Espaaa Negra:

La España negra José Gutiérrez-Solana,1920 Describes the painter s travels through Spain La Espa a Negra is not a portrait of a past happily overcome but an altarpiece that reflects the deepest layers of a nation reluctant to modernity Solana uses stark and meticulous prose to narrate his travels through Spain In the prologue he describes himself as a dead man with wide soul eyes His journey through different cities and regions is not a simple geographical itinerary but an interior journey that does not shy away from dark areas where reason fights with instinct Black Spain exudes the pessimism and melancholy of the generation of 1898

Vistas de España Mary Elizabeth Boone, 2007-01-01 In the decades following the American Civil War and leading up to the First World War a definitive shift in power took place between Spain and the United States This original book explores American artists perceptions of Spain during this period of turmoil and demonstrates how their responses to Spanish art helped to answer emerging complex questions about American national identity M Elizabeth Boone focuses on works by Thomas Eakins Mary Cassatt William Merritt Chase John Singer Sargent Robert Henri and other American artists who traveled to Spain to study the achievements of such great masters as Murillo Vel zguez and Goya The resulting American paintings some well known and others now largely forgotten provide intriguing insights not only into the 19th century American struggle to define itself as an imperial power but also into the relations between the United States and the Spanish La España negra de Verhaeren ... Darío de Regoyos, Pío Baroja, 1924 speaking world today The Inverted Conquest Alejandro Mejias-Lopez, 2010-02-09 Modernismo 1880s 1920s is considered one of the most groundbreaking literary movements in Hispanic history as it transformed literature in Spanish to an extent not seen since the Renaissance As Alejandro Mejias Lopez demonstrates however modernismo was also groundbreaking in another more radical way it was the first time a postcolonial literature took over the literary field of the former European metropolis Expanding Bourdieu s concepts of cultural field and symbolic capital beyond national boundaries The Inverted Conquest shows how modernismo originated in Latin America and traveled to Spain where it provoked a complete renovation of Spanish letters and contributed to a national identity crisis In the process described by Latin American writers as a reversal of colonial relations modernismo

Núñez Seixas, 2017-02-01 The history of twentieth century Spanish nationalism is a complex one placing a set of famously distinctive regional identities against a backdrop of religious conflict separatist tensions and the autocratic rule of Francisco Franco And despite the undeniably political character of that story cultural history can also provide essential insights into the subject Metaphors of Spain brings together leading historians to examine Spanish nationalism through its diverse and complementary cultural artifacts from formal representations such as the flag to music bullfighting and other more diffuse examples Together they describe not a Spanish national essence but a nationalism that is constantly evolving and accommodates multiple interpretations The Global Perspective of Urban Labor in Mexico City, 1910-1929 Stephan Fender, 2019-11-28 The Global Perspective of Urban Labor in Mexico City 1910 1929 examines the global entanglement of the Mexican labor movement during the Mexican Revolution It describes how global influences made their entry into labor culture through the cinema the theater and labor festivals as well as into the development of consumption patterns and advertisement It further shows how the young labor movement constituted its discourse and invented its tradition at meetings and in the columns of newspapers The local conditions constitute the framework for the examination of Mexican labor's perspectives on and engagement with contemporary events of global significance Thereby this book demonstrates how workers turned to the global context in search of guidance and role models embracing global developments and narratives It also reveals the differentiations from this context in order to create a unique local identity This approach allows new perspectives on the role of a neglected revolutionary actor and on the influence of global developments in a revolution that has been predominantly interpreted from a national point of view It shows the way global ideas were brought to life in the framework of revolutionary Mexico City providing new insights into the grand narratives of Globalization and Revolution

Beyond Folklore? Xosé M. Núñez Seixas,2023-12-19 This book analyzes the promotion of subnational identities undertaken by Spanish fascism and the Franco regime between 1930 and 1975 as well as their patterns of survival

accommodation and adaptation It examines the proactive attitudes of the various actors committed to the dictatorship from Falangists to Francoist intellectuals to Catholic conservatives alongside their repressive or annihilating approach to regional cultures and languages As in most Fascist regimes between 1922 and 1945 a narrative of the ethnocultural ethnoterritorial and historic diversity of the nation persisted with differing degrees of intensity and different tendencies These discourses and practices were not limited exclusively to the ideological and social sphere of anti Francoism and the roots of the State of the Autonomous Communities which gave rise to the extension of political autonomy to all Spanish regions from 1978 onwards date back to the deep structure of the dictatorship with foundations in demands put forward by the local provincial and regional elites within later Francoism The volume is primarily written for scholars and students of Iberian Studies European Modern and Contemporary History Cultural Studies especially those with an interest in memory studies fascism nationalism and regionalism cultural resistance under dictatorship and transitions from dictatorship to democracy Narratives 1898-1936 David Miranda-Barreiro, 2017-07-05 In the early decades of the twentieth century New York caught the attention of Spanish writers Many of them visited the city and returned to tell their experience in the form of a literary text That is the case of Pruebas de Nueva York 1927 by Jose Moreno Villa 1887 1955 El crisol de las razas 1929 by Teresa de Escoriaza 1891 1968 Anticipolis 1931 by Luis de Oteyza 1883 1961 and La ciudad automatica 1932 by Julio Camba 1882 1962 In tune with similar representations in other European works the image of New York given in these texts reflects the tensions and anxieties generated by the modernisation embodied by the United States These authors project onto New York their concerns and expectations about issues of class gender and ethnicity that were debated at the time in the context of the crisis of Spanish national identity triggered by the end of the empire in 1898 Visualizing Spanish Modernity Susan Larson, Eva Maria Woods, 2020-08-25 While the simultaneously creative and destructive forces of modernity in Western Europe have been well studied the case of Spain has often been overlooked Visualizing Spanish Modernity concentrates on the time period 1868 1939 which marks not only the beginning of the formation of a modern economy and the consolidation of the liberal state but also the growth of urban centers and spaces made possible by electricity transportation mass production and the emergence of an entertainment industry The authors examine how mass print culture early cinema popular drama photography fashion painting museums and urban planning played a role in the way that Spanish society saw itself and was in turn seen by the rest of the world Assessing how new cultural forms were instrumental in shaping Spaniards into citizens of the modern world the authors consider such subjects as the spectacle of the body notions of race and gender the changing meanings of time space and motion the relationship between technology and everyday life and popular culture

<u>Documenting Spain: Artists, Exhibition Culture, and the Modern Nation, 1929Đ1939</u>, The news media have given us potent demonstrations of the ambiguity of ostensibly truthful representations of public events Jordana Mendelson uses this ambiguity as a framework for the study of Spanish visual culture from 1929 to 1939 a decade marked on the one hand by

dictatorship civil war and Franco s rise to power and on the other by a surge in the production of documentaries of various types from films and photographs to international exhibitions Mendelson begins with an examination of El Pueblo Espa ol a model Spanish village featured at the 1929 International Exposition in Barcelona She then discusses Bu uel s and Dal s documentary films relating them not only to French Surrealism but also to issues of rural tradition in the formation of regional and national identities Her highly original book concludes with a discussion of the 1937 Spanish Pavilion where Picasso s famed painting of the Fascist bombing of a Basque town Guernica was exhibited along with monumental photomurals by Josep Renau Based upon years of archival research Mendelson s book opens a new perspective on the cultural politics of a turbulent era in modern Spain It explores the little known yet rich intersection between avant garde artists and government institutions It shows as well the surprising extent to which Spanish modernity was fashioned through dialogue between the seemingly opposed fields of urban and rural fine art and mass culture
