Letters Of Charles John Brydges 1879-1882:

The Letters of Charles John Brydges, 1879-1882, Hudson's Bay Company Land Commissioner Charles John Brydges, 1977 Documentation of the activities of the land commissioner of the Hudson's Bay Company during the period of agricultural settlement on the Prairies and reorganization of the fur trade

The Court of Queen's Bench of Manitoba, 1870-1950 Dale Brawn, 2006-12-15 This study of the Manitoba judiciary is not only the first biographical history to examine an entire provincial bench it is also one of the first studies to offer an internal view of the political nature of the judicial appointment process Dale Brawn has penned the biographies of the first thirty three men appointed to Manitoba's Court of Queen's Bench The relative youth of Manitoba as a province and the small size of its legal profession makes possible an exceptionally detailed investigation of the background of those appointed to the province's highest trial court The biographical data that Brawn has collected for this book highlights the extent to which judicial candidates underwent a socialization process designed to produce a legal elite whose members shared remarkably similar views and ways of thinking In addition these biographies suggest that until at least 1950 seats on provincial benches were rewards for political services rendered Many lawyers became judges not because of their legal ability but because they had made themselves known in the communities in which they practiced This fascinating study offers an intimate look at personalities ranging from prime ministers to members of the bench and both senior levels of government

Clearing the Plains James William Daschuk, 2013 In arresting but harrowing prose James Daschuk examines the roles that Old World diseases climate and most disturbingly Canadian politics the politics of ethnocide played in the deaths and subjugation of thousands of aboriginal people in the realization of Sir John A Macdonald's National Dream It was a dream that came at great expense the present disparity in health and economic well being between First Nations and non Native populations and the lingering racism and misunderstanding that permeates the national consciousness to this day Clearing the Plains is a tour de force that dismantles and destroys the view that Canada has a special claim to humanity in its treatment of indigenous peoples Daschuk shows how infectious disease and state supported starvation combined to create a creeping relentless catastrophe that persists to the present day The prose is gripping the analysis is incisive and the narrative is so chilling that it leaves its reader stunned and disturbed For days after reading it I was unable to shake a profound sense of sorrow This is fearless evidence driven history at its finest Elizabeth A Fenn author of Pox Americana Required reading for all Canadians Candace Savage author of A Geography of Blood Clearly written deeply researched and properly contextualized history Essential reading for everyone interested in the history of indigenous North America J R McNeill author of Mosquito Empires

The Developing West Lewis Herbert Thomas, 1983 No description

Lord Strathcona Donna McDonald, 2002-09 Donald Smith known to most Canadians as Lord Strathcona was an adventurer who made his fortune building railroads He joined the Hudson's Bay Company at age eighteen and went on to build the first railway to open the Canadian Northwest to settlement As his

crowning achievement he drove the last spike for the nation building Canadian Pacific Railway In 1896 Smith became Canada's High Commissioner in London and was soon elevated to the peerage He became a generous benefactor to Canadian institutions This eminently readable biography brings to light new information including details about Strathcona's personal life and his scandalous marriage The Beaver Hills Country Graham MacDonald,2009 This book explores a relatively small but interesting and anomalous region of Alberta between the North Saskatchewan and the Battle Rivers Ecological themes such as climatic cycles ground water availability vegetation succession and the response of wildlife and the impact of fires shape the possibilities and provide the challenges to those who have called the region home or used its varied resources Indians Metis and European immigrants *The Honourable John Norquay* Gerald Friesen,2024-04-12 The life and times of the Premier from Red River John Norquay orphan and prodigy was a leader among the Scots Cree peoples of western Canada Born in the Red River Settlement he farmed hunted traded and taught school before becoming a legislator cabinet minister and from 1878 to 1887 premier of Manitoba Once described as Louis Riel's alter ego he skirmished with prime minister John A Macdonald clashed with railway baron George Stephen and endured racist taunts while championing the interests of the Prairie West in battles with investment bankers Ottawa politicians and the CPR His contributions to the development of Canada's federal system and his dealings with issues of race and racism deserve attention today Recounted here by Canadian historian Gerald Friesen Norquay's life story ignites contemporary conversations around the nature of empire and Canada's own imperial past Drawing extensively on recently opened letters and financial papers that offer new insights into his business family and political life Friesen reveals Norquay to be a thoughtful statesman and generous patriarch This masterful biography of the Premier from Red River sheds welcome light on a neglected historical figure and a tumultuous time for Canada and Manitoba Lines Drawn upon the Water Karl S. Hele,2008-09-30 The First Nations who have lived in the Great Lakes watershed have been strongly influenced by the imposition of colonial and national boundaries there The essays in *Lines Drawn upon the Water* examine the impact of the Canadian American border on communities with reference to national efforts to enforce the boundary and the determination of local groups to pursue their interests and define themselves Although both governments regard the border as clearly defined local communities continue to contest the artificial divisions imposed by the international boundary and define spatial and human relationships in the borderlands in their own terms The debate is often cast in terms of Canada's failure to recognize the 1794 Jay Treaty's confirmation of Native rights to transport goods into Canada but ultimately the issue concerns the larger struggle of First Nations to force recognition of their people's rights to move freely across the border in search of economic and social independence *Dictionary of Canadian Biography / Dictionnaire Biographique Du Canada* Ramsay Cook,Jean Hamelin,1966 Internet version contains all the information in the 14 volume print and CD ROM versions fully searchable by keyword or by browsing the name index Briefe, engl Charles John Brydges,Hartwell Bowsfield,1977 **Formidable Heritage** Jim

Mochoruk,2004-06-03 Canadians have an ambivalent feeling towards the North Although climate and geography make our northern condition apparent Canadians often forget about the north and its problems Nevertheless for the generation of historians that included Lower Creighton and Morton the northern rivers lakes forests and plains were often seen as primary characters in the drama of nation building W L Morton even went so far as to write that the main task of Canadian life has been to make something of that formidable heritage of the northern Canadian shield For many politicians and developers to make something of the North came to mean thinking of the North as an empty hinterland waiting to be exploited and today hydroelectric projects mining milling pulp and paper and other industries have changed much of the North beyond recognition One of the first parts of the North to be aggressively industrialized was northern Manitoba When all of Manitoba was given in 1670 to a group of entrepreneurs a precedent was set that was replicated throughout the province s history After the province entered confederation in 1870 provincial politicians and business leaders began to look to the northern resources as a new key to the province s economic development Particularly after 1912 they saw resource development in the North as a strategy to expand the provincial economy from its agricultural base In Formidable Heritage Jim Mochoruk shows how government and business worked together to transform what had been the exclusive fur trading preserve of the Hudson s Bay Company into an industrial hinterland He follows the many twisting paths established by developers and politicians as they chased their goal of economic growth and recounts the ultimate costs of development in economic ecological and political terms

Seen but Not Seen Donald B. Smith,2020-12-11 Based on decades of extensive archival research Seen but Not Seen uncovers a great swath of previously unknown information about settler Indigenous relations in Canada

Business & Industry Gregory P. Marchildon,2012 This fourth volume of the History of the Prairie West Series contains fifteen articles examining the rich history of business and early industry in Canada s Prairie Provinces prior to the Great Depression Without denying the central importance of agriculture in the development and growth of the early Prairie West the essays in Business and Industry explore the lesser known history of some of the earliest businesses in the region As we enter the second decade of the twenty first century a time when the three Prairie Provinces comprise the fastest growing and perhaps the most dynamic economic regions in Canada it may be worthwhile to cast our gaze back to an earlier and simpler era In these essays we can glimpse the origins of the entrepreneurial spirit and business ethos that have come to define the business culture of the Prairie West

As Their Natural Resources Fail Frank Tough,2011-11-01 In conventional histories of the Canadian prairies Native people disappear from view after the Riel Rebellions In this groundbreaking study Frank Tough examines the role of Native peoples both Indian and Metis in the economy of northern Manitoba from Treaty 1 to the Depression He argues that they did not become economically obsolete but rather played an important role in the transitional era between the mercantile fur trade and the emerging industrial economy of the mid

twentieth century Tough reconstructs the traditional economy of the dynamic fur trade era and examines its evolution through reserve selection and settlement scrip distribution and the participation of Natives in the new resource industries of commercial fishing transportation lumbering and mining His analysis clearly shows that Native people in northern Manitoba responded to the challenge of an expanding market economy in rational and enterprising ways but that they were repeatedly obstructed by government policy Numerous interpretive maps figures and illustrations provide indispensable aids to Tough's argument His book will be essential reading for anyone interested in the history of western Canada and the role of Native people in the post fur trade era
