

LEYENDA DEL NAHUAL

En una noche oscura y silenciosa, cazadores merodeaban en los bosques de Chiautempan buscando presas. Entre los arbustos, avistaron un enorme perro negro de mirada fija y violenta.

Tras dispararle en una pata, el perro huyó y los cazadores lo siguieron hasta una cabaña en medio del bosque. Al entrar, encontraron riquezas y un campesino herido en la pierna.

Al salir y llegar a una taberna en la aldea cercana, el tabernero les reveló que el campesino era un nahuatl que vendió su alma al diablo, adquiriendo la habilidad de transformarse en animales para robar. Les advirtió de la peligrosidad de su ambición y les recomendó llevar crucifijos y un cinturón de piel de víbora para protegerse.

Timothy P. Fong, 2008 Ethnic Studies Research synthesizes and benchmarks ethnic studies methodologies as interdisciplinary modes of inquiry providing state of the art summary chapters on key methods and issues extensive bibliographies and promising new directions for the future The study of ethnic groups and race relations has always existed in academia primarily in the areas of sociology and anthropology However grassroots movements for ethnic studies programs and departments developed with very different agendas for the study of these groups It is surprising then that relatively few

books devoted to these methods exist to document and promote this innovation among succeeding generations of graduate students as well as current academics and professional practitioners Ethnic Studies Research is a step toward ending that void Book jacket Dictionary of Mexican Literature Eladio Cortés,1992-11-24 This volume features approximately 600 entries that represent the major writers literary schools and cultural movements in the history of Mexican literature A collaborative effort by American Mexican and Hispanic scholars the text contains bibliographical biographical and critical material placing each work cited within its cultural and historical framework Intended to enrich the English speaking public s appreciation of the rich diversity of Mexican literature works are selected on the basis of their contribution toward an understanding of this unique artistry The dictionary contains entries keyed by author and works the length of each entry determined by the relative significance of the writer or movement being discussed Each biographical entry identifies the author s literary contribution by including facts about his or her life and works a chronological list of works a supplementary bibliography and when appropriate critical notes Authors are listed alphabetically and cross referenced both within the text and the index to facilitate easy access to information Selected bibliographical entries are also listed alphabetically by author and include both the original title and English translation publisher date and place of publication and number of pages
