*We Are All Migrants* Jan Plamper, 2023-03-23 In 2015 Germany agreed to accept a million Syrian refugees The country had become an epicenter of global migration and one of Europe's most diverse countries But was this influx of migration new to Germany In this highly readable volume Jan Plamper charts the groups and waves of post 1945 mobility to Germany *We Are All Migrants* is the first narrative history of multicultural Germany told through life stories It explores the experiences of the 12.5 million German expellees from Eastern Europe who arrived at the end of the Second World War the 14 million guest workers from Italy and Turkey who turned West Germany into an economic powerhouse the GDR's Vietnamese labor migrants and the 2.3 million Germans and 230,000 Jews who came from the Soviet Union after 1987 Without minimizing racism *We Are All Migrants* shows that immigration is a success story and that Germany has been and is one of the most fascinating laboratories on our planet in which multiple ways of belonging and ethnic national and supranational identities are hotly debated and messily lived

**Summary of Neil MacGregor's Germany** Everest Media, 2022-06-11T22:59:00Z Please note This is a companion version not the original book Sample Book Insights 1 The German state of Brandenburg has a village green on which communal events are celebrated and the Brandenburg Gate is the setting for all great national events The Gate was originally built as a monument to peace but it has become a symbol of the division of Germany and the world into two blocs 2 The first person to use the Brandenburg Gate for a triumphal entry was not King Frederick II of Prussia but Napoleon Bonaparte After the Battle of Austerlitz in December 1805 the only German state still offering serious resistance to the invader was Prussia 3 The Brandenburg Gate is a monument to which history has added layers of meaning It is also a remarkable standpoint from which to view some of the key moments in German history From this place alone you can see evidence of the Napoleonic Wars as well as many other great events that have shaped the German national memory 4 The westward view from the Brandenburg Gate is a view of Germany's place in the world between 1870 and 1914 If things had gone as Hitler and Albert Speer had planned the view north in the late 1940s would have shown their idea of what that place ought to be

representing the full range of combat experience and its traumatic aftermath This study also explores O'Brien's own paradoxical relationship with his readers manifested through a depiction of the seemingly insurmountable challenge of expressing the inexpressible Finally McKenzie returns to the main idea that in the desire to both relate and understand traumatic experience as O'Brien concludes stories can save us James McKenzie is a former infantry soldier and now senior lecturer in Anglophone Literature at the University of Hildesheim Access to History: Europe and the Cold War
