E. Hawkesworth, Maurice Kogan, 1992 *Handbook of Public Administration, Second Edition* W. Bartley Hildreth, Gerald J. Miller, Jack Rabin, 1997-09-19 This bestselling reference examines all major areas in public administration from the enlightening perspectives of history and the five great concepts or theories framing each topic including public budgeting financial management decision making public law and regulation and political economy The American Reference Books Annual calls this stimulating and thought provoking thorough and inclusive a valuable contribution and Canadian Public Administration said it is impressive an extremely useful reference tool the writing and analysis and the scope of the coverage make the volume a good investment for both government and university libraries Budget Theory in the Public Sector Aman Khan, W. Bartley Hildreth, 2002-12-30 Dominated by multiple competing and occasionally overlapping theories the act of budgeting is by no means a staid dispiriting task Kahn Hildreth and their group of scholars and practitioners show that budgeting is an institutional process an incremental decision making tool and when correctly applied becomes a tribute to managerial and administrative efficiency Taken together the chapters provide an unusually coherent conceptual foundation for budgeting as a legitimate field of study and demonstrate yet again that in its current state the field is truly eclectic but compartmentalized They also show why it is so difficult to come up with one unified theory of budgeting and that is one of the book s major benefits It opens new areas of inquiry that in the opinion of Khan Hildreth and others will generate renewed interest in probing the field s theory and applications Understandable and readable for those with limited knowledge of the subject but needing a sufficiently useful grasp of its various issues and problems the book is both an important reference work for scholars in the field and a practical guide for students of administration their teachers and for managers throughout the public sector **Finance & Development, September 1983** International Monetary Fund.
