**Working in Health** Marko Vujicic, Kelechi Ohiri, Susan Sparkes, 2009-01-01 Vanuatu is a traditionally male dominated and largely patriarchal society Women have extremely low representation in parliament and in other decision making bodies Despite this women are increasingly involved in private sector development and in the market economy Available statistics suggest that women own

nearly 30 percent of all businesses and approximately 20 percent of small and medium sized enterprises Yet government support for women s economic empowerment and women in business has been limited and reforms are needed to the general legal framework to ensure gender equality This v **Bolivia** Vicente Fretes Cibils, Marcelo Giugale, Connie Luff, 2006 Bolivia s challenges with regard to policy are multiple deep and multifaceted and as such they require integral proposals The book tries to cover these challenges in their different dimensions and presents options to grow more and better creating jobs with benefits for all and without corruption and with civic participation The design and implementation of all these options simultaneously or in the short and medium term is not feasible and from here blooms options **Reassembling Social Security** Carmelo Mesa-Lago, 2008-01-31 The reform of social security pensions and healthcare is a key issue for the modern world and in many ways Latin America has acted as a social laboratory for the reform of these systems This is the first book to comprehensively study these influential reforms in Latin America s pension and health care systems Primary Care in the Twenty-first Century Geoff Meads, 2006 Quality is at the heart of the government s strategy for NHS development and which is to be delivered through clinical governance This book explores accreditation through practical case studies and research findings and outlines how it can assure the quality of care Systems of accreditation for measuring and improving quality are described and show how they can be used easily and effectively to meet the challenges of the new NHS It is clear concise and relevant to all the current changes in healthcare provision All those responsible for delivering a service based on clinical and cost effectiveness will find it essential reading In the United Kingdom primary health care is based almost wholly on general practice From April 1999 all general practices will belong to primary care groups Questions of quality and accountability will be high on their agenda as part of the new arrangements for clinical governance This book on accreditation in primary care is therefore most timely Sir Donald Irvine President General Medical Council in the Introduction The World Bank Research Program 2004 World Bank, 2005 The World Bank s research is intended to address critical issues and problems facing member governments in developing and transition economies How can the governments of the poorest countries generate enough revenue to provide the education and health services essential to reducing poverty and promoting growth and development How can poor countries attract investors to build the infrastructure their economies need How can they develop systems to bring clean water to the 2 billion people without it today How can they train teachers and bring to class the 115 million children who have not yet received any education And how can rich countries be persuaded to lower market barriers helping to reverse the decline in export prices for poor countries that has left them earning less from trade today than in the 1970s These are the types of questions that are addressed in this edition of The World Bank Research Program Abstracts from Current Studies This volume reports on research projects initiated under way or completed from July 2003 through June 2004 It covers 151 research projects on several broad development related issues including agriculture health education environment infrastructure investment

climate and more The abstract for each project describes the questions addressed the analytic methods used the findings to date and policy implications

**Historical Dictionary of the World Bank** Sarah Tenney, Anne C. Salda, 2013-10-30 When it was founded back in 1944 no one could possibly have foreseen how the World Bank known more formally as the International Bank for Reconstruction and Development IBRD would flourish Today with 188 members it is by far the largest lender for projects in agriculture health infrastructure and many other fields in developing countries around the world with a budget of billions of dollars and a staff of more than 9 000 and its advice is usually heeded by both the developing countries which borrow from it and the advanced ones which contribute This second edition of the Historical Dictionary of the World Bank shows the substantial progress the Bank has made this mainly through the dictionary section with concise entries on its component institutions related organizations its achievements in various fields some of the major projects and member countries and its various presidents The introduction explains how the Bank works while the chronology traces the major events over nearly 70 years Meanwhile the list of acronyms reminds us just who the main players are And the bibliography directs readers to useful internal documentation and outside studies

**From Right to Reality** Helena Ribe, David Robalino, Ian Walker, 2012-03-13 This study highlights the interaction between social protection SP programs and labor markets in the Latin America region It presents new evidence on the limited coverage of existing programs and emphasizes the challenges caused by high informality for achieving universal social protection for old age income health unemployment risks and anti poverty safety nets It identifies interaction effects between SP programs and the behavioral responses of workers firms and social protection providers which can further undermine efforts to expand coverage summarizing evidence from recent work across the region The book argues for a re design of financing to eliminate cross subsidies between members of contributory programs and subsidies that effectively tax income from formal employment It advocates well targeted tax funded tapered subsidies to provide incentives to the savings efforts of low income workers coupled with an effective safety net for the extreme poor who have no capacity to contribute to financing their own social protection arrangements It also argues for the consolidation of programs and harmonization of benefits packages across different insurers The book develops an overall conceptual framework and presents in depth analysis of the main SP sectors of pensions health unemployment insurance and labor market programs and safety net transfers

*Challenges in Health and Development* Sandy A. Johnson, 2017-03-06 This textbook examines strategies of investing in human health and investing in economic growth as distinct approaches to development It explores the symbiotic relationship of these tactics and considers the applications and outcomes from a global national and community level perspective Each chapter introduces concepts of economic development and population health and uses case studies to illustrate the same These case studies include program and policy examples from Bangladesh Chile Haiti Rwanda South Africa and Sri Lanka The textbook also examines the impact of macroeconomic adjustment programs health care restructuring investment in primary health care public private

partnerships and the challenges of program coordination and up scaling in stable and conflict ridden countries Discussion questions are provided at the end of each chapter to facilitate classroom activities Solutions are provided at the end of the textbook

**Analyzing the Distributional Impact of Reforms, 2** Aline Coudouel, Stefano Paternostro, 2005 The analysis of the distributional impact of policy reforms on the well being or welfare of different stakeholder groups particularly on the poor and vulnerable has an important role in the elaboration and implementation of poverty reduction strategies in developing countries In recent years this type of work has been labeled as Poverty and Social Impact Analysis PSIA and is increasingly implemented to promote evidence based policy choices and foster debate on policy reform options While information is available on the general approach techniques and tools for distributional analysis each sector displays a series of specific characteristics These have implications for the analysis of distributional impacts including the types of impacts and transmission channels that warrant particular attention the tools and techniques most appropriate the data source typically utilized and the range of political economy factors most likely to affect the reform process This volume provides an overview of the specific issues arising in the analysis of the distributional impacts of policy and institutional reforms in selected sectors Each chapter offers guidance on the selection of tools and techniques most adapted to the reforms under scrutiny and offers examples of applications of these approaches This is a companion to the first volume which offers guidance on trade monetary and exchange rate policy utility provision agricultural markets land policy and education

Bounded Rationality and Policy Diffusion Kurt Weyland, 2009-02-09 Why do very different countries often emulate the same policy model Two years after Ronald Reagan's income tax simplification of 1986 Brazil adopted a similar reform even though it threatened to exacerbate income disparity and jeopardize state revenues And Chile's pension privatization of the early 1980s has spread throughout Latin America and beyond even though many poor countries that have privatized their social security systems including Bolivia and El Salvador lack some of the preconditions necessary to do so successfully In a major step beyond conventional rational choice accounts of policy decision making this book demonstrates that bounded not

full rationality drives the spread of innovations across countries When seeking solutions to domestic problems decision makers often consider foreign models sometimes promoted by development institutions like the World Bank But as Kurt Weyland argues policymakers apply inferential shortcuts at the risk of distortions and biases Through an in depth analysis of pension and health reform in Bolivia Brazil Costa Rica El Salvador and Peru Weyland demonstrates that decision makers are captivated by neat bold cognitively available models And rather than thoroughly assessing the costs and benefits of external models they draw excessively firm conclusions from limited data and overextrapolate from spurts of success or failure Indications of initial success can thus trigger an upsurge of policy diffusion      **Improving the Odds** Carol Graham,Merilee Grindle,Eduardo Lora,Jessica Seddon Wallack,1999-01-15 This monograph is part of a larger investigation of the political economy of institutional reform in Latin America undertaken by the Latin American Research Network It examines some hypotheses about what can be done to improve the chances for successful institutional change It draws on the results of four case studies Argentina Bolivia Peru and Uruguay to identify the characteristics of successful reforms and provide recommendations for policymakers who seek to improve their countries institutions      **American Book Publishing Record** ,2004      Latin American Research Review ,2007      *Publications Catalog* World Bank,2004      *Is Decentralization Good for Development?* Jean-Paul Faguet,Caroline Pöschl,2015 Is decentralisation good for development This book explains when the answer is Yes and when it is No It shows how decentralisation can be designed to drive development forward and focuses on the institutional incentives that can strengthen democracy boost economies and improve public sector performance
