Autobiography and Selected Letters Libanius, 1992 **Libanius the Sophist** Raffaella Cribiore, 2013-11-15 Libanius of Antioch was a rhetorician of rare skill and eloquence So renowned was he in the fourth century that his school of rhetoric in Roman Syria became among the most prestigious in the Eastern Empire In this book Raffaella Cribiore draws on her unique knowledge of the entire body of Libanius s vast literary output including 64 orations 1 544 letters and exercises for his students to offer the fullest intellectual portrait yet of this remarkable figure whom John Chrysostom called the sophist of the city Libanius 314 ca 393 lived at a time when Christianity was celebrating its triumph but paganism tried to resist Although himself a pagan Libanius cultivated friendships within Antioch s Christian community and taught leaders of the Church including Chrysostom and Basil of Caesarea Cribiore calls him a gray pagan who did not share the fanaticism of the Emperor Julian Cribiore considers the role that a major intellectual of Libanius s caliber played in this religiously diverse society and culture When he wrote a letter or delivered an oration who was he addressing and what did he hope to accomplish One thing that stands out in Libanius s speeches is the startling amount of invective against his enemies How common was character assassination of this sort What was the subtext to these speeches and how would they have been received Adapted from the Townsend Lectures that Cribiore delivered at Cornell University in 2010 this book brilliantly restores Libanius to his rightful place in the rich and culturally complex world of Late Antiquity

Situating Josephus' Life within Ancient Autobiography Davina Grojnowski, 2023-06-15 Davina Grojnowski examines *Life* the autobiographical text written by ancient Jewish historian Flavius Josephus from a literary studies perspective and in relation to genre theory In order to generate a framework of literary practices Josephus *Life* and other texts within Josephus literary spheres all associated with autobiography are the focus of a detailed literary analysis which compares the texts in terms of established features such as structure topoi and subject This methodological examination enables a better understanding of the literary boundaries of autobiography in antiquity and illustrates Josephus thought process during the composition of *Life* Grojnowski also offers a comparative study of autobiographical practices in Greek and Roman literature demonstrating the value of passive education supplementing what had been taught actively and its impact on authors and audiences As a result she provides insight into the development of literary practices in reaction to various forms of education and subsequently reflects on the religious self views of authors and audiences Simultaneously Grojnowski reacts to current discourses on ancient literary genres and demonstrates that ancient autobiography existed as a teachable literary genre in classical literature

Peterson,2019-02-01 This book examines the impact that Athenian Old Comedy had on Greek writers of the imperial era It is generally acknowledged that imperial era Greeks responded to Athenian Old Comedy in one of two ways either as a treasure trove of Atticisms or as a genre defined by and repudiated for its aggressive humor Worthy of further consideration however is the degree to which both approaches and particularly the latter one that relegated Old Comedy to the fringes of the literary canon led authors to engage with the ironic and self reflexive humor of Aristophanes Eupolis and Cratinus Authors ranging from serious moralizers Plutarch and Aelius Aristides to comic writers in their own right Lucian Alciphron to other figures not often associated with Old Comedy Libanius adopted aspects of the genre to negotiate power struggles facilitate literary and sophistic rivalries and as a model for autobiographical writing To varying degrees these writers wove recognizable features of the genre e g the parabasis its agonistic language the stage biographies of the individual poets into their writings The image of Old Comedy that emerges from this time is that of a genre in transition It was on the one hand with the exception of Aristophanes extant plays on the verge of being almost completely lost on the other hand its reputation and several of its most characteristic elements were being renegotiated and reinvented *Brill' s Companion to the Reception of Homer from the Hellenistic Age to Late Antiquity* Christina-Panagiota Manolea,2021-12-06 Brill s Companion to the Reception of Homer from the Hellenistic Age to Late Antiquity presents a comprehensive account of the afterlife of the Homeric corpus Twenty chapters written by a range of experts in the field show how Homeric poems were transmitted disseminated adopted analysed admired or even criticized across diverse intellectual environments from the late 4th century BCE to the 5th century CE The volume explores the impact of Homer on Hellenistic prose and poetry the Second Sophistic the Stoics some Christian writers and the major Neoplatonists showing how the Greek paideia continued to flourish in new contexts *A Companion to Augustine* Mark Vessey,2015-05-26 A Companion to Augustine presents a fresh collection of scholarship by leading academics with a new approach to contextualizing Augustine and his works within the multi disciplinary field of Late Antiquity showing Augustine as both a product of the cultural forces of his times and a cultural force in his own right Discusses the life and works of Augustine within their full historical context rather than privileging the theological context Presents Augustine s life works and leading ideas in the cultural context of the late Roman world providing a vibrant and engaging sense of Augustine in action in his own time and place Opens up a new phase of study on Augustine sensitive to the many and varied perspectives of scholarship on late Roman culture State of the art essays by leading academics in this field *Prosopographical studies on the court elite in the Roman Empire (4th century A. City of Demons Dayna S. Kalleres,2015-10-13 Although it would appear in studies of late antique ecclesiastical authority and power that scholars have covered everything an important aspect of the urban bishop has long been neglected his role as demonologist and exorcist When the emperor Constantine made Christianity the official religion of the realm bishops and priests everywhere struggled to Christianize the urban spaces still dominated by Greco Roman monuments and festivals During this period of upheaval when congregants seemingly attended everything but their own orthodox church many ecclesiastical leaders began simultaneously to promote aggressive and insidious depictions of the demonic In City of Demons Dayna S Kalleres investigates this developing discourse and the church sponsored rituals that went along with it showing how shifting ecclesiastical demonologies and evolving practices of exorcism profoundly shaped Christian life in the fourth century

Chain of Gold Susan C. Jarratt,2019-11-08 Barred from political engagement and legal advocacy the second sophists composed and performed epideictic works for audiences across the Mediterranean world during the early centuries of the Common Era In a wide ranging study author Susan C Jarratt argues that these artfully wrought discourses formerly considered vacuous entertainments constitute intricate negotiations with the absolute power of the Roman Empire Positioning culturally Greek but geographically diverse sophists as colonial subjects Jarratt offers readings that highlight ancient debates over free speech and figured discourse revealing the subtly coded commentary on Roman authority and governance embedded in these works Through allusions to classical Greek literature sophists such as Dio Chrysostom Aelius Aristides and Philostratus slipped oblique challenges to empire into otherwise

innocuous works. Such figures protected their creators from the danger of direct confrontation but nonetheless would have been recognized by elite audiences Roman and Greek alike by virtue of their common education. Focusing on such moments Jarratt presents close readings of city encomia, biography, and texts in hybrid genres from key second sophistic figures, setting each in its geographical context. Although all the authors considered are male, the analyses here bring to light reflections on gender, ethnicity, skin color, language differences, and sexuality, revealing an underrecognized diversity in the rhetorical activity of this period. While US scholars of ancient rhetoric have focused largely on the pedagogical, Jarratt brings a geopolitical lens to her study of the subject. Her inclusion of fourth century texts, the Greek novel *Ethiopian Story* by Heliodorus and the political orations of Libanius of Antioch, extends the temporal boundary of the period. She concludes with speculations about the pressures brought to bear on sophistic political subjectivity by the rise of Christianity and with ruminations on a third sophistic in ancient and contemporary eras of empire.
