## **Governing Paradoxes Of Restorative Justice:**

Governing Paradoxes of Restorative Justice George Pavlich,2013-01-11 Restorative justice is the policy of eschewing traditional punishments in favour of group counselling involving both victims and perpetrators Until now there has been no critical analysis of governmental rationales that legitimize restorative practices over traditional approaches but Governing Practices of Restorative Justice fills this gap and addresses the mentalities of governance most prominent in restorative justice The author provides comprehensible commentary on the central images of this discursive arena in a style accessible to participants and observers alike of restorative justice

**Handbook of Restorative Justice** Gerry Johnstone,Daniel Van Ness,2013-01-11 This book provides a comprehensive and authoritative account and analysis of restorative justice one of the most rapidly growing phenomena in the field of criminology and justice studies This book aims to meet the need for a comprehensive reliable and accessible overview of the subject It draws together leading authorities on the subject from around the world in order to elucidate and discuss the key concepts and principles of restorative justice explain how the campaign for restorative justice arose and developed into the influential social movement it is today describe the variety of restorative justice practices explain how they have developed in various places and contexts and critically examine their rationales and effects identify and examine key tensions and issues within the restorative justice movement brings a variety of disciplinary and interdisciplinary perspectives to bear upon the understanding and assessment of restorative justice The Handbook of Restorative Justice is essential reading for students and practitioners in the field

Restorative Justice Theo Gavrielides,2017-09-19 The legitimacy and performance of the traditional criminal justice system is the subject of intense scrutiny as the world economic crisis continues to put pressure on governments to cut the costs of the criminal justice system This volume brings together the leading work on restorative justice to achieve two objectives to construct a comprehensive and up to date conceptual framework for restorative justice suitable even for newcomers and to challenge the barriers of restorative justice in the hope of taking its theory and practice a step further The selected articles start by answering some fundamental questions about restorative justice regarding its historical and philosophical origins and challenge the concept by bringing into the debate the human rights and equality discourses Also included is material based on empirical testing of restorative justice claims especially those impacting on reoffending rates victim satisfaction and reintegration The volume concludes with a critique of restorative justice as well as with analytical thinking that aims to push its barriers It is hoped that the investigations offered by this volume not only offer hope for a better system for abolitionists and reformists but also new and convincing evidence to persuade the sceptics in the debate over restorative justice

**Critical Restorative Justice** Ivo Aertsen,Brunilda Pali,2017-11-16 Theories and practices of justice do not meet the socio political challenges of our times For those theorists attempting to develop an alternative to the criminal justice system restorative justice has provided an alternative horizon The restorative justice approach involves meeting people understanding and recognising their

vulnerability through participatory and deliberative forums and practices The aim of this collection is to bridge the distance between restorative justice and the critical theory tradition It on the one hand takes into account the limits of restorative justice as they have been articulated or can be articulated through critical social theory and on the other hand emphasises the ground breaking potential that restorative justice can bring to this tradition as a way to address crimes conflicts and injustices and to pursue justice

*The Psychology of Restorative Justice* Theo Gavrielides,2016-02-24 This ground breaking collection dares to take the next step in the advancement of an autonomous inter disciplinary restorative justice field of study It brings together criminology social psychology legal theory neuroscience affect script psychology sociology forensic mental health political sciences psychology and positive psychology to articulate for the first time a psychological concept of restorative justice To this end the book studies the power structures of the restorative justice movement the very psychology motivations and emotions of the practitioners who implement it as well as the drivers of its theoreticians and researchers Furthermore it examines the strengths and weakness of our own societies and the communities that are called to participate as parties in restorative justice Their own biases hunger for power and control fears and hopes are investigated The psychology and dynamics between those it aims to reach as well as those who are funding it including policy makers and politicians are looked into All these questions lead to creating an understanding of the psychology of restorative justice The book is essential reading for academics researchers policymakers practitioners and campaigners

**The Restorative Justice Ritual** Lindsey Pointer,2020-12-23 Restorative justice is an innovative approach to responding to crime and conflict that shifts the focus away from laws and punishment to instead consider the harm caused and what is needed to repair that harm and make things right Interest in restorative justice is rapidly expanding with new applications continuously emerging around the world The restorative philosophy and conference process have shown great promise in providing a justice response that heals individuals and strengthens the community Still a few key questions remain unanswered First how is the personal and relational transformation apparent in the restorative justice process achieved What can be done to safeguard and enhance that effectiveness Second can restorative justice satisfy the wider public s need for a reaffirmation of communal norms following a crime particularly in comparison to the criminal trial And finally given its primary focus on making amends at an interpersonal level does restorative justice routinely fail to address larger structural injustices This book engages with these three critical questions through an understanding of restorative justice as a ritual It proffers three dominant ritual functions related to the performance of justice the normative the transformative and the proleptic Two justice rituals namely the criminal trial and the restorative justice conference are examined through this framework in order to understand how each process fulfills or fails to fulfill the multifaceted human need for justice The book will be of interest to students academics and practitioners working in the areas of Restorative Justice Criminal Law and Criminology

**Reconstructing Restorative Justice Philosophy** Theo Gavrielides,Vasso Artinopoulou,2016-04-08 This book takes bold steps in forming

much needed philosophical foundations for restorative justice through deconstructing and reconstructing various models of thinking. It challenges current debates through the consideration and integration of various disciplines such as law, criminology, philosophy, and human rights into restorative justice theory, resulting in the development of new and stimulating arguments. Topics covered include the close relationship and convergence of restorative justice and human rights, some of the challenges of engagement with human rights, the need for the recognition of the teachings of restorative justice at both the theoretical and the applied level, the Aristotelian theory on restorative justice, the role of restorative justice in schools and in police practice, and a discussion of the humanistic African philosophy of Ubuntu. With international contributions from various disciplines and through the use of value-based research methods, the book deconstructs existing concepts and suggests a new conceptual model for restorative justice. This unique book will be of interest to academics, researchers, policy makers, and practitioners.

*Debating Restorative Justice* Chris Cunneen, Carolyn Hoyle, 2010-08-25. *Debating Law* is a new exciting series that gives scholarly experts the opportunity to offer contrasting perspectives on significant topics of contemporary general interest. In this first volume of the series, Carolyn Hoyle argues that communities and the state should be more restorative in responding to harms caused by crimes, antisocial behaviour, and other incivilities. She supports the exclusive use of restorative justice for many non-serious offences and favours approaches that, by integrating restorative and retributive philosophies, take restorative practices into the deep end of criminal justice. While acknowledging that restorative justice appears to have much to offer in terms of criminal justice reform, Chris Cunneen offers a different account, contending that the theoretical cogency of restorative ideas is limited by their lack of a coherent analysis of social and political power. He goes on to argue that, after several decades of experimentation, restorative justice has not produced significant change in the criminal justice system and that the attempt to establish it as a feasible alternative to dominant practices of criminal justice has failed. This lively and valuable debate will be of great interest to everyone interested in the criminal justice system.

**The Routledge International Handbook on Decolonizing Justice** Chris Cunneen, Antje Deckert, Amanda Porter, Juan Tauri, Robert Webb, 2023-07-03. *The Routledge International Handbook on Decolonizing Justice* focuses on the growing worldwide movement aimed at decolonizing state policies and practices and various disciplinary knowledges including criminology, social work, and law. The collection of original chapters brings together cutting-edge, politically engaged work from a diverse group of writers who take as a starting point an analysis founded in a decolonizing, decolonial, and/or Indigenous standpoint. Centering the perspectives of Black First Nations and other racialized and minoritized peoples, the book makes an internationally significant contribution to the literature. The chapters include analyses of specific decolonization policies and interventions instigated by communities to enhance jurisdictional self-determination, theoretical approaches to decolonization, the importance of research and research ethics as a key foundation of the decolonization process, crucial contemporary issues including deaths in custody, state crime, reparations, and transitional justice, and critical

analysis of key institutions of control including police courts corrections child protection systems and other forms of carcerality The handbook is divided into five sections which reflect the breadth of the decolonizing literature Why decolonization From the personal to the global State terror and violence Abolishing the carceral Transforming and decolonizing justice Disrupting epistemic violence This book offers a comprehensive and timely resource for activists students academics and those with an interest in Indigenous studies decolonial and post colonial studies criminal legal institutions and criminology It provides critical commentary and analyses of the major issues for enhancing social justice internationally The Open Access version of this book available at [www.taylorfrancis.com](http://www.taylorfrancis.com) has been made available under a Creative Commons Attribution Non Commercial No Derivatives 4.0 license
