Simon Green, William E. Paterson

Governance In Modern Germany The Semisovereign State Revisited:

Governance in Contemporary Germany Simon Green, William E. Paterson, 2005-06-02 Throughout the 1970s and 1980s West Germany was considered to be one of the world's most successful economic and political systems. In his seminal 1987 analysis of West Germany's semisovereign system of governance, Peter Katzenstein attributed this success to a combination of a fragmented polity, consensus politics, and incremental policy changes. However, unification in 1990 has both changed Germany's institutional configuration and created economic and social challenges on a huge scale. This volume therefore asks whether semisovereignty still exists in contemporary Germany and crucially whether it remains an asset in terms of addressing these challenges. By shadowing and building on the original study, an eminent team of British, German, and American scholars analyses institutional changes and the resulting policy developments in key sectors, with Peter Katzenstein himself providing the conclusion. Together, the chapters provide a landmark assessment of the outcomes produced by one of the world's most important countries.

The Politics of the New Germany Simon Green, 2013-03-01 The Politics of the New Germany continues to provide the most comprehensive, authoritative, and up-to-date textbook on contemporary German politics. The text takes a new approach to understanding politics in the post-unification Federal Republic. Assuming only elementary knowledge, it focuses on a series of the most important debates and issues in Germany today, with the aim of helping students understand both the workings of the country's key institutions and some of the most important policy challenges facing German politicians. For this second edition, the content has been comprehensively updated throughout, augmented by additional factboxes and data, and features new material on the Grand coalition, Lisbon Treaty, Constitutional court, financial crisis, reform of social policy, Afghanistan. Written in a straightforward style by three experts, each of the chapters draws on a rich variety of real-world examples. In doing so, it highlights both the challenges and opportunities facing policy makers in such areas as foreign affairs, economic policy, immigration, identity, politics, and institutional reform. The book also takes a bird's-eye view of the big debates that have defined German politics over time, regardless of which political parties happened to be in power. It pinpoints three key themes that have characterised German politics over the last sixty years: reconciliation, consensus, and transformation. The book is a comprehensive yet highly accessible overview of politics in 21st-century Germany and should be essential reading for students of politics and international relations, as well as of European and German studies.

The Oxford Handbook of German Politics Klaus Larres, Holger Moroff, Ruth Wittlinger, 2022 Few countries have caused or experienced more calamities in the 20th century than Germany. This handbook provides a comprehensive overview of some of the major issues of German domestic politics, economics, foreign policy, and culture by leading experts in their respective fields.

Rural Governance Lynda Cheshire, Vaughan Higgins, Geoffrey Lawrence, 2006-12-05 This book critically explores the social causes and consequences of emerging governance arrangements. In particular, the book moves beyond questions of empowerment in governance debates.

to consider how new kinds of power relations arise between the various actors involved Historical Dictionary of Contemporary Germany Derek Lewis, Ulrike Zitzlsperger, 2016-10-18 This second edition of Historical Dictionary of Contemporary Germany provides a comprehensive overview of most aspects of life and institutions in contemporary Germany. It also introduces the reader to the historical development of both East and West Germany between 1949 and 1990 and addresses the various issues arising from reunification. This second edition of Historical Dictionary of Contemporary Germany contains a chronology, an introduction, appendixes, and an extensive bibliography. The dictionary section has over 500 cross-referenced entries on important personalities, politics, economy, foreign relations, religion, and culture. This book is an excellent access point for students, researchers, and anyone wanting to know more about Germany.

The Politics of Economic Reform in Germany Kenneth Dyson, Stephen Padgett, 2014-07-16 This new volume situates current debates about economic reform in Germany in illuminating historical and structural contexts. Showing how economic reform has become the central issue on the German political agenda, raising contentious issues of policy management and posing deeper questions about political beliefs and identities. It also examines the politics of the reform process, outlining competing views about the root causes of Germany's economic problems, the appropriate policy responses, and the distribution of costs. It situates the reform process in the wider context of the decline of the German economic model. Modell Deutschland and Germany's transition from European pace setter to economic laggard. Particular attention is paid to the following key questions: What continuities and discontinuities can be seen in Germany's political economy? Are globalization and Europeanization associated with a progressive neo-liberal ascendancy in economic reform? How does economic reform in Germany compare with that in other states, notably Britain and France? Are there distinctive patterns in the way domestic policymakers negotiate economic reform? How do the characteristics of the German labour market and welfare state condition economic reform? How much variation exists at the Länder levels? This book was previously published as a special issue of German Politics.

The Political Construction of Business Interests Cathie Jo Martin, Duane Swank, 2012-03-30 Many societies use labor market coordination to maximize economic growth and equality, yet employers' willing cooperation with government and labor is something of a mystery. The Political Construction of Business Interests recounts employers' struggles to define their collective social identities at turning points in capitalist development. Employers are most likely to support social investments in countries with strong peak business associations that help members form collective preferences and realize policy goals in labor market negotiations. Politicians with incentives shaped by governmental structures took the initiative in association building, and those that created the strongest associations were motivated to evade labor radicalism and to preempt parliamentary democratization. Sweeping in its historical and cross-national reach, the book builds on original archival data, interviews, and cross-national quantitative analyses. The research has important implications for the construction of business as a social class and powerful ramifications for equality, welfare state restructuring, and social solidarity.

Understanding

the Transformation of Germany's CDU Simon Green, Ed Turner, 2016-02-05 This book analyses the Christian Democratic Union of Germany CDU one of Europe's most successful and influential political parties The CDU might have been expected to struggle in the circumstances of a more diverse secular reunified Germany yet it has prospered to an extent almost unparalleled in western Europe Chapters consider the CDU's policies the factors driving them their variation across Germany the relationship to women and the welfare state its organisational development and change and its position within the party system Contributors particularly emphasise the diversity of the CDU and the way it varies across Germany's regions The CDU is compared to other Christian Democratic parties and special consideration is given to the CDU's Bavarian sister party the Christian Social Union CSU This book was published as a special issue of German Politics *Germany after the Grand Coalition* S. Bolgherini, F. Grotz, 2010-12-20 In Germany Grand Coalitions of the two major parties the Christian Democrats CDU CSU and the Social Democrats SPD generally have a bad reputation Hence the CDU CSU SPD government under Angela Merkel 2005-2009 was neither the parties nor the citizens preferred choice its performance was seen quite critical from the outset and it was finished without further ado after the 2009 federal election Has the Grand Coalition 2005-2009 been a single episode or rather a turning point for German politics This book provides a retrospective of the first Merkel government an analysis of the 2009 election and an account of its prospective consequences **Coping with Demographic**

Change: A Comparative View on Education and Local Government in Germany and Poland Reinhold Sackmann, Walter Bartl, Bernadette Jonda, Katarzyna Kopycka, Christian Rademacher, 2014-11-12 With many OECD countries experiencing a decline in their populations this book offers a theoretical model of coping with demographic change and examines different strategies that societies have used to come to terms with demographic change In particular it details the different ways that Germany and Poland have tried to cope with this challenge and reveals three conflicting strategies expansion reduction and phasing out Coverage includes How and why demographic change was used in Poland to expand the education system The variance of linkage between demographic change and growth rates in different fields of education in a German Bundesland Modes of reflexivity and personnel policy in German and Polish municipalities Effects of demographic change and forms of coping on fiscal capacity and unemployment rates in German municipalities Coping with Demographic Change examines how and why societies cope with these detrimental effects It conceptualizes the challenges a society faces as a result of demographic change and focuses on the processes by which actors organizations and nation states try to cope with this new situation Ideational Leadership in German Welfare State Reform Sabina Stiller, 2010 The author of this study argues that key politicians and their policy ideas through ideational leadership have played an important role in the passing of structural reforms in the change resistant German welfare state **The European Union in Crisis** Kyriakos N. Demetriou, 2014-10-21 This volume is a comprehensive and rigorous exploration of intertwined issues surrounding the EU's democracy and legitimacy written in the turbulent context of the financial crisis The chapters are woven together under four

interconnected thematic sections that examine rapidly growing national euroscepticism the Economic Monetary Union and its legitimacy the future of EU integration and democratic deficit s across its internal external structure The volume presents an authoritative collection of research results and surveys by experts in various disciplines related to the EU and is addressed to researchers and students examining EU governance representation and accountability as well as practitioners across a multiplicity of fields

The Euro at Ten Kenneth Dyson, 2008-09-04 With Economic and Monetary Union EMU the European Union is embarked on a major historic political project of formidable technical complexity In January 2009 the Euro Area will be ten years old What does the evidence from the first decade tell us about the significance of the euro for the EU and its member states This book brings together a range of recognized academic specialists to examine the main political aspects of this question How and in what ways has the euro Europeanized states members and non members their institutions policies and politics What have been its effects on the location and use of power Has the euro generated convergence or divergence What political patterns can be identified The book offers the first in depth and systematic political analysis of the first decade of the euro It places the euro in its global and European contexts offers a set of case studies of its effects on a representative sample of EU member states Anglo Saxon old D Mark Zone east central European and Baltic Mediterranean and Nordic and looks at three key sectors financial markets wages and collective bargaining and welfare reform The book contributes to Europeanization studies comparative political economy and studies of Economic and Monetary Union EMU It will be of major interest to students of the European Union and European integration comparative European politics and area and country studies

EU Fiscal Policy Coordination in Hard Times Charlotte Rommerskirchen, 2019-01-24 What happens to European Union EU fiscal policy coordination in hard times Recent accounts of the EU have portrayed the union as plagued by an austerity regime and rampant moral hazard Charlotte Rommerskirchen provides an alternative account of economic cooperation in Europe during the Great Recession and the European Debt Crisis Drawing on Mancur Olson s theory of collective action this volume combines evidence from statistical analysis and extensive interviews with key players This book reaches an unexpected conclusion regarding the state of collective action in times of crises Free riding was not rife Despite heated accusations member states crisis policies matched their fiscal room for manoeuvre The real collective action failure is instead diagnosed in the inability to sanction free riders at the EU level and empowering erratic bond markets to discipline governments

The Politics of Welfare State Transformation in Germany Christof Schiller, 2016-04-20 How can we best analyse contemporary welfare state change And how can we explain and understand the politics of it This book contributes to these questions both empirically and theoretically by concentrating on one of the least likely cases for welfare state transformation in Europe It analyzes in detail how and why institutional change has taken Germany s welfare state from a conservative towards a new work first regime Christof Schiller introduces a novel analytical framework to make sense of the politics of welfare state transformation by providing the missing link the capacity

of the core executive over time Examining the policy making process in labour market policy in the period between 1980 and 2010 he identifies three different policy making episodes and analyses their interaction with developments and changes in such policy areas as pension policy family policy labour law tax policy and social assistance The book advances existing efforts aimed at conceptualizing and measuring welfare state change by proposing a clear cut conceptualization of social policy regime change and introduces a comprehensive analysis of the transformation of the welfare work nexus between 1980 and 2010 in Germany This book will be of interest to students and scholars of social policy comparative welfare state reform welfare politics government governance public policy German politics European politics political economy sociology and history **Developments in German Politics 4** Stephen Padgett, William E. Paterson, Reimut Zohnhöfer, 2014-07-24

This provides authoritative coverage as well as wide ranging and integrated analysis of politics and policy in Germany today and of its role in Europe and the wider world Bringing together extensively revised and updated chapters by leading authorities it will be essential for students and anyone interested in European politics Understanding Policy Success Allen McConnell, 2010-08-11 Success and failure are key to any consideration of public policy but there have been remarkably few attempts to assess systematically the various dimensions and complex nature of policy success This important new text fills the gap by developing a systematic framework and offering an entirely new way of introducing students to policy analysis

German politics today Geoffrey Roberts, 2013-01-18 This revised and updated edition provides the reader with a comprehensive description and analysis of the institutions of the German political system The historical development of German politics is surveyed and special attention is given to the causes course and consequences of German reunification Where more detailed explanations of special topics are required such as surplus seats in the electoral system or the political career of Chancellor Merkel these are provided in boxes set within the relevant chapters Some information is provided in tabular form such as the list of federal chancellors and federal presidents the membership of trade unions or election results Appendices contain examples of important constitutional court cases plus a survey of the political features of the sixteen L nder which make up the federal structure of the state Each chapter offers suggestions for further reading Accessibly written with suggestions for further reading this book offers a sound basis for all undergraduate courses focused on or including study of the German political system The author s familiarity with all aspects of the German political system is evident from the authority with which he explains the structures and processes which form the basis of German politics *The Routledge Handbook of German Politics & Culture* Sarah Colvin, 2014-11-27 The Routledge Handbook of German Politics and Culture offers a wide ranging and authoritative account of Germany in the 21st century It gathers the expertise of internationally leading scholars of German culture politics and society to explore and explain historical pathways to contemporary Germany the current Berlin Republic society and diversity Germany and Europe Germany and the world This is an essential resource for students researchers and all those looking to understand contemporary German politics and culture Administrative

Traditions B. Guy Peters, 2021-02-02 Contemporary public administration reflects its historical roots as well as contemporary ideas about how the public bureaucracy should be organized and function This book argues that there are administrative traditions that have their roots centuries ago but continue to influence administrative behaviour Further within Western Europe North America and the Antipodes there are four distinctive administrative traditions Anglo American Napoleonic Germanic and Scandinavian These are not the only traditions however and the book also explores administrative traditions in Central and Eastern Europe Latin America Asia and the Islamic world In addition the book contains a discussion of how administrative traditions of the colonial powers influenced contemporary administration in Africa and how they continue to interact with traditional forms of governance These discussions of tradition and persistence are also discussed in light of the numerous attempts to reform and change public administration Some administrative traditions have been more capable than others of resisting attempts at reform especially those associated with the New Public Management
