Health Services Reports, 1987 Public Health Reports, 1987 **Advances in Applied Social Psychology** R. F. Kidd, M. J. Saks, 2013-08-21 First Published in 1983 This volume is the second in a series of volumes on applied social psychology The contents of the contributions represent the richly diverse approaches and settings in which social psychology is being used In preparing their chapters the contributors were asked to focus on how social psychologists as scientists and advocates could contribute to the resolution of the debates that often surround important social problems Each author was asked to place his or her attempts to use social psychological knowledge in the context of his or her own specific problem If one consistent theme emerges from this collection it is the emphasis on employing social psychology to enlighten and understand decisions at the level of public policy This book is a vital display of how existing literature and methods in the field can work to illuminate and inform issues of national and even international importance

Lessons from the First Twenty Years of Medicare Mark V. Pauly, William L. Kissick, Laura E. Roper, 1988 In this comprehensive volume leading experts on health

policy consider a broad range of Medicare related issues They assess the effects of Medicare policy over the last twenty years analyze the impact of changing economic and demographic conditions and consider how best to implement successful reform of the troubled system Politics and Health Care Organization Lawrence Brown,2010-12-01 Among various health cost containment strategies proposed during the 1970s none has held more sustained fascination than the health maintenance organization HMO For many years policy analysts in search of market and incentive based alternatives to command and control regulation have argued that medical groups combining prepayment and group practice and offering comprehensive medical services within a fixed budget would hold down costs both by their own efficient operations and by the competitive pressures they would apply to the conventional systems During the 1970s three presidents and five Congresses worked to formulate and implement legislation to increase the HMO presence nationwide with very modest results Some observers concluded that but for the well intended but counterproductive efforts of the federal government HMOs might thrive Indeed the Reagan administration has called for an end to direct federal financial involvement in building HMOs though it has also promised legislation to promote HMOs and a newly competitive health care system based on revamped financial incentives and reinvigorated markets In this book Lawrence D Brown a senior fellow in the Brookings Governmental Studies program examines the interplay between politics and policy in the federal HMO development effort between 1970 and 1980 He argues that the basic explanation for the disappointments of the policy analysts and federal supporters of HMOs lies not in a political miscarriage but in the overambitious promises of the policy strategy itself Tracing the poor fit between policy and politics revealed by federal efforts to translate the attractive HMO idea into a workable strategy Brown concludes that the episode augurs poorly for the competitive reforms frequently offered as a nonregulatory solution to rising health care costs in the 1980s **HIV Mental Health for the 21st Century** Mark G. Winiarski,1997-03-01 As we approach the 21st century we also approach the third decade of the AIDS epidemic Mental health care providers must face the crucial fact that the human immunodeficiency virus HIV and the condition it causes Acquired Immune Deficiency Syndrome AIDS is the leading cause of death among Americans aged 25 44 years HIV Mental Health for the 21st Century provides a roadmap for mental health professionals who seek to develop new strategies aimed at increasing the longevity and quality of life for people living with HIV AIDS as well as at controlling the future spread of the disease Divided into five sections this volume covers basic concepts in HIV AIDS mental health specialized aspects of HIV AIDS clinical care models of clinical care program evaluation and HIV mental health policy and programs Chapters treat issues such as feelings of caregivers the role of spirituality in mental health care rural practice mental health home care and working with children **Readings in American Health Care** William G. Rothstein,1995 A collection of journal articles from the 1980s examining the historical development of current health care issues in American society and comparing them to related issues of the past Articles by sociologists historians economists physicians and health researchers include introductions bibliographies and discussion questions and
