From Gaelic to Romantic, 2023-12-21 The appearance of James Macpherson's Ossian in the 1760s caused an international sensation The discovery of poetic fragments that seemed to have survived in the Highlands of Scotland for some 1500 years gripped the imagination of the reading public who seized eagerly on the newly available texts for glimpses of a lost primitive world That Macpherson's versions of the ancient heroic verse were more creative adaptations of the oral tradition than literal translations of a clearly identifiable original may have exercised contemporary antiquarians and contributed eventually to a decline in the popularity of Ossian Yet for most early readers as for generations of enthusiastic followers what mattered was not the accuracy of the translation but the excitement of encountering the primitive and the mood engendered by the process of reading The essays in this collection represent an attempt by late twentieth century readers to chart the cultural currents that flowed into Macpherson's texts and to examine their peculiar energy Scholars distinguished in the fields of Gaelic German Irish Scottish French English and American literature language history and cultural studies have each contributed to the exploration of Macpherson's achievement with the aim of situating his notoriously elusive texts in a web of diverse contexts Important new research into the traditional Gaelic sources is placed side by side with discussions of the more immediate political impetus of his poetry while studies of the reception of Ossian in Scotland Germany France and England are part of the larger recognition of the cultural significance of Macpherson's work and its importance to issues of fragmentation liminality colonialism national identity sensibility and gender

Jews, Gentiles and Ethnic Reconciliation Tet-Lim N. Yee, 2005-03-10 Much scholarship has focused on Paul's insistence on Gentile membership of the people of God equally with Jews Dr Yee's study of Ephesians 2 reveals how the distinctively Jewish world view of the author of Ephesians underlies this key text He

explores how the Ephesians author provides a resolution to one of the thorniest issues regarding two ethnic groups in the earliest period of Christianity can Jew and Gentile the two estranged human groups be one people of God and if so how Setting Ephesians 2 as fully as possible into its historical context he describes some of the relevant Jewish features and demonstrates them revealing many explosive but hidden issues This book provides an important contribution to the continuing reassessment of Christian and Jewish self understanding in regard to each other during the critical period of the latter decades of the first century CE

A Fine Romance-- Patricia Mellencamp, 1995 Feminist film theory will soon be a quarter of a century old It has known the euphoria of the 1970s experienced the contradictions of the 1980s and glimpsed the reversals and political gains which include women of color of the 1990s But Patricia Mellencamp asks what is the next move In this challenging look at twenty years of feminist film theory Mellencamp elaborates on its rich history drawing on her personal academic life and offering inventive readings of a remarkable variety of films recent Hollywood releases like Forest Gump Pulp Fiction Thelma and Louise Basic Instinct and Silence of the Lambs and features and independent films made by women such as The Piano Angie Orlando Bedevil Daughters of the Dust Privilege and Forbidden Love With a clever sense of irony and wit Mellencamp poses a question from which her analysis takes off What did Rapunzel Cinderella and Snow White forget to tell Thelma and Louise According to Mellencamp they forgot what comes after the end after the wedding to the prince So many women's stories often by choice stop after the prince whisks the princess away to live happily ever after This book asks what does happily mean for women And what does ever after cost women This creative call to shift film feminism's infamous gaze from sex and bodies to money

and work ascertains where film feminism has been and what it needs to progress Rather than recycling and regaining the same ground Mellencamp urges film feminism to explore and claim new territory Author note Patricia Mellencamp is Professor of Film and Cultural Theory Department of Art History the University of Wisconsin at Milwaukee She has published several books including High Anxiety Catastrophe Scandal Age and Indiscretions Avant garde Film Video and Feminism

Digital Humanities and the Cyberspace Decade, 1990-2001 Claire Warwick, 2024-10-03 Setting out a history of cyberspace and its relationship with the discipline that was to become digital humanities this book is an account of an often forgotten period of internet history in the 1990s when this medium was in its infancy It provides a detailed account of the concepts of cyberspace and the virtual which were characteristic of a perception that using the internet allowed users to enter a separate space from everyday life a world elsewhere In doing so it argues that this libertarian idea of the internet framed it as a new frontier where the rules of the everyday world did not and should not apply and where the individual could find freedom These early norms and the regrettable lack of regulation that was a consequence of them this book argues contributed to many of current issues with internet media including of toxic communication disinformation and over commercialisation

Political Adaptation in Canadian Theatre Kailin Wright, 2020-09-23 In Canada adaptation is a national mode of survival but it is also a way to create radical change Throughout history Canadians have been inheritors and adaptors of political systems stories and customs from the old world and the new More than updating popular narratives adaptation informs understandings of culture race gender and sexuality as well as individual experiences In Political Adaptation in Canadian Theatre Kailin Wright investigates adaptations that retell popular stories with a political purpose and examines how they acknowledge diverse realities and transform our past Political Adaptation in Canadian Theatre explores adaptations of Canadian history Shakespeare Greek mythologies and Indigenous history by playwrights who identify as English Canadian African Canadian French Canadian Kuna Rappahannock and Delaware from the Six Nations Along with new considerations of the activist potential of popular Canadian theatre this book outlines eight strategies that adaptors employ to challenge

conceptions of what it means to be Indigenous Black queer or female Recent cancellations of theatre productions whose creators borrowed elements from minority cultures demonstrate the need for a distinction between political adaptation and cultural appropriation Wright builds on Linda Hutcheon's definition of adaptation as repetition with difference and applies identification theory to illustrate how political adaptation at once underlines and undermines its canonical source An exciting intervention in adaptation studies Political Adaptation in Canadian Theatre unsettles the dynamics of popular and political theatre and rethinks the ways performance can contribute to how one country defines itself *Feminism and Documentary* Diane Waldman, Janet Walker, 1999 Documentary and feminist film studies have long been separate or parallel universes that need to converse or collide The essays in this volume written by prominent scholars and filmmakers demonstrate the challenges that feminist perspectives pose for documentary theory history and practice They also show how fuller attention to documentary enriches and complicates feminist theory especially regarding the relationship between gender and sexuality race and ethnicity class and nation *Feminism and Documentary* begins with a substantial historical introduction that highlights several of the specific areas that contributors address debates over realism the relationship between filmmaker and subject historical thinking about documentary and thinking about the historical documentary biography and autobiography and the use of psychoanalysis Other essays most of which appear here for the first time range from broad overviews to close analyses of particular films and videos and from discussions of well known works such as *Roger and Me* and *Don't Look Back* to lesser known texts that might revise the canon The collection includes an extensive filmography and videography with useful distribution information and a bibliography of work in this neglected area of scholarship Lucid sophisticated and eye opening this book will galvanize documentary studies and demonstrate the need for women's and cultural studies to grapple with visual media

Vision's Immanence Peter Lurie, 2020-03-03 William Faulkner occupied a unique position as a modern writer Although famous for his modernist novels and their notorious difficulty he also wrote extensively for the culture industry and the works he produced for it including short stories adaptations and screenplays bore many of the hallmarks of consumer art His experiences as a Hollywood screenwriter influenced him in a number of ways many of them negative while the films turned out by the dream factories in which he labored sporadically inspired both his interest and his contempt Faulkner also disparaged the popular magazines though he frequently sold short stories to them To what extent was Faulkner's deeply ambivalent relationship to and involvement with American popular culture reflected in his modernist or art fiction Peter Lurie finds convincing evidence that Faulkner was keenly aware of commercial culture and adapted its formulae strategies and in particular its visual techniques into the language of his novels of the 1930s Lurie contends that Faulkner's modernism can be best understood in light of his reaction to the popular culture of his day Using Theodor Adorno's theory about modern cultural production as a framework Lurie's close readings of *Sanctuary* *Light in August* *Absalom Absalom* and *If I Forget Thee Jerusalem* uncover the cultural history that surrounded and influenced the

development of Faulkner's art Lurie is particularly interested in the influence of cinema on Faulkner's fiction and especially the visual strategies he both deployed and critiqued These include the suggestion of cinematic viewing on the part of readers and of characters in each of the novels the collective and individual acts of voyeurism in *Sanctuary* and *Light in August* the exposing in *Absalom Absalom* and *Light in August* of stereotypical and cinematic patterns of thought about history and race and the evocation of popular forms like melodrama and the movie screen in *If I Forget Thee Jerusalem* Offering innovative readings of these canonical works this study sheds new light on Faulkner's uniquely American modernism
