Anyone who wants to understand how decisions are made in India should read this brilliant study of the BJP. Dr. Walter K. Andersen, Author of *The Brotherhood in Saffron: The Rashtriya Swayamsevak Sangh and Hindu Revivalism*. Ullekh NP has crafted a well-researched and gripping narrative of how the BJP seized the moment in 2014. Its penetrating analysis of the personalities, politics, and methods of Modi and Amit Shah makes it a useful resource for answering the major question of India's near-term political future: Will the BJP in the Modi era realize its ambition of building 2014 to emerge as the dominant party nationwide? Sumantra Bose, Professor of International and Comparative Politics, London School of Economics, Author of *Transforming India: Challenges to the World's largest Democracy*. Ullekh NP tells the story of Narendra Modi's campaign to lead the world's largest democracy. A man destined to reign on his own terms, Modi knew that being resilient was more important than being first and fast. Years after *War Room* is published, people will refer to it as the book that told the story of India's most spectacular election in May 2014 in all its subtle and magnificent details. **Record, Proceedings and Debates of the 113th Congress First Session Volume 159 - Part 13**, *Winning Revolutions*. J. Harold Ellens, 2013-11-26. The product of 35 senior scholars' research, these volumes examine the psychology driving the religious, political, and economic forces that cause turbulence and violence in human society. Religious, political, and economic revolts have defined the human experience throughout history. These kinds of universal turbulence continue to be the dominant source of human suffering and perplexity during the first decade of the 21st century. What can intensive study of the psychodynamics of cultural and social eruptions tell us that may serve to move cultures around the world beyond ongoing strife? This work seeks to find out by examining the spectrum of cultural and social eruptions from ancient Jewish, Christian, and Muslim revolutions to the modern-day economic and political turbulence in Eastern Europe, the Near East, and Latin America. The breadth of this three-volume set ranges from the 12th century BCE to the current struggles in Iraq, Afghanistan, and Syria, and from the irrational violence of the French Revolution to the genuine quest for liberty of the American Revolution and the Singing Revolutions in the Baltic States in recent decades. Each volume is introduced with a description of its philosophical perspective and concludes with a brief summarization of the takeaways of the research presented.
