Levende Lys:

Cultural Semantics and Social Cognition Carsten Levisen, 2012-12-06 Presenting original detailed studies of keywords of Danish this book breaks new ground for the study of language and cultural values Based on evidence from the semantic categories of everyday language such as the Danish concept of hygge roughly meaning pleasant togetherness the book provides an integrative socio cognitive framework for studying and understanding language particular universes It is argued that the worlds we live in are not linguistically and conceptually neutral but rather that speakers who live by Danish concepts are likely to pay attention to their world in ways suggested by central Danish keywords and lexical grids By means of a sophisticated semantic methodology the author accounts for the meanings of even highly culture specific and untranslatable linguistic concepts The book offers new tools for comparative research into the diversity of semantic and cultural systems in contemporary Europe Additionally it contributes to the emerging discipline of cultural semantics and to the ongoing debates of linguistic diversity metalanguage and the use of linguistic evidence in studies of culture and social cognition

leve i tavshed Hun havde kun ringe kontakt med klosterbrødrene men hun fortrolig havde hun Et usdvanligt venskab voksede frem mellem Hildegard og hendes lærer den næsten 70-årige munk Volmar Det engang søsøstre barn blev nonne i gekyndig forfatter og visionær Hun komponerede musik der stadig spilles den dag i dag Hun forlod aldrig klosterlivet men fik med tiden kontakt med de mest magtfulde mænd deriblandt paven i Rom Historien om Hildegard rækker ud over hendes skrift og samtidig Det er et nuanceret portræt af en kvinde der bliver ved med at fascinere på tværs af hundreder og som i sit virke tog store eksistentielle temaer under behandling tro tvivl kald og afkald

A European Memory?

Małgorzata Pakier, Bo Stråth, 2012 An examination of the role of history and memory is vital in order to better understand why the grand design of a United Europe with a common foreign policy and market yet enough diversity to allow for cultural and social differences was overwhelmingly turned down by its citizens The authors argue that this rejection of the European constitution was to a certain extent a challenge to the current historical grounding used for further integration and further demonstrates the lack of understanding by European bureaucrats of the historical complexity and divisiveness of Europe's past A critical European history is therefore urgently needed to confront and re-imagine Europe not as a harmonious continent but as the outcome of violent and bloody conflicts both within Europe as well as with its Others As the authors show these dark shadows of Europe's past must be integrated and the fact that memories of Europe are contested must be accepted if any new attempts at a United Europe are to be successful
