Letters from Italy, Describing the Customs and Manners of that Country, in the Years 1765, and 1766 Samuel Sharp, 1766 The Women Who Saved the English Countryside Matthew Kelly, 2022-05-31 A vibrant history of English landscape preservation over the last 150 years told through the lives of four remarkable women. In Britain today a mosaic of regulations protects the natural environment and guarantees public access to green spaces. But this was not always so. Over the last 150 years activists have campaigned tirelessly for the right to roam through the countryside and the vital importance of preserving Britain's natural beauty. Matthew Kelly traces the history of landscape preservation through the lives of four remarkable women: Octavia Hill, Beatrix Potter, Pauline Dower, and Sylvia Sayer. From the commons of London to the Lake District, Northumberland, and Dartmoor, these women protected the English landscape at a crucial period through a mixture of environmental activism, networking, and sheer determination. They grappled with the challenges that urbanization and industrial modernity posed to human well-being as well as the natural environment. By tirelessly seeking to reconcile the needs of particular places to the broader public interest, they helped reimagine the purpose of the English countryside for the democratic age.

Autobiography, Letters and Literary Remains of Mrs. Piozzi (Thrale) Hester Lynch Piozzi, 1861 To the Letter Simon Garfield, 2013-11-14 The New York Times bestselling author of *Just My Type* and *On the Map* offers an ode to letter writing and its possible salvation in the digital age Few things are as exciting and potentially life changing as discovering an old letter And while etiquette books still extol the practice letter writing seems to be disappearing amid a flurry of e-mails texting and tweeting The recent decline in letter writing marks a cultural shift so vast that in the future historians may divide time not between BC and AD but between the eras when people wrote letters and when they did not So New York Times bestselling author Simon Garfield asks Can anything be done to revive a practice that has dictated and tracked the progress of civilization for more than five hundred years In *To the Letter* Garfield traces the fascinating history of letter writing from the love letter and the business letter to the chain letter and the letter of recommendation He provides a tender critique of early letter writing manuals and analyzes celebrated correspondence from Erasmus to Princess Diana He also considers the role that letters have played as a literary device from Shakespeare to the epistolary novel all the rage in the eighteenth century and alive and well today with bestsellers like *The Guernsey Literary and Potato Peel Pie Society* At a time when the decline of letter writing appears to be irreversible Garfield is the perfect candidate to inspire bibliophiles to put pen to paper and create a form of expression emotion and tactile delight we may clasp to our heart
