## **Lexicon Des Expressionismus:**

**Digital Modernism Heritage Lexicon** Cristiana Bartolomei, Alfonso Ippolito, Simone Helena Tanoue Vizioli, 2021-08-11

The book investigates the theme of Modernism 1920-1960 and its epigones as an integral part of tangible and intangible cultural heritage which contains the result of a whole range of disciplines whose aim is to identify, document and preserve the memory of the past and the value of the future. Including several chapters it contains research results relating to cultural heritage more specifically Modernism and current digital technologies. This makes it possible to record and evaluate the changes that both undergo the first one from a material point of view the second one from the research point of view which integrates the traditional approach with an innovative one. The purpose of the publication is to show the most recent studies on the modernist lexicon 100 years after its birth moving through different fields of cultural heritage from different forms of art to architecture from design to engineering from literature to history representation and restoration. The book appeals to scholars and professionals who are involved in the process of understanding, reading and comprehension the transformation that the places have undergone within the period under examination. It will certainly foster the international exchange of knowledge that characterized Modernism.

**Primitivistische Künstlerfiguren im Expressionismus** Ladina Fessler, 2022-05-16

Gottfried Benns Künstlerfigur lässt sich ein Pferdeauge implantieren um neue Kunst zu schaffen. Robert Müller's Protagonisten verwildern im guyanischen Urwald und bringen im Delirium eine Kunsttheorie hervor die Gewalt und Tod sthetisiert. Carl Einstein propagiert die unerreichbare Negerplastik bei deren Imitation die zeitgenössischen primitivistischen Künstler innen nur scheitern können. Die vorliegende Studie analysiert das Going native von Paul Gauguin in der Schweiz und die Künstlerfiguren und theoretischen Texte der expressionistischen Generation die diesem grossen Vorbild Tribut zollen. Die Texte diskutieren das Dilemma des Verwilderns und die Möglichkeiten künstlerischer Grenzüberschreitung.

**Expressionism in a Transnational Context** Isabel Wünsche, 2018-08-22

The Routledge Companion to Expressionism in a Transnational Context is a challenging exploration of the transnational formation, dissemination and transformation of expressionism outside of the German speaking world in regions such as Central and Eastern Europe, the Baltics and Scandinavia, Western and Southern Europe, North and Latin America and South Africa in the first half of the twentieth century. Comprising a series of essays by an international group of scholars in the fields of art history and literary and cultural studies, the volume addresses the intellectual discussions and artistic developments arising in the context of the expressionist movement in the various art centers and cultural regions. The authors also examine the implications of expressionism in artistic practice and its influence on modern and contemporary cultural production. Essential for an in-depth understanding and discussion of expressionism, this volume opens up new perspectives on developments in the visual arts of
