Health and Economic Development in South-eastern Europe Council of Europe Development Bank, 2006 The economic benefits to be gained from investment in public health are increasingly being recognised as well as its importance for social cohesion and these objectives play a central role in the European Union's Lisbon agenda This study seeks to demonstrate the economic importance of the health sector for the countries of south eastern Europe by examining trends and patterns of disease burden and socioeconomic inequalities in health the development of health systems and health policies as well as options for policy development in order to meet future health challenges in the region

Labor Markets and Economic Development Ravi Kanbur, Jan Svejnar, 2009-05-07 As developing and transition economies enter the next phase of reforms labor market issues increasingly come to the fore With the increased competition from globalization the discussion is shifting to the need for greater labor market flexibility and the creation of good jobs Moreover the greater actual and perceived insecurity in labor markets has generated a new agenda on how to structure safety nets and labor market regulation The older questions of the links between the formal and informal labor market reappear with new dimensions and significance More generally it is clear that an accurate understanding of how labor market structures function is essential if we are to analyze alternative policy proposals in the wake of these concerns Oddly enough in spite of this great importance there are no recent monographs that bring together rigorous studies produced by academic researchers on these various issues This book fills that gap Under the steely editorship of Ravi Kanbur and Jan Svejnar the contributors flourish in their attempts to enliven these debates
