School of Physics and Astronomy, 1967 *Report of the Commissioner of Education*, 1902 *Report of the Commissioner of Education Made to the Secretary of the Interior for the Year ... with Accompanying Papers* United States. Bureau of Education, 1902 **The Oxford Encyclopedia of Medieval Warfare and Military Technology** Clifford J. Rogers, 2010 This set is an excellent companion to J R Strayer's edited Dictionary of the Middle Ages CH Nov 87 Supplement I ed by W C Jordan CH Sep 04 42 0044 The focus on warfare allows the editors to offer larger entries on major topics e g Agincourt Crusades Feudalism and introduce many complementary topics The editors are concerned with Europe they expand coverage into Asia or Africa only because of the connection to medieval Europe Coverage also includes an abundance of entries pertaining to Central and Eastern Europe Most of the 1 000 plus entries are about a page in length but a few approach 50 pages Medium and large size entries such as Chivalry Germany and Slavic Lands discuss primary sources and very valuable historiographies A thorough index helps readers locate the Knights Templar under Orders Military Levantine Orders Cross references and bibliographies follow each of the signed entries Locating reliable and scholarly information on the Knights Templar and Vlad Tepes Dracula is tricky Some of the bibliographies include sources in foreign languages For example the references for the Black Army of Hungary are in Hungarian Noticeably missing are entries for the many wars This set is particularly suited to research libraries Summing Up Highly recommended Lower level undergraduates through professionals practitioners general readers General Readers Lower division Undergraduates Upper division Undergraduates Graduate Students Researchers Faculty Professionals
