuals that have been used extensively by historians to narrate national consciousness By bringing to the fore these unique texts *The Book of the People* presents common perceptions of memory and collective identity that often do not fit with the narratives offered by historians of Zionism In doing so the book also exposes ethical codes that regulated the production of Zionist knowledge and endowed the encyclopedias with a rare status as a bona fide source for truths by people from diverse political and social backgrounds

Question Of Zion Jacqueline Rose,2016-05-16 Zionism is

driven by the search for a homeland for the stateless and persecuted Jewish people Yet it has infamously clashed with the rights of the Arabs in Palestine and become so controversial that deep understanding and reasoned public debate is increasingly difficult Prominent British writer Jacqueline Rose uses her political and analytical skills to take an unprecedented look at Zionism one of the most powerful ideologies of modern times Rose enters the inner world of the movement and asks a new set of questions How did Zionism take shape as an identity And why does it seem so immutable Rose argues that Zionism colours Israel s most profound self image In the most provocative part of her book Rose proposes that the link between the Holocaust and the founding of the Jewish state so often used to justify Israel s policies needs to be rethought

The Divine in Modern Hebrew Literature Neta Stahl,2020-02-25 Demonstrating the pervasive presence of God in modern Hebrew literature this book explores the qualities that twentieth century Hebrew writers attributed to the divine and examines their functions against the simplistic dichotomy between religious and secular literature The volume follows both chronological and thematic paths offering a panoramic and multilayered analysis of the various strategies in which modern Hebrew writers from the turn of the nineteenth century through the twenty first century pursued in their attempt to represent the divine in the face of metaphysical theological and representational challenges Modern Hebrew literature emerged during the nineteenth century as part of the Haskalah Jewish Enlightenment movement which attempted to break from the traditional modes of Jewish intellectual and social life The Hebrew literature that arose in this period embraced the rebellious nature of the Haskalah and is commonly characterized as secular in nature defying Orthodoxy and rejecting God Nevertheless this volume shows that modern Hebrew literature relied on traditional narratological and poetic norms in its attempt to represent God Despite its self declared secularity it engaged deeply with traditional problems such as the nature of God divine presence and theodicy Examining these radical changes this volume is a key text for scholars and students of modern Hebrew literature Jewish studies and the intersection of religion and literature

Religious Dynamics under the Impact of Imperialism and Colonialism Björn Bentlage,Marion Eggert,Hans Martin Krämer,Stefan Reichmuth,2016-10-11 This sourcebook offers rare insights into a formative period in the modern history of religions Throughout the late 19th and the early 20th centuries when commercial political and cultural contacts intensified worldwide politics and religions became ever more entangled This volume offers a wide range of translated source texts from all over Asia the Middle East and

Europe thereby diminishing the difficulty of having to handle the plurality of involved languages and backgrounds The ways in which the original authors some prominent and others little known thought about their own religion its place in the world and its relation to other religions allows for much needed insight into the shared and analogous challenges of an age dominated by imperialism and colonialism **The Poetics of Prophecy** Yosefa Raz, 2023-12-21 Yosefa Raz reveals surprising entanglements between scholarly and poetic traditions in the project of reinventing prophecy This title is part of the Flip it Open Programme and may also be available Open Access Check our website Cambridge Core for details
