Alien Planet Fletcher Pratt,1962 Fletcher Pratt nationally famous writer and journalist produced in Alien Planet one of his most original works which at the same time is a most enthralling science fiction adventure What actually would be the effect of the arrival of a citizen of a super scientific planet on our own world In Alien Planet we visit two worlds Earth as seen through the eyes of a clever but desperate alien and Murashema as seen by the Earthman who befriended that unearthly visitor There is tension adventure and the excitement of interplanetary discovery in this classic novel of outer space **The Science Teacher** ,2009 **Auction Catalogs, Hodgson's Rooms** Sotheby Parke Bernet & Co,1975 Christian Herald and Signs of Our Times ,1881 *A Sea Monster's Tale* Colin Speedie,2021-06-08 There are few marine creatures as spectacular as the Basking Shark At up to 11 metres in length and seven tonnes in weight this colossal plankton feeding fish is one of the largest in the world second only to the whale shark Historically Basking Sharks were a familiar sight in the northern hemisphere off the coasts of Norway Scotland Ireland Canada and the USA for example In an 18th Century world without electricity they became the focus of active hunting for their huge livers containing large amounts of valuable oil primarily used in lamps Catch numbers were small enough to leave populations largely intact but during the 20th Century a new breed of hunter joined the fray some driven as much by a need for adventure as for financial gain With improved equipment and experience they exploited the shark on an industrial scale that drastically reduced numbers leading to localised near extinction in some areas From the 1970 s onward a new generation took to the seas this time with

conservation in mind to identify where the shark might still be found in the waters around the British Isles employing new technologies to solve long standing mysteries about the behaviour of this elusive creature Using the best of both old and new research techniques the case was built to justify the species becoming one of the most protected sharks in the oceans Today the Basking Shark is a much loved cornerstone of our natural heritage There are positive signs that the population has stabilised and may even be slowly recovering from the damage of the past proving that timely conservation measures can be effective Join us on a journey amidst wild seas places people and conservation history in the battle to protect this iconic creature a true sea monster s tale **Nature & Science on the Pacific Coast** ,1915 *Alpha Centauri - Or Die!* Leigh

Title index R.R. Bowker Company. Department of Bibliography,1978 **Future Females** Marleen S. Barr,1981 A justification for paying serious attention to science fiction may by now be necessary only for other literary critics and scholars Still the question of why a book addressing itself to science fiction has to be faced briefly This comment the opening statement of Darko Suvins recent book is of concern to Professor Barr editor of this volume since Future Females is addressing itself to women in science fiction Metaphorically speaking if the mere mention of the genre causes a ruffling of academic feathers then relating to women is analogous to placing all those simply ruffled feathers in front of a wind machine Everyone will not welcome a volume where science fiction is viewed in terms of women but Professor Barr felt such a volume is needed As Roger Schlobin s bibliography indicates women are certainly contributing continuously to the science fiction field This collection of essays illuminates some of this fiction **Nuclear Holocausts** Paul Brians,1987 The anxiety caused by the thought of nuclear war causes some people to avoid the topic altogether some to despair and others to place unwarranted confidence in scientific or governmental control However the vivid characters and realistic settings of fiction can bring home the impact of a nuclear war in a way that makes the topic difficult to avoid and allows readers to confront their fears and phobias This bibliography study is the only compilation of its kind to deal exclusively with nuclear war in fiction The first five chapters provide a historical survey of the development of the nuclear war theme and a study of the causes and aftermath of nuclear war as treated in literature In addition Brians considers the significant failure of some works to confront the subject and the success of others as educational tools With a clear focus on the subject of war this work does not deal with such related topics as nuclear accidents reactor disasters or near war situations The bulk of the book is given over to the detailed annotated bibliography which consists of over 800 entries with associated checklists Intended to provide scholars librarians and general readers with ready access to a great variety of information about his body of writing the bibliography lists both hardcover and paper editions of books and the reprinting of each short story and corrects several errors in other standard reference works In his critical analysis and through the annotations in the bibliography Brians

attempts to improve our understanding of cultural attitudes toward the dangers posed by the ever present reality of nuclear weaponry Jacket
