Essential Duane Michals:

The Essential Duane Michals Duane Michals, Marco Livingstone, 1997 Over the last four decades Duane Michals has forged a challenging new aesthetic that rejects photography's traditional documentary bias and instead explores his own subjective vision Playful conceptual and deeply personal his work includes narrative sequences that have been carefully staged as well as photographs that he writes or draws on after developing Influenced by such artists as Rene Magritte Michals freely mobilizes all available technical resources to realize his vision including double exposure blurred movement composite images photomontage and other tricks spurned by traditionalists This extraordinary retrospective explores the full range of Michals's work for the first time Organized by the themes that have preoccupied him throughout his career estrangement and transformation dreams and desires time and memory this book includes images from all of Michals's celebrated sequences and portfolios as well as commercial work and portraits of Andy Warhol Marcel Duchamp Warren Beatty Jeanne Moreau and other intriguing personalities For anyone who admires photography at its most ambitious provocative and personal The Essential Duane Michals will be an essential book Thinking with Images John M. Carvalho, 2018-08-06 This book advances an enactivist theory of aesthetics through the study of inscrutable artworks that challenge us to think because we do not know what to think about them John M Carvalho presents detailed analyses of four artworks that share this unique characteristic Francis Bacon's *Study After Velázquez's Portrait of Pope Innocent X* 1953 the photographs of Duane Michals based on a retrospective of his work *Storyteller* at the Carnegie Museum of Art 2014 tant donn's 1968 by Marcel Duchamp and Jean Luc Godard's 1963 film *Le Mépris* released in the United States as *Contempt* Carvalho argues against the application of theory to derive appreciation or meaning from these artistic works Rather each study enacts an embodied cognitive engagement with the specific artworks intended to demonstrate the value of thinking about artworks that might be extended to our engagement with the world in general This thinking happens as these studies show when we trust our embodied skills and their guide to what artworks and the world around us afford for the activation and refinement of those skills Thinking with Images will be of interest to scholars working in the philosophy of art and philosophical aesthetics as well as art historians concerned with the meaning and value of contemporary art **Duane Michals** Marco Livingstone, Pauline Baggio, 1998-01-01 T00:00:00+01:00 Cet ouvrage est une réédition numérisée d'un livre paru au XX^e siècle désormais indisponible dans son format d'origine *Impure Vision* Moa Goysdotter, 2015-01-01 American staged art photography is the focus of this unique in depth study Offering a new methodological strategy for viewing photographs this fascinating account analyzes the work of four of the leading names in this new genre Les Krims Duane Michals Arthur Tress and Lucas Samaras and applies new perspectives to 1970s art photography As it sheds fresh light on the four artists critiques of purist ideals it also looks closely at their efforts to transcend the limitations of the purely visual effect of photography Not only does this book tell the history of American staged photography in broad terms by drawing on

theories and methods new to the field but it also presents the latest approaches to photography history and theory **A Dictionary of the Avant-gardes** Richard Kostelanetz, H. R. impossible Revealing it is another matter and that's what *The Concise Focal Encyclopedia of Photography* does with each turn of the page History The technical origins and evolution of photography are half of the story The other half consists of the ways that cultural forces have transformed photography into a constellation of practices more diverse than any other mode of representation Photographers can tell a more in depth story through a photo like Dorothea Lange's *Migrant Mother* than a journalist ever could with the written word alone Major themes and practitioners Over 25 entries many with supporting illustrations examine the figures trends and ideas that have contributed most heavily to the history and current state of photography Contemporary issues The issues influencing photography today are more complex than at any other time in its history Questions of ethics desire perception digitization and commercialization all vie for attention Hear what the experts

have to say about crucial issues such as whether or not the images we take today will last the test of time and if so how When material is covered this skillfully concise is no compromise The Concise Focal Encyclopedia of Photography is packed with useful information compelling ideas and best of all pure pleasure
