Levine The Life Of A Revolutionary:

Leviné Rosa Leviné-Meyer,1973 *The Social Life of Literature in Revolutionary Cuba* Par Kumaraswami,2016-10-05

This study explores the social functions of literature from the perspective of policymakers writers readers and residents in contemporary Cuba It provides a new perspective on post 59 Cuban literature that underlines how cultural policy has made literature a hybrid activity between elite and mass culture with inherent social rather than aesthetic or political value Whilst many traditional studies of Cuban literature assume either its subjugation to politics and ideology or conversely its role in resisting political discourse via a rather naive notion of artistic freedom this project explores the varied dynamic and multiple ways in which literature works in Cuban society as a catalyst for identity construction aimed at consensus and belonging but also as an instrument of self differentiation and self definition even in the more recent context of a more market oriented system The study reviews policy from 1959 to the present and presents contemporary case studies exploring the social functions of literature for writers readers and ordinary Havana residents

Radical Happiness Lynne Segal,2017-11-07
Why are we so obsessed by the pursuit of happiness With new ways to measure contentment we are told that we have a right to individual joy But at what cost In an age of increasing individualism we have never been more alone and miserable But what if the true nature of happiness can only be found in others In *Radical Happiness* leading feminist thinker Lynne Segal believes that we have lost the art of radical happiness the art of transformative collective joy She shows that only in the revolutionary potential of coming together it is that we can come to understand the powers of flourishing *Radical Happiness* is a passionate call for the re discovery of the political and emotional joy that emerge when we learn to share our lives together

Revolution, Democracy, Socialism V. I. Lenin,2008-09-20 Part of Pluto's 21st birthday series Get Political which brings

essential political writing in a range of fields to a new audience This is an entirely new collection of Lenin's writing For the first time it brings together crucial shorter works to show that Lenin held a life long commitment to freedom and democracy Le Blanc has written a comprehensive introduction which gives an accessible overview of Lenin's life and work and explains his relevance to political thought today Lenin has been much maligned in the mainstream accused of viewing man as modeling clay and of social engineering of the most radical kind However in contrast to today's world leaders who happily turn to violence to achieve their objectives Lenin believed it impossible to reach his goals by any other path than that of political democracy This collection will be of immense value to students encountering Lenin for the first time and those looking for a new interpretation of one of the 20th century's most inspiring figures Vietnam and the United States Le Thuy Trang, 2021-12-27 This book examines the unfolding new relationship between Vietnam and the United States US since the end of the Cold War discussing how the relationship has emerged as one of the most intriguing facets of the regional geopolitical landscape and how the two countries turned from staunch adversaries to partners within the span of four decades after the end of the Vietnam War It explains in particular the interplay between international relations factors such as the US rivalry with China and domestic factors in both countries which the book argues are crucial to understanding the changing relationship Overall the book provides many insights into Vietnamese foreign policy and a rich context for those seeking to understand the prospects of closer Vietnam US ties or actually trying to broaden the vistas of bilateral cooperation between Hanoi and Washington *The Cambridge Illustrated History of China* Patricia Buckley Ebrey, 2010-01-25 In this sumptuously illustrated history now in its second edition Patricia Buckley Ebrey traces the origins of Chinese culture from prehistoric times to the present **Revolution and Dictatorship** Steven Levitsky, Lucan Way, 2022-09-13 Why the world's most resilient dictatorships are products of violent revolution Revolution and Dictatorship explores why dictatorships born of social revolution such as those in China Cuba Iran the Soviet Union and Vietnam are extraordinarily durable even in the face of economic crisis large scale policy failure mass discontent and intense external pressure Few other modern autocracies have survived in the face of such extreme challenges Drawing on comparative historical analysis Steven Levitsky and Lucan Way argue that radical efforts to transform the social and geopolitical order trigger intense counterrevolutionary conflict which initially threatens regime survival but ultimately fosters the unity and state building that supports authoritarianism Although most revolutionary governments begin weak they challenge powerful domestic and foreign actors often bringing about civil or external wars These counterrevolutionary wars pose a threat that can destroy new regimes as in the cases of Afghanistan and Cambodia Among regimes that survive however prolonged conflicts give rise to a cohesive ruling elite and a powerful and loyal coercive apparatus This leads to the downfall of rival organizations and alternative centers of power such as armies churches monarchies and landowners and helps to inoculate revolutionary regimes against elite defection military coups and mass protest three principal sources of authoritarian breakdown Looking at a range of revolutionary and

nonrevolutionary regimes from across the globe Revolution and Dictatorship shows why governments that emerge from violent conflict endure

To Live an Antislavery Life Erica L. Ball, 2012-11-01 In this study of antebellum African American print culture in transnational perspective Erica L Ball explores the relationship between antislavery discourse and the emergence of the northern black middle class Through innovative readings of slave narratives sermons fiction convention proceedings and the advice literature printed in forums like Freedom's Journal the North Star and the Anglo African Magazine Ball demonstrates that black figures such as Susan Paul Frederick Douglass and Martin Delany consistently urged readers to internalize their political principles and to interpret all their personal ambitions private familial roles and domestic responsibilities in light of the freedom struggle Ultimately they were admonished to embody the abolitionist agenda by living what the fugitive Samuel Ringgold Ward called an antislavery life Far more than calls for northern free blacks to engage in what scholars call the politics of respectability African American writers characterized true antislavery living as an oppositional stance rife with radical possibilities a deeply personal politics that required free blacks to transform themselves into model husbands and wives mothers and fathers self made men and transnational freedom fighters in the mold of revolutionary figures from Haiti to Hungary In the process Ball argues antebellum black writers crafted a set of ideals simultaneously respectable and subversive for their elite and aspiring African American readers to embrace in the decades before the Civil War Published in association with the Library Company of Philadelphia's Program in African American History A Sarah Mills Hodge Fund Publication
