Mapping a New Museum Laura Osorio Sunnucks, Jago Cooper, 2021-12-20 Mapping a New Museum seeks to rethink the museum's role in today's politically conscious world Presenting a selection of innovative projects that have taken place in Latin America over the last year the book begins to map out possibilities for the future of the global museum The projects featured within the pages of this book were all supported by The Santo Domingo Centre of Excellence for Latin American Research SDCELAR at the British Museum BM with the aim of making the BM's Latin American collections meaningful to communities in the region and others worldwide These projects illustrate how communities manage cultural heritage and taken together they suggest that there is also no all encompassing counter narrative that can be used to decolonise museums Reflecting on and experimenting with the ways that research happens within museum collections the interdisciplinary collaborations described within these pages have used collections to tell stories that destabilise societal assumptions whilst also proactively seeking out that which has historically been overlooked The result is the book argues a research environment that challenges intellectual orthodoxy and values critical and alternative forms of knowledge Mapping a New Museum contains English and Spanish versions of every

chapter which enables the book to put critical stress on the self referentiality of Anglophone literature in the field of museum anthropology The book will be essential reading for students scholars and museum practitioners working around the world

Otherness and National Identity in 19th-Century Spanish Literature , 2022-08-29 Which were the mechanisms by which certain groups were positioned at the margins of national narratives during the nineteenth century either via their exclusion from these narratives or through their incorporation into them as others By engaging with shifting ideas of exclusion and difference the authors in this book reflect upon the paradoxical centrality of the subaltern at a time when literature was deployed as a tool for nation building The lasting

presence of the Jewish and Moorish legacy the portrayal of gypsy characters or the changing notions of femininity in public discourse exemplify the ways in which images of marginal types played a central role in the configuration of the very idea of Spanishness. Cu les fueron los mecanismos mediante los que ciertos grupos fueron relegados a los m rgenes del relato nacional durante el siglo XIX bien a trav s de su exclusi n de dichos relatos bien a trav s de su incorporaci n a ellos como otros. A trav s del an lisis de las ideas de exclusi n y diferencia los autores de este libro reflexionan sobre la parad jica centralidad de lo marginal en una poca en la que la literatura fue una herramienta fundamental para la construcci n de la naci n. La pervivencia del legado jud o y morisco la representaci n de personajes gitanos o las distintas nociones de feminidad presentes en el discurso p blico ejemplifican las formas en que las im genes de tipos marginales desempe aron un papel central en la configuraci n de la idea de espa olidad.

El pensamiento cultural en el siglo XIX cubano Luis Álvarez
Álvarez, Olga García Yero, 2022-11-15 El siglo XIX estableci una red de problemas econ micos pol ticos y culturales para Cuba. En este ensayo los autores analizan y concluyen c mo habr a que realizar estudios de figuras y tendencias para enfocar cuestiones culturales importantes que han sido relegadas y as por fin acceder a una cuesti n esencial la comprensi n de la vida intelectual de esa poca. Porque la historia cultural de una naci n depende tambi n de nexos apenas visibles a veces pero de una fuerza relevante a la hora de proyectarse sobre la existencia cultural de un pueblo. Hay trayectorias intelectuales que por diferentes razones han sido preteridas en nuestra percepci n investigativa.

Afro-Cuban Costumbrismo Rafael Ocasio, 2012-08-26 Costumbrismo which refers to depictions of life in Latin America during the nineteenth century introduced some of the earliest black themes in Cuban literature. Rafael Ocasio delves into this literature to offer up a new perspective on the development of Cuban identity as influenced by black culture and religion during the sugar cane boom. Comments about the slave trade and the treatment of slaves were often censored in Cuban publications nevertheless white Costumbrista writers reported on a vast catalogue of stereotypes religious beliefs and musical folklore and on rich African traditions in major Cuban cities. Exploring rare and seldom discussed nineteenth century texts Ocasio offers insight into the nuances of black representation in Costumbrismo while analyzing authors such as Su rez y Romero an abolitionist who wrote from the perspective of a plantation owner. Afro-Cuban Costumbrismo expands the idea of what texts constitute Costumbrismo and debunks the traditional notion that this writing reveals little about the Afro-Cuban experience. The result is a novel examination of how white writers representations of black culture heavily inform our current understanding of nineteenth century Afro-Cuban culture and national identity.
