Assistive Technology: Shaping a Sustainable and Inclusive World D. Archambault, G. Kouroupetroglou, 2023-11-09 Caring about others and the future is part of what makes us human and it can be argued that improving the lives of people with disabilities improves the lives of all human beings Most of what we do as a society for people with disabilities also improves life for others and if we consider a person's entire life a disability of some kind will affect almost everybody at some point This book Assistive Technology Shaping a Sustainable and Inclusive World presents the proceedings of AAATE 2023 the 17th International Conference of the Association for the Advancement of Assistive Technology in Europe held in Aubervilliers France from 30 August to 1 September 2023 For over 30 years the biennial AAATE conference has focused on research aimed at improving the lives of people with a disability and has become one of the main platforms for all stakeholders in the field A total of 123 papers were submitted in the category intended for publication in these conference proceedings and after a rigorous process involving review by at least three international reviewers 74 were selected for inclusion here Topics covered include service delivery of AT AT for various groups such as older adults children and those with cognitive disabilities mobility privacy and security issues and AT to promote inclusion and facilitate participation in education culture and work Providing a comprehensive and current overview the book will be of interest to researchers practitioners manufacturers decision makers and providers users of AT and anyone else working in the field

Dementia and Human Rights Suzanne Cahill, 2018-03-28 The time has come to further challenge biomedical and clinical thinking about dementia which has for so long underpinned policy and practice Framing dementia as a disability this book takes a rights based approach to expand the debate Applying a social constructionist lens it builds on earlier critical perspectives by bringing together concepts including disability social inclusion personhood equality participation dignity empowerment autonomy and solidarity Launching the debate into new and exciting territory the book argues that people living with dementia come within the UN Convention on the Rights of Persons with Disabilities and therefore have full entitlement to all the rights the Convention enshrines A human rights based approach has not to date been fully applied to interrogate the lived experience and policy response to dementia With the fresh analytical tools provided in this book policy makers and practitioners will gain new insights into how this broader perspective can be used to further promote the quality of life and quality of care for all those affected by dementia

The Palgrave Handbook of Disability at Work Sandra L. Fielden, Mark E. Moore, Gemma L.
