Letters to Rev. E. F. Hatfield in Review of Two Lectures Against Universalism Benjamin B. Hallock, 1840

Letters to the Rev. Stephen Remington, in Review of His Lectures on Universalism Thomas Jefferson Sawyer, 1839

The Unknowable W. J. Mander, 2020-05-19 W J Mander presents a history of metaphysics in nineteenth century Britain

The story focuses on the elaboration of and differing reactions to the concept of the unknowable or unconditioned first developed by Sir William Hamilton in the 1829 The idea of an ultimate but unknowable way that things really are in themselves may be seen as supplying a narrative arc that runs right through the metaphysical systems of the period in question These thought schemes may be divided into three broad groups which were roughly consecutive in their emergence but also overlapping as they continued to develop In the first instance there were the doctrines of the agnostics who developed further Hamilton's basic idea that fundamental reality lies for the great part beyond our cognitive reach These philosophies were followed immediately by those of the empiricists and in the last third of the century the idealists both of these schools of thought albeit in profoundly different ways reacted against the epistemic pessimism of the agnostics Mander offers close textual readings of the main contributions to First Philosophy made by the key philosophers of the period such as Hamilton Mansel Spencer Mill and Bradley as well as some less well known figures such as Bain Clifford Shadworth Hodgson Ferrier and John Grote By presenting interpreting criticising and connecting together their various contrasting ideas this book explains how the three traditions developed and interacted with one another to comprise the history of metaphysics in Victorian Britain

Saturday Review, 1875 Scripture, Skepticism, and the Character of God Dane Neufeld, 2019-07-11 During a period of great religious upheaval Anglican philosopher and ecclesiastic Henry Longueville Mansel 1820 1871 became famous for his 1858 Bampton Lectures which sought to defend traditional faith by employing a skeptical philosophy Understanding Mansel and the passionate debate that surrounded his career provides insight into the current struggle for ancient religions to articulate their traditions in a modern world In *Scripture Skepticism and the Character of God* Dane Neufeld explores the life and thought of the now forgotten nineteenth century theologian Examining the ideological differences between this philosopher and his contemporaries Neufeld makes a case for the coherence of Mansel's position and traces the vestiges of his thought through the generations that followed him Mansel found himself at the centre of an explosive debate concerning the Christian scriptures and the moral character of the God they described Though the rise of science is often credited with provoking a crisis of doubt shifting ideas about humanity and God were just as central to the spiritual unrest of the

nineteenth century Mansel's central argument that the entire Bible must be read as a unified witness to the reality of God provoked disagreement among theologians, churchmen and free thinkers alike who were uncomfortable with certain aspects of the scriptural portrayal of God's activity and character. Mansel's attempt to reconcile theological skepticism with scripturalism was misunderstood. He was branded a hopeless fideist by the free thinkers and a dangerous skeptic by high broad and evangelical churchmen alike. Many of the controversies in contemporary Christianity concern the collision between modern morality and biblical renderings of God. Neufeld argues that Henry Mansel, while a deeply polarizing figure, brought clarity and precision to this debate by exposing what was at stake for Christian belief and biblical interpretation in the Victorian period.

Mark Twain's Letters, Volume 4 Mark Twain, 1988

You ought to see Livy me now a days you never saw such a serenely satisfied couple of doves in all your life I spent Jan 1 2 3 5 there left at 8 last night With my vile temper variable moods it seems an incomprehensible miracle that we two have been right together in the same house half the time for a year a half yet have never had a cross word or a lover's tiff or a pouting spell or a misunderstanding or the faintest shadow of a jealous suspicion Now isn't that absolutely wonderful Could I have had such an experience with any other girl on earth I am perfectly certain I could not We are to be married on Feb 2d So begins Volume 4 of the letters with Samuel Clemens anticipating his wedding to Olivia L Langdon The 338 letters in this volume document the first two years of a loving marriage that would last more than thirty years They recount in Clemens's own inimitable voice a tumultuous time a growing international fame the birth of a sickly first child and the near fatal illness of his wife At the beginning of 1870 fresh from the success of *The Innocents Abroad* Clemens is on the long agony of a lecture tour and planning to settle in Buffalo as editor of the *Express* By the end of 1871 he has moved to Hartford and is again on tour anticipating the publication of *Roughing It* and the birth of his second child The intervening letters show Clemens bursting with literary ideas business schemes and inventions and they show him erupting with frustration anger and grief but more often with dazzling humor and surprising self revelation In addition to *Roughing It* Clemens wrote some enduringly popular short pieces during this period but he saved some of his best writing for private letters many of which are published here for the first time

The Romantic Literary Lecture in Britain Sarah Zimmerman, 2019-01-17 At the beginning of the nineteenth century the literary lecture arrived on London's cultural scene as an influential critical medium and popular social event. It flourished

for two decades in the hands of the period's most prominent lecturers Samuel Taylor Coleridge John Thelwall Thomas Campbell and William Hazlitt Lecturers aimed to shape auditors reading habits burnish their own professional profiles and establish a literary canon Auditors wielded their own considerable influence since their sustained approbation was necessary to a lecturer's success and independent series could collapse midway if attendance waned Two chapters are therefore devoted to the auditors whose creative responses to what they heard often constituted cultural works in their own right Auditors wrote poems and letters about lecture performances acted as patrons to lecturers and hosted dinners and conversation parties that followed these events Prominent auditors included John Keats Mary Russell Mitford Henry Crabb Robinson Catherine Maria Fanshawe and Lady Charlotte Bury The Romantic public literary lecture is a fascinating cultural phenomenon in its own right but understanding the medium has significant implications for some of the period's most important literary criticism such as Coleridge's readings of Shakespeare and Hazlitt's *Lectures on the English Poets* 1818 The book's two main aims are to chart the emergence of the literary lecture as a popular medium and to develop a critical approach to these events by drawing on an interdisciplinary discussion about how to treat historical speaking performances
