Carving & Lettering John Stevens Shop, 195? **The Lettering of an Athenian Mason** Stephen V. Tracy, 1975 Revision of the author s thesis Harvard 1967

Athenian Lettering of the Fifth Century B.C. Stephen Victor Tracy, 2016-03-07 This book has chapters on methodology on the writing of the first decrees and laws of the years ca 515 to 450 B C on unique examples of writing of ca 450 to 400 on the inscribers of the Lapis Primus and Lapis Secundus IG I3 259 280 and on those of the Attic Stelai IG I3 421 430 These are followed by studies of 11 individual cutters arranged in chronological order This study brings order to the study of hands of the fifth century by setting out a methodology and by discussing the attempts of others to identify hands Another aim is to bring out the individuality of the writing of these early inscribers It shows that from the beginning the writing on Athenian inscriptions on stone was very idiosyncratic for all intents and purposes

individual writing It identifies the inscribing of the sacred inventories of Athena beginning about 450 B C as the genesis of the professional letter cutter in Athens and traces the trajectory of the profession While the dating of many inscriptions will remain a matter for scholarly discussion the present study narrows the dates of many texts It also pinpoints the origin of the mistaken idea that three bar sigma did not occur on public documents after the year 446 in order to make those who are not expert more aware that this is not a reliable means of dating **Letters & Lettering** Frank Chouteau Brown,1918

Lettering Hildegard Korger,1992 *Elements of Lettering* Frederic William Goudy,1922 **Letter Cutting in Stone**,2011 **Understanding Building Stones and Stone Buildings** John A. Hudson,John W. Cosgrove,2019-04-24 This book covers the wide spectrum of subjects relating to obtaining and using building stones starting with their geological origin and then describing the nature of granites volcanics limestones sandstones flint metamorphic stones breccias and conglomerates with emphasis being placed on how to recognise the different stones via the many illustrated examples from Great Britain and other countries The life of a building stone is explained from its origin in the quarry through its exposure to the elements when used for a building to its eventual deterioration The structure of stone buildings is then discussed with explanations of the mechanics of pillars lighthouses and walls arches bridges buttresses and roof vaults plus castles and cathedrals The sequence of the historical architectural styles of stone buildings is explained from the early days through to postmodern buildings Special attention is paid to two famous architects the Roman Vitruvius and the English Sir Christopher Wren who

designed and supervised the construction of St Paul's Cathedral in London To demonstrate many of the concepts presented two exemplary stone buildings are described in detail the Albert Memorial in London and Durham Cathedral in northern England The former building is interesting because it is comprised of a cornucopia of different building stones and the latter building because of its architecture and sandstone decay mechanisms In the final Chapter ruined stone buildings are discussed the many reasons for their decay and the possibility of their rebirth via digital recording of their geometry The book has over 350 pages and is illustrated with more than 450 diagrams and colour photographs of both the various stones and the associated stone buildings Readers knowledge of the subject will be greatly enhanced by these images and the related explanatory text A wide ranging references and bibliography section is also included American Stone Trade ,1913
