Levinas And Lacan The Missed Encounter:

Levinas and Lacan Sarah Harasym, 1998-10-01 Levinas and Lacan traces the similar concepts and logics of Jacques Lacan and Emmanuel Levinas to explicitly render the rigorous questioning of the philosophic tradition undertaken by these thinkers and to articulate the theoretical stakes and practical consequences of such a conjunction for ethics In this book contemporary philosophers examine this missed encounter between Levinas and Lacan by tracing their preoccupation with issues that emerge in late modernity language subjectivity alterity and ethics Lacan and the Biblical Ethics of Psychoanalysis Itzhak Benyamini, 2023-12-08 In this fascinating and ground breaking book Itzhak Benyamini uses discourse analysis to lay out the way Lacan constructed his own intellectual discourse informed by Judeo Christianity Offering an understanding of Lacan's emergence and intellectual struggles with significant contemporary intellectuals the author builds a panoramic view of the entire psychoanalytic discourse at the time of the foundational post Freudian generation By engaging in close reading of texts and seminars given by Lacan between the 1930s and 50s Benyamini uncovers the coming into being of Lacan's key concepts The Mirror Stage the Imaginary the Real the Symbolic the Name of the Father the Other jouissance and das Ding The author argues that Lacan wished to regulate this process of conceptualization by connecting the concepts of the Father and the Other with themes from the Judeo Christian tradition especially the Biblical one to create a clinical ethic that does not reflect a worldview or ideology and is guided solely by the analysand's unconscious desire

Lacan's Medievalism Erin Felicia Labbie, One of the foundational premises of Jacques Lacan's psychoanalytical project was that the history of philosophy concealed the history of desire and one of the goals of his work was to show how desire is central to philosophical thinking In Lacan's Medievalism Erin Felicia Labbie demonstrates how Lacan's theory of desire is bound to his reading of medieval texts She not only alters the relationship between psychoanalysis and medieval studies but also illuminates the ways that premodern and postmodern epochs and ideologies share a concern with the subject the unconscious and language thus challenging notions of strict epistemological cuts Lacan's psychoanalytic work contributes to the medieval debate about universals by revealing how the unconscious relates to the category of the real By analyzing the systematic adherence to dialectics and the idealization of the hard sciences Lacan's Medievalism asserts that we must take into account the play of language and desire within the unconscious and literature in order to understand the way that we know things in the world and the manner in which order is determined Erin Felicia Labbie is assistant professor of English at Bowling Green State University

Intervention of the Other David Ross Fryer, 2020-10-06 The Intervention of the Other deftly brings the thought of Emmanuel Levinas and Jacques Lacan into fruitful dialogue through a comparative analysis of these two seemingly disparate thinkers Emmanuel Levinas Lithuanian born French phenomenologist of the nonphenomenon and Jacques Lacan controversial French psychoanalyst and post structuralist theorist of the Freudian Unconscious lived and wrote in the same city at the same time among the same colleagues often using the same language and the same sources

sometimes writing to the same audiences and yet they never wrote to or about one another Following Sartre Levinas thought that Freud had fundamentally misunderstood the nature of consciousness when he posited the Unconscious as a second but hidden consciousness Despite this suspicion of psychoanalysis however Levinas own work celebrated a certain something that could not be contained by thought For his part Lacan was suspicious of philosophical ethics He subscribed to a Freudian critique of ethics as pathogenic Nevertheless he saw his own work as fundamentally about a kind of ethics specifically an ethics concerned with how people live their lives in an already normative society While the two never engaged with each other s thought directly Levinas and Lacan were interested in many of the same questions What is the nature of the self What is it to be a subject Can the ethical be grounded in a post foundationalist world Through close textual analysis David Ross Fryer shows how Levinas and Lacan offer two ways of positing the ethical subject in the post humanist landscape of contemporary thought

The Heart of Man's Destiny Herman Westerink, 2012-08-06 Can Luther s writings inform us on the fundamental questions of Freudian psychoanalysis Does an intellectual filiation between early Reformation thought and psychoanalysis exist Does Lacanian psychoanalysis offer an instrument for analysing theological writings In *The Heart of Man s Destiny* Herman Westerink offers a new reading of Lacan s seventh seminar *The Ethics of Psychoanalysis* Working from an innovative perspective this book explores the close relationship between Freudian psychoanalysis and the ideas of the early Reformation Lacan claimed that to be unaware of the connection between Freud and early Reformation constituted a fundamental misunderstanding of the kind of problems psychoanalysis addresses Westerink carefully explores these problems and shows that Lacanian psychoanalysis with its emphasis on desire and law transgression and symbolization draws on fundamental ideas first formulated in the writings of Luther and Calvin By relating psychoanalysis to early Reformation thought Westerink not only shows Lacan s writings in a completely new light but also makes possible an innovative reading of early modern theology itself *The Heart of Man s Destiny* breaks new ground by providing both a controversial as well as a fresh perspective on both Luther and Calvin and on Freud Lacanian psychoanalysis This valuable contribution to the complex character of psychoanalysis will be of interest to analysts and psychotherapists as well academics and postgraduates with an interest in theology philosophy and ethics

The Self, Ethics & Human Rights Joseph Indaimo, 2015-02-11 This book explores how the notion of human identity informs the ethical goal of justice in human rights Within the modern discourse of human rights the issue of identity has been largely neglected However within this discourse lies a conceptualisation of identity that was derived from a particular liberal philosophy about the true nature of the isolated self determining and rational individual Rights are thus conceived as something that are owned by each independent self and that guarantee the exercise of its autonomy Critically engaging this subject of rights this book considers how recent shifts in the concept of identity and more specifically the critical humanist notion of the other provides a basis for re imagining the foundation of contemporary human rights Drawing on the work of Jacques Lacan and Emmanuel Levinas an inter subjectivity

between self and other always already marks human identity with an ethical openness And this book argues it is in the shift away from the human self as a sovereign individual that human rights have come to reflect a self identity that is grounded in the potential of an irreducible concern for the other

Textual Ethos Studies, or: Locating Ethics, 2016-08-01 What is the relationship between texts and ethics Who decides the ethics of a text the writer or the reader What happens to ethics in texts that portray dreams or psychoses Is violence always inherently unethical In dealing with others is violence to both them and oneself ever completely avoidable Textual Ethos Studies does not attempt to provide definitive answers to these questions so much as to be a springboard to the further discussion of ethics in relation to specific texts The essays illustrate varying perspectives ranging from the philosophical to the psychoanalytical to the linguistic that can be used to localize how texts engage or invite an engagement with ethics Twenty scholars representing Asia Europe Israel North America and South Africa highlight the complex relationship between cultural context and ethics and between the ethical and the unethical Several essays deal with the study of atypical texts that represent different attitudes toward the violent the disordered the traumatized the psychotic and the sentimental in order to encourage or provoke further discussion of the relevance of these types of texts to ethics

Encountering Ability: On the Relational Nature of (Human) Performance Scott

DeShong, 2016-07-18 In Encountering Ability Scott DeShong considers how ability and its correlative disability come into existence Besides being articulated as physical social aesthetic political and specifically human ability signifies and is signified such that signification itself is always in question Thus the language of ability and the ability of language constitute discourse that undermines foundations including any foundation for discourse or ability Drawing on Gilles Deleuze's theory of primary differentiation and Emmanuel Levinas's philosophy of ethical relationality Encountering Ability finds implications of music theology and cursing in the signification of ability and also examines various literary texts including works by Amiri Baraka and Marguerite Duras

Critique of Psychoanalytic Reason Dany Nobus, 2022-04-27 The highly arcane wisdom produced by the French psychoanalyst Jacques Lacan is either endlessly regurgitated and recited as holy writ by his numerous acolytes or radically dismissed as unpalatable nonsense by his equally countless detractors Contrary to these common strictly antagonistic yet uniformly uncritical practices this book offers a meticulous critique of some key theoretical and clinical aspects of Lacan's expansive oeuvre testing their consistency examining their implications and investigating their significance In nine interrelated chapters the book highlights both the flaws and the strengths of Lacan's ideas in areas of investigation that are as crucial as they are contentious within as well as outside psychoanalysis Drawing on a vast range of source materials including many unpublished archival documents it teases out controversial issues such as money organisational failure and lighthearted gay thinking and it relies on the highest standards of scholarly excellence to develop its arguments At the same time the book does not presuppose any prior knowledge of Lacanian psychoanalysis on the part of the reader but allows its readership to indulge in the joys of in depth critical analysis trans disciplinary creative thinking and

persistent questioning This book will appeal to researchers and students alike in psychoanalytic studies and philosophy as well as all those interested in French theory and the history of ideas Antigone, in Her Unbearable Splendor Charles Freeland,2013-06-01 A study of Lacan s engagement with the Western philosophical traditions of ethical and political thought in his seventh seminar and later work Decolonising Gender Caroline Rooney,2007-11-13 Through examination of the functions of language and cross cultural readings of literature from African queer reading to postcolonial Shakespeare Rooney explores the nature of the real providing a way out of some of the current deadlocks of feminist theory an anti essentialist approach to gender in which both male and female readers may address a consciousness of the feminine a platform for postcolonial and postmodernist thinkers to engage in a dialogue around the status of the performative in regard to the other a new theory of poetic realism in both canonical and postcolonial literatures a re reading of the Enlightenment legacy in terms of postcolonial liberation theory a comparison of contemporary debates on the real across the humanities and the sciences Exploring current ideas of performativity in literature and language and negotiating a path between feminist theory s common pitfalls of essentialism and constructivism Caroline Rooney argues convincingly that by rethinking our understanding of gender we might also equip ourselves to resist racism and totalitarianism more effectively **Postmodern Ethics, Emptiness, and Literature** Jae-seong Lee,2015-12-24 This study advances contemporary postmodern poststructural critical theory literary criticism in particular with the help of Mahayana especially Ch an Seon Chinese and Korean Zen Buddhist thought The quest for theinfinity of the Other West and Emptiness or the true I East contributes to the exploration of the contemporary critical issues of ethics and infinity Such an approach will awaken our sense of unrepresented genuine transcendence and immanence The Buddhist Emptiness shows us the absolute Other illuminated on a vaster scale The theory section explores and links Eastern and Western philosophies switching between the two While discussing in depth Hegel Nietzsche Heidegger Derrida Levinas Lacan Deleuze and Nancy this study gradually guides the reader from the contemporary Western thought on the Other and infinity to the Buddhist vision of Emptiness the ultimate reality To overcome the dualistic mode of thought inherent in tradition of Western metaphysics this exploration follows the line that observes Nagarjuna and the imprint of Ch an teachings that are most prevalent in South Korean Buddhism The last three chapters demonstrate a Levinasian and Seon Buddhist approach to the book of Job part of the Judeo Christian Bible as being a more literary than religious text and the excess of the Gothic mood in the two most distinguished and widely celebrated novels Bram Stoker s Dracula and Mary Shelley s Frankenstein The three texts compel readers to confront the infinity of the absolute Other or Emptiness The Grand Prize Winner of the 7th Wonhyo Academic Awards from the Korean Buddhism Promotion Foundation *Language, Eros, Being* Elliot R. space continuum to establish what will surely be a highwater mark in work on Kabbalah Not only a study of texts *Language Eros Being* is perhaps the fullest confrontation of the body in Jewish studies if not in religious studies as a whole Elliot R Wolfson explores the complex gender symbolism that permeates Kabbalistic literature Focusing on the nexus of asceticism and eroticism he seeks to define the role of symbolic and poetically charged language in the erotically configured visionary imagination of the medieval Kabbalists He demonstrates that the traditional Kabbalistic view of gender was a monolithic and androcentric one in which the feminine was conceived as being derived from the masculine He does not shrink from the negative implications of this doctrine but seeks to make an honest acknowledgment of it as the first step toward the redemption of an ancient wisdom Comparisons with other mystical traditions including those in Christianity Buddhism and Islam are a remarkable feature throughout the book They will make it important well beyond Jewish studies indeed a must for historians of comparative religion in particular of comparative mysticism Praise for Elliot R Wolfson *Through a Speculum That Shines* is an important and provocative contribution to the study of Jewish mysticism by one of the major scholars now working in this field **Speculum Ethics, Aesthetics, and the Beyond of Language** Robert Hughes, 2010-08-02 This book explores the relationship between literature and ethics showing how literature and art work to open up a part of ethics that resists traditional philosophy Focusing on three American Romantic texts Wieland *The Legend of Sleepy Hollow* and *The Marble Faun* Robert Hughes demonstrates how each dramatizes the ethical psychological and existential imperative to put the experience of our own traumatic limits death mortality and being into poetic language To develop the theoretical stakes of these literary readings Hughes also draws on four twentieth century continental thinkers Jacques Lacan Martin Heidegger Emmanuel Levinas and Alain Badiou each of whom in his own way proposed aesthetics or art as an approach to this dimension of ethics The book also points to an overlooked common lineage descending from German Romanticism between American Romanticism and contemporary post Romantic continental thought a shared supposition about the limits of reason as a mode of presenting the essence of art and ethics and a shared faith in the promise of literature to speak to or open up this subjective space of foundational ethics *Mentoring in Eighteenth-Century British Literature and Culture* Anthony W. Lee, 2016-04-22 In the first collection devoted to mentoring relationships in British literature and culture the editor and contributors offer a fresh lens through which to observe familiar and lesser known authors and texts Employing a variety of critical and methodological approaches which reflect the diversity of the mentoring experiences under consideration the collection highlights in particular the importance of mentoring in expanding print culture Topics include John Wilmot the Earl of Rochester's relationships to a range of role models John Dryden's mentoring of women writers Alexander Pope's problematic attempts at mentoring the vexed nature of Jonathan Swift's cross gender and cross class mentoring relationships Samuel Richardson's largely unsuccessful efforts to influence Urania Hill Johnson and an examination of Elizabeth Carter and Samuel Johnson's as co mentors of one another's work Taken together the essays further the case for mentoring as a globally

operative critical concept not only in the eighteenth century but in other literary periods as well *Signifiers and Acts* Ed Pluth,2012-02-01 In *Signifiers and Acts* Ed Pluth examines Lacan's views on language and sexuality to argue that Lacan's theory of the subject is best read as a theory of freedom and agency a theory that is especially compelling precisely because of its structuralist and seemingly antihumanist framework Presenting new aspects of Lacan's work and commenting extensively on the important yet unpublished seminars that still make up the majority of his contribution to contemporary thought the book aims to make a Lacanian intervention into contemporary theory In addition to Saussure Sartre Derrida Lacoue Labarthe and Nancy Pluth discusses works in political theory and identity theory by Alain Badiou Judith Butler and Slavoj Žižek **Woman in Lars von Trier's Cinema, 1996-2014** Ahmed Elbeshlawy,2016-10-11 This book discusses the figure of Woman in Lars von Trier's distinctive cinematic productions from 1996 to 2014 It takes the notorious legacy of violence against women in von Trier's cinema beyond the perceived gender division elevating the director's image above being a mere provocateur By raising fundamental questions about woman sexuality and desire Elbeshlawy shows that Trier's cinematic Woman is an attempt at creating an image of a genderless subject that is not inhibited by the confines of ideology and culture But this attempt is perennially ill fated And it is this failure that not only fosters viewing enjoyment but also gives the films their political importance elevating them above both commendations and condemnations of feminist discourse

Shakespeare's Speculative Art M. Hunt,2011-07-14 This is the first book length analysis of Shakespeare's depiction of specula mirrors to reveal the literal and allegorical functions of mirrors in the playwright's art and thought Adding a new dimension to the plays *Troilus and Cressida* *Julius Caesar* *Macbeth* *Hamlet* *King Henry the Fifth* *Love's Labor's Lost* *A Midsummer Night's Dream* and *All's Well That Ends Well* Maurice A Hunt also references mirrors in a wide range of external sources from the Bible to demonic practices Looking at the concept of speculation through its multiple meanings cognitive philosophical hypothetical and provisional this original reading suggests Shakespeare as a craftsman so prescient and careful in his art that he was able to criticize the queen and a former patron with such impunity that he could still live as a gentleman *Re-reading the Monstrous-Feminine* Nicholas Chare,Jeanette Hoorn,Audrey Yue,2019-10-08 This book provides a critical reappraisal of Barbara Creed's ground breaking work of feminist psychoanalytic film scholarship *The Monstrous Feminine* which was first published in 1993 *The Monstrous Feminine* married psychoanalytic thinking with film analysis in radically new ways to provide an invaluable corrective to conventional approaches to the study of women in horror films with their narrow emphasis on woman's victimhood This volume which will mark 25 years since the publication of *The Monstrous Feminine* brings together essays by international scholars working across a variety of disciplines who take up Creed's ideas in new ways and fresh contexts or more broadly explore possible futures for feminist and or psychoanalytically informed art history and film theory **The Excessive Subject** Molly Anne Rothenberg,2013-12-24 In *The Excessive Subject* A New Theory of Social Change Molly Anne Rothenberg uncovers an innovative theory of social

change implicit in the writings of radical social theorists such as Pierre Bourdieu Michel de Certeau Judith Butler Ernesto Laclau and Slavoj Žižek Through case studies of these writers work Rothenberg illuminates how this new theory calls into question currently accepted views of social practices subject formation democratic interaction hegemony political solidarity revolutionary acts and the ethics of alterity Finding a common dissatisfaction with the dominant paradigms of social structures in the authors she discusses Rothenberg goes on to show that each of these thinkers makes use of Lacan's investigations of the causality of subjectivity in an effort to find an alternative paradigm Labeling this paradigm extimate causality Rothenberg demonstrates how it produces a nondeterminacy so that every subject bears some excess paradoxically this excess is what structures the social field itself Whilst other theories of social change subject formation and political alliance invariably conceive of the elimination of this excess as necessary to their projects the theory of extimate causality makes clear that it is ineradicable To imagine otherwise is to be held hostage to a politics of fantasy As she examines the importance as well as the limitations of theories that put extimate causality to work Rothenberg reveals how the excess of the subject promises a new theory of social change By bringing these prominent thinkers together for the first time in one volume this landmark text will be sure to ignite debate among scholars in the field as well as being an indispensable tool for students
