Essays In Metaphysics Identity And Difference:

Essays in Metaphysics Martin Heidegger, 2016-09-06 The two lectures translated here were published in 1957 under the title *Identität und Differenz* The sensitive and attentive reader will come away with a feeling that he now knows Heidegger the man the teacher better Heidegger provides illuminating insights and thoughts on many a vital issue our technological age religion language history and more all of which he touches upon here if only epigrammatically What makes Heidegger important is his receptiveness his sensitivity his ability to be at the heart of the problem and see and hear when others see and hear nothing *Essays in metaphysics* Martin Heidegger, 1960 **Identity and Difference** Martin Heidegger, 2002-06 Identity and Difference consists of English translations and the original German versions of two little known lectures given in 1957 by Martin Heidegger The Principle of Identity and The Onto theo logical Constitution of Metaphysics Both lectures discuss the difficult problem of the nature of identity in the history of metaphysics A helpful introduction and a list of references are also provided by the translator Joan Stambaugh **Identität und Differenz. Essays in Metaphysics: Identity and Difference. (Translated by Kurt F. Leidecker.).** Martin Heidegger, Kurt Friedrich LEIDECKER, 1960 **An Insurrectionist Manifesto** Ward Blanton, Clayton Crockett, Jeffrey W. Robbins, Noëlle Vahanian, 2016-04-12 An Insurrectionist Manifesto contains four insurrectionary gospels based on Martin Heidegger's philosophical model of the fourfold earth and sky gods and mortals Challenging religious dogma and dominant philosophical theories they offer a cooperative world affirming political theology that promotes new life through not resurrection but insurrection The insurrection in these gospels unfolds as a series of miraculous yet worldly practices of vital affirmation Since these routines do not rely on fantasies of escape they engender intimate transformations of the self along the very coordinates from which they emerge Enacting a comparative and contagious postsecular sensibility these gospels draw on the work of Slavoj Žižek Giorgio Agamben Catherine Malabou François Laruelle Peter Sloterdijk and Gilles Deleuze yet rejuvenate scholarship in continental philosophy critical race theory the new materialisms speculative realism and nonphilosophy They think beyond the sovereign force of the one to initiate a radical politics after God **A-Z Guide to Modern Social and Political Theorists** Professor Stuart Sim, Noel Parker, 2014-06-03 The A Z Guide to Modern Social and Political Theories is a companion volume to the already published A Z Guide to Modern Literary and Cultural Theorists It ranges widely through the social sciences and related areas to identify thinkers who have had a major impact on the development of modern social and political theory and given clear accessible summaries of their work While the accent is on the later twentieth century several up and coming theorists are included to ensure a contemporary edge to the volume classic names in the field from the earlier twentieth century are not neglected and the collection also delves back into the nineteenth century for such founding figures of the social sciences as Marx and Comte The volume is therefore both up to date and mindful of the sources of modern debates *The Communicative Body* John O'Neill, 1989 This collection of essays on communicative theory and

praxis from the eminent Merleau Ponty scholar and translator John O Neill explores the thesis that the human body is the exemplary ground of all other communicative processes *Philip K. Dick* Lejla Kucukalic,2010-12-22 Kucukalic looks beyond the received criticism and stereotypes attached to Philip K Dick and his work and shows that the author is a serious and relevant philosophical and cultural thinker whose writing offer us important insights into contemporary digital culture

Assembling Consumption Robin Canniford,Domen Bajde,2015-09-16 *Assembling Consumption* marks a definitive step in the institutionalisation of qualitative business research By gathering leading scholars and educators who study markets marketing and consumption through the lenses of philosophy sociology and anthropology this book clarifies and applies the investigative tools offered by assemblage theory actor network theory and non representational theory Clear theoretical explanation and methodological innovation alongside empirical applications of these emerging frameworks will offer readers new and refreshing perspectives on consumer culture and market societies This is an essential reading for both seasoned scholars and advanced students of markets economies and social forms of consumption

The Missing Child in Liberal Theory John O'Neill,1994-12-15 *The Missing Child in Liberal Theory* opens public discourse on what it is Canadians hold in common through their provision of civic assurances to children and families at risk John O Neill presents a strongly worded critique of the dominant discourse of the market society He observes the link between duty free capitalism and minimal civic obligations This book calls for a covenant society where civility and reciprocity are underwritten by a second generation concept of the Canadian welfare state that will not abandon children to disastrous prospects in a market society Confronting the current call for a leaner and meaner response to global competitiveness O Neill challenges concepts of liberalism and communitarianism In their place he proposes a covenant concept of state community and family assurances to derive from our common provision of a civic endowment that we undertake to sustain now and for future generations of Canadians O Neill argues that if Canada is to survive as a national community capable of responding to the global market we must reaffirm the civic foundations of the state If we fail to do this we will not have a leaner society only a meaner one This society will be hostile to capitalism and socialism alike If we can rededicate the Canadian commons to the well being of the civic person Canada will contribute a model of survival and governance among the nations of the twenty first century

Novitas Mundi D. G. Leahy,1994-07-01 *The Prolegomena* sets out the fundamental perception of the history of being now operative in consciousness The center of the book is comprised of a two part Reflection on the History of Being Part I is an examination of the impact made on the shape of scientific philosophy by the fact of Christian faith Aristotle the sacra doctrina of Thomas Aquinas and their relationship with the modern thinkers Descartes Kant Hegel and Kierkegaard are examined in this section In Part II the

Science and the Quest for Reality Alfred I. Tauber,2016-07-27 Science and the Quest for Reality is an interdisciplinary anthology that situates contemporary science within its complex philosophical historical and sociological contexts The anthology is divided between firstly characterizing science as an intellectual activity and secondly defining its social role The philosophical and historical vicissitudes of science s truth claims has raised profound questions concerning the role of science in society beyond its technological innovations The deeper philosophical issues thus complement the critical inquiry concerning the broader social and ethical influence of contemporary science In the tradition of the Main Trends of the Modern World series this volume includes both classical and contemporary works on the subject George Oppen and the Fate of Modernism Peter Nicholls,2007-10-25 Regard for George Oppen s poetry has been growing steadily over the last decade Peter Nicholls s study offers a timely opportunity to engage with a body of work which can be both luminously simple and intriguingly opaque Nicholls charts Oppen s commitment to Marxism and his later explorations of a poetics of being inspired by Heidegger and Existentialism providing detailed accounts of each of the poet s books He is the first critic to draw extensively on the Oppen archive with its thousands of pages of largely unpublished notes and drafts for poems in doing so he is able to map the distinctive contours of Oppen s poetic thinking and to investigate the complex origins of many of his poems Oppen emerges from this study as a writer of mercurial intensities for whom every poem constitutes a beginning again a freeing of the mind from thoughts known in advance A strikingly innovative and challenging poetics results from Oppen s attempt to avoid what he regards as the errors of the modernist avant garde and to create instead a designedly impoverished aesthetic which keeps poetry close to the grain of experience and to the political and ethical dilemmas it constantly poses *Heidegger* W.J. Richardson,2012-12-06 Dear Father Richardson It is with some hesitation that I attempt

to answer the two principal questions you posed in your letter of March 1 1962 The first touches on the initial impetus that determined the way my thought would go The other looks for information about the much discussed reversal in my development I hesitate with my answers for they are necessarily no more than indications of much more to be said The lesson of long experience leads me to surmise that such indications will not be taken as directions for the road of independent reflection on the matter pointed out which each must travel for himself Instead they will gain notice as though they were an opinion I had expressed and will be propagated as such Every effort to bring what has been thought closer to prevailing modes of representation must assimilate what is to be thought to those representations and thereby inevitably deform the matter 2 This preamble is not the lament of a man misunderstood it is rather the recognition of an almost insurmountable difficulty in making oneself understood The first question in your letter reads How are we properly to understand your first experience of the Being question in 1 Translator's note With regard to the translation of Denken see below p 16 note 43 I

Translator's note For the translation of Vorstellung by representation see below p 108 note 5 VORWORT Sehr geehrter Herr P **Giorgio Agamben** Thanos Zartaloudis, 2010-02-25 This book offers a thorough introduction to and engagement with the jurisprudential political and philosophical thought of the influential Italian philosopher Giorgio Agamben Critically introducing Agamben's work to both a readership in legal theory and in the humanities and social sciences more generally Zartaloudis takes up the three main themes of Agamben's recent work Power in its relation to biopolitics capitalism social systems control and political theory Law in its relation to philosophy violence rights states of exception and sovereignty and Humanity in its relation to theories of ethics the idea of the human human rights discourse and the condition of refugees

Physics Envy Peter Middleton, 2015-11-04 At the close of the Second World War modernist poets found themselves in an increasingly scientific world where natural and social sciences claimed exclusive rights to knowledge of both matter and mind Following the overthrow of the Newtonian worldview and the recent shocking displays of the power of the atom physics

led the way with other disciplines often turning to the methods and discoveries of physics for inspiration In *Physics Envy* Peter Middleton examines the influence of science particularly physics on American poetry since World War II He focuses on such diverse poets as Charles Olson Muriel Rukeyser Amiri Baraka and Rae Armantrout among others revealing how the methods and language of contemporary natural and social sciences and even the discourse of the leading popular science magazine *Scientific American* shaped their work The relationship at times extended in the other direction as well leading physicists such as Robert Oppenheimer Werner Heisenberg and Erwin Schrödinger were interested in whether poetry might help them explain the strangeness of the new quantum world *Physics Envy* is a history of science and poetry that shows how ultimately each serves to illuminate the other in its quest for the true nature of things
