C.V. Conner, 2017-11-16 What we're trying to do with this book is help the hunter to have another option that option is to call in someone nearby with a trained blood tracking dog YOU These dogs can find deer that human hunters might walk right by They are able to scent trail deer even when there is no blood at all to follow A trained tracking dog can lead its handler to a deer even several days after it was shot And that is what this book is all about getting you started on training a dog that can cut your deer tracking time in half and increase your recovery rate by 80 or 90 percent Basically training almost any dog to blood trail is simple It's so simple in fact that I can sum it up in just a few paragraphs You don't have to own a hound to train your own tracking dog Any breed with the nose to follow a trail can be trained I have seen everything from labs to Jack Russell terriers to dachshunds trained to trail deer I personally have a black lab named Tilly and a heeler shepherd mix named Diamond Cut In short you would start out your training by making a game of it You could use a strip of bacon or a piece of calf liver tied to a string as your first scent marker To make sure the dog is following the calf liver or bacon scent and not yours tie the string to the end of a long pole to drag it well away from your own scent trail As your dog becomes more adept at following the trail you should start to make it more difficult by hopping the calf liver or bacon strip along the ground and lifting it for several feet between touches Getting your dog fully trained to blood trail takes a lot of time and patience But knowing how to get the dog motivated to track and stay with the right line from the beginning really pays off when working with hunters to recover their harvest The best teacher is time spent with the dog and a lot of it Time spent in the field

tracking through the season and training the rest of the year This is what it takes to form a bond And that bond is strengthen and reinforced in life s journey with your blood trail dog If I gave you no more information than what s above you would have enough to get your dog started with blood trailing But in reality there is a lot more to be learned about tracking with a dog So let s get started now to build a complete training course for your new blood trailing student **Journal of the African Society** African Society,1922 **Court of Appeals , Shooting and Fishing ,1917 Death in the Dark Continent** Peter Hathaway Capstick,1989-07-15 Critically acclaimed as a master of adventure writing for *Death in the Long Grass* and *Death in the Silent Places* former professional hunter Peter Hathaway Capstick takes us back to Africa to encounter the world s most dangerous big game animals After consulting African game experts and recalling his own experiences and those of his colleagues Capstick has written chilling authoritative accounts of hunting the five most dangerous killers on the African continent lion leopard elephant Cape buffalo and rhinoceros The classic big game animals are unmatched as a test of a hunter s skill and courage With a command of exciting prose Capstick brings us along on the chase The warning snarl of a crouching lion the swish of grass that reveals a leopard the enraged scream of a wounded elephant the cloud of dust that marks a herd of Cape buffalo the earthshaking charge of a rhino are recreated in heart stopping nerve racking detail In *Death in the Dark Continent* Capstick brings to life all the suspense fear and exhilaration of stalking ferocious killers under primitive savage conditions with the ever present threat of death *The Beginner's Guide to Hunting Deer for Food* Jackson Landers,2011-01-01 Describes the benefits of hunting deer for food providing information on such topics as choosing the correct rifle and ammunition hunting effectively and safely and dressing and butchering the kill along with a colletion of recipes *Red Deer Hunting: A Complete Guide , The Wanderings of an Elephant Hunter* Walter Dalrymple Maitland Bell,1923 **Africa's Most Dangerous** Kevin Robertson,2024-03-26 This title has some of the most spectacular buffalo photos ever published *Shooter's Bible Guide to Deer Hunting* Peter J.
