Kim, 2023-01-01 Yale French Studies 142 explores the contemporary relevance of an alternative strand of feminism as theorized by Monique Wittig This volume of Yale French Studies foregrounds Monique Wittig 1935-2003 a writer who left France to live and teach in the United States in a diverse range of multidisciplinary conversations in literary studies history and gender and sexuality studies to demonstrate how Wittig's theoretical and literary work remains an indispensable resource for thinking and creating in the twenty-first century Editors Morgane Cadieu and Annabel L. Kim flip the materialist lesbianism that Wittig's collection of essays The Straight Mind centers and describes as being the core of Wittig's work to deal instead with lesbian materialism thereby making lesbian the method and materialism the object and allowing Wittig's work to realize its full range The volume reinterrogates the official historiography of French materialist feminism expands the intellectual framework within which Wittig's work is usually considered insists on the language-centric materialism that emerges from Wittig's writing as a way of joining the political with the literary and attends to the way this literary material inspires material responses and creations within the plastic arts Underlying the entire volume is a keen sense of the materiality of Wittig's archives housed at the Beinecke Rare Book and Manuscript Library at Yale University as a site of lesbian thought in Wittig's radical sense of the term a fugitive positionality **The Cambridge History of Modern European Thought: Volume 2, The Twentieth Century** Peter E. **The Burnt Book** Marc-Alain Ouaknin, 2024-05-14 A profound look at what it means for new generations to read and interpret ancient religious texts In this book rabbi and philosopher Marc Alain Ouaknin offers a postmodern reading of the Talmud Combining traditional learning and contemporary thought Ouaknin dovetails discussions of spirituality and religious practice with such concepts as deconstruction intertextuality undecidability multiple voicing and eroticism in the Talmud On a broader level he establishes a dialogue between Hebrew tradition and the social sciences which draws for example on the works of L vinas Blanchot and Jab s as well as Derrida The Burnt Book represents the innovative thinking that has come to be associated with a school of French Jewish studies headed by L vinas and dedicated to new readings of traditional texts The Talmud transcribed in 500 C E is shown to be a text that refrains from dogma and instead encourages the exploration of its meanings A vast compilation of Jewish oral law the Talmud also contains rabbinical commentaries that touch on everything from astronomy to household life Examining its literary methods and internal logic Ouaknin explains how this text allows readers to transcend its authority in that it invites them to interpret discuss and recreate their religious tradition An in depth treatment of selected texts from the oral law and commentary goes on to provide a model for secular study of the Talmud in light of contemporary philosophical issues Throughout the author emphasizes the self effacing quality of a text whose worth can be measured by the insights that live on in the minds of its interpreters long after they have closed the book He points out that the burning of the Talmud in anti Judaic campaigns throughout history has in fact been an unwitting act of complicity with Talmudic philosophy and the practice of self effacement Ouaknin concludes his discussion with the story of the Hasidic master Rabbi Nahman of Bratslav who himself burned his life achievement a work known by his students as the Burnt Book This story leaves us with the question should all books be destroyed in order to give birth to thought and renew meaning
