In a technologically suppressed future information demands to be free in the debut novel from

Hugo Award winning author Charlie Stross In the twenty first century life as we know it changed Faster than light travel was perfected and the Eschaton a superhuman artificial intelligence was born Four hundred years later the far flung colonies that arose as a result of these events scattered over three thousand years of time and a thousand parsecs of space are beginning to rediscover their origins The New Republic is one such colony It has existed for centuries in self imposed isolation rejecting all but the most basic technology Now under attack by a devastating information plague the colony must reach out to Earth for help A battle fleet is dispatched streaking across the stars to the rescue But things are not what they seem secret agendas and ulterior motives abound both aboard the ship and on the ground And watching over it all is the Eschaton which has its own very definite ideas about the outcome

The Art of Absence Joy Passanante,2004 The stories in *The Art of Absence* explore the complex relationships between lovers between family members between friends What Passanante shows again and again is how the ties that bind can be our comfort and our despair Though the overt subject of most of these stories is passion that transgresses the boundaries of marriage and of other familial and professional codes what the characters act out in surprising creative and sometimes terrifying ways are the hopes and unforeseen consequences of the post war suburban dream of the perfect place the home that will satisfy every need and settle all questions

Reading Programs for Young Adults Martha Seif Simpson,2015-11-16 School and public libraries often provide programs and activities for children in preschool through the sixth grade but there is little available to young adults For them libraries become a place for work the place to research an assignment or find a book for a report but the thought of the library as a place for enjoyment is lost So how do librarians recapture the interest of teenagers This just might be the answer Here you will find theme based units such as Cartoon Cavalcade Log On at the Library Go in Style Cruising the Mall Space Shots Teens on TV and 44 others that are designed for young adults Each includes a display idea suggestions for local sponsorship of prizes a program game to encourage participation 10 theme related activities curriculum tie in activities sample questions for use in trivia games or scavenger hunts ideas for activity sheets a bibliography of related works and a list of theme related films The units are highly flexible allowing any public or school library to adapt them to their particular needs

[Mini-Forest Revolution](#) Hannah Lewis,2022-06-09 2023 Nautilus Book Award Gold Medal Winner Green Restorative Practices Sustainability Hannah Lewis describes a gift to a despairing world There may be no single climate solution that has a greater breadth of benefits than mini forests and can be done by everyone everywhere Paul Hawken from the foreword For readers who enjoyed *Finding the Mother Tree* and *The Hidden Life of Trees* comes the first ever book about a movement to restore biodiversity in our cities and towns by transforming empty lots backyards and degraded land into mini

forests Author Hannah Lewis is the forest maker turning asphalt into ecosystems to save the planet and she wants everyone to know they can do it too In *Mini Forest Revolution* Lewis presents the Miyawaki Method a unique approach to reforestation devised by Japanese botanist Akira Miyawaki She explains how tiny forests as small as six parking spaces grow quickly and are much more biodiverse than those planted by conventional methods She explores the science behind why Miyawaki style mini forests work and the myriad environmental benefits including cooling urban heat islands establishing wildlife corridors building soil health sequestering carbon creating pollinator habitats and more Today the Miyawaki Method is witnessing a worldwide surge in popularity Lewis shares the stories of mini forests that have sprung up across the globe and the people who are planting them from a young forest along the concrete alley of the Beirut River in Lebanon to a backyard forest planted by tiny forest champion Shubhendu Sharma in India This inspiring book offers a revolutionary approach to planting trees and a truly accessible solution to the climate crisis that can be implemented by communities classrooms cities clubs and families everywhere Lewis simplifies the science of planting trees in a manner that produces the maximum benefit
