**Escape from Loneliness** Paul Tournier, 1967      **Escape from Loneliness** Paul Tournier, 1971      Escape from Loneliness David O. Rankin, First Unitarian Society of San Francisco, 1978      Heaven In Ordinarie Noel O'Donoghue, 2000-12-27 A unique study of those human dimensions such as belonging loneliness and pathos often overlooked in theology and philosophy      The Psychological Journey To and From Loneliness Ami Rokach, 2019-04-06 There are three universal experiences that we cannot escape loneliness illness and death The Psychological Journey To and From Loneliness addresses what was termed the plague of the 21st century loneliness Loneliness is stigmatized in our society so untold number of people walk around lonely unable to do what is so naturally called for make their suffering known and approach others for company and support Thankfully loneliness is slowly but steadily coming out of the closet This book will highlight not only the experience and what can be done about it but also the experiences that influence it i e our childhood cultural and religious influences and our way of life as well as the effects that loneliness has on various population groups and how it is experienced at different times in our lives This volume reviews theoretical approaches to the study of loneliness the positive functions that loneliness may serve in our lives the stages in life when loneliness is quite visible and its effects on us the life experiences that may strengthen the feeling that one is all alone and forgotten life experiences that we do not commonly connect to loneliness but it is clearly present in them e g pregnancy and childbirth and the approaches that are available to copy with its pain and limit its negative effects on us The book closes with a review of how psychotherapy can assist those who need encouragement and support in their struggle with loneliness The book is particularly suitable for academics researchers and clinicians who aim to help clients identify address and cope with loneliness Presents the latest research on the development causes and effects of loneliness Studies loneliness in childhood adolescence and middle and old age Outlines what can be done to limit the negative effects of loneliness on an individual Looks at how childhood cultural religious and other influences affect loneliness      Escape from Loneliness. Translated by John S. Gilmour Paul Tournier,      The Life of Solitude Francesco Petrarca, 1924      *From Loneliness to Solitude in Person-centred Health Care* Stephen Buetow, 2022-08-26 This innovative book provides a new conceptual analysis of loneliness a condition associated with severe health consequences including increased morbidity and early death Arguing that social connection is not the only answer it explores pathways for transforming loneliness to healthy solitude The first part of the book draws on the humanities and arts including psychology philosophy and literature to analyse the common and potentially serious problem of loneliness It makes the case that the condition is less a deficiency than a state of self disconnection that modernity feeds through social forces The second part of the book looks at how person centred health care can help educate persons to transform loneliness into healthy solitude It provides an analysis of self connection and spiritual connection discussing how these forms of contact can mitigate risks associated with both lack of social connection and social connection itself such as self disconnection and

rejection by others It goes on to demonstrate that connection to the self and spirit can make aloneness a resource and facilitate access to benefits of connecting with others This thought provoking book provides students scholars and practitioners from a range of health and social care backgrounds with a new way of thinking about researching and practising with lonely people
