Cosmopolitanism, Nationalism and the Jews of East Central Europe Michael Miller, Scott Ury, 2016-01-22 Since ancient times Jews have had a long and tangled relationship to cosmopolitanism Torn between a longstanding commitment to other Jews and the pressure to integrate into various host societies many Jews have sought a third seemingly neutral option that of becoming citizens of the world cosmopolitans Few regions witnessed such intense debates on these questions as the lands of East Central Europe as they entered the modern era From Berlin to Moscow and from Vilna to Bucharest the Jews of East Central Europe were repeatedly torn between people nation and the world While many Jews and individuals of Jewish descent embraced cosmopolitan ideologies and movements across the span of the nineteenth century such appeals to transcend the nation became increasingly suspect with the rise of integral nationalism In Germany Poland Russia and other lands Jews and other supporters of cosmopolitan movements were marginalized during the late nineteenth and early twentieth centuries Although such sentiments reached their peak during the Second World War anti cosmopolitan propaganda continued throughout the Cold War when it often became an integral part of anti Jewish campaigns in the Soviet Union Czechoslovakia Poland and Romania Even after the end of the Cold War the connection between Jews and cosmopolitanism continues to befuddle ideologues cultural leaders and politicians in Europe North America and Israel The fourteen chapters amassed in this volume address these and other questions including What

lies at the roots of the longstanding connection between Jews and cosmopolitanism How has this relationship changed over time What can different cultural economic and political developments teach us about the ongoing attraction and tension between Jews and cosmopolitanism And what can these test cases tell us about the future of Jews and cosmopolitanism in the twenty first century This book was originally published as a special issue of the European Review of History

Transregional versus National Perspectives on Contemporary Central European History Michal Baran, Magdalena M. Vit, 2017-09-30 This volume compares different regional perspectives on the national and democracy building aims of individual states It confronts discourses about national states to regional perspectives on the past as well as the current political and social landscape Why are we observing calls for national identity right now What are the roots of this development How can a Central European identity be shaped when national perspectives are prevalent The book s first part analyses social and political processes that shaped nation states in the Central European region and shows divergent trends of individual states when it comes to defining a regional approach of the Visegrád Group Poland Czech Republic Slovakia Hungary V4 The second part focuses on key personalities of the 20th century history of individual V4 countries in the light of their perception in the neighbouring states and how they shaped national states as well as identities after the end of World War II Similar aims and approaches implemented by individual countries often led to anything but raising regional understanding The book s third part reflects upon activities of various initiatives aiming to approach this challenge from the perspective of civil society and Central Europe s young generation The collection brings together leading historians of Central Europe from the V4 countries It also offers external perspectives on historical developments in Central Europe from the perspective of the 21st century and on political cooperation as well as its roots Lastly it includes practitioners of Central European cooperation from both academia and civil society and their reflection on their countries political cooperation after 1989

Understanding Central Europe Marcin Moskalewicz, Wojciech Przybylski, 2017-11-20 Central Europe is a vague and ambiguous term more to do with outlook and a state of mind than with a firmly defined geographical region In the immediate aftermath of the collapse of the Iron Curtain Central Europeans considered themselves to be culturally part of the West which had been politically handicapped by the Eastern Soviet bloc More recently and with European Union membership Central Europeans

are increasingly thinking of themselves as politically part of the West but culturally part of the East This book with contributions from a large number of scholars from the region explores the concept of Central Europe and a number of other political concepts from an openly Central European perspective It considers a wide range of issues including politics nationalism democracy and the impact of culture art and history Overall the book casts a great deal of light on the complex nature of Central Europe

A History of Modern Political Thought in East Central Europe Balázs Trencsényi, Maciej Janowski, Monika Baar, Maria Falina, Michal Kopecek, 2016-02-26 A History of Modern Political Thought in East Central Europe is a two volume project authored by an international team of researchers and offering the first ever synthetic overview of the history of modern political thought in East Central Europe Covering twenty national cultures and languages the ensuing work goes beyond the conventional nation centered narrative and offers a novel vision especially sensitive to the cross cultural entanglement of discourses Devising a regional perspective the authors avoid projecting the Western European analytical and conceptual schemes on the whole continent and develop instead new concepts patterns of periodization and interpretative models At the same time they also reject the self enclosing Eastern or Central European regionalist narratives and instead emphasize the multifarious dialogue of the region with the rest of the world Along these lines the two volumes are intended to make these cultures available for the global market of ideas and also help rethinking some of the basic assumptions about the history of modern political thought and modernity as such The first volume deals with the period ranging from the Late Enlightenment to the First World War It is structured along four broader chronological and thematic units Enlightenment reformism Romanticism and the national revivals late nineteenth century institutionalization of the national and state building projects and the new ideologies of the fin de siècle facing the rise of mass politics Along these lines the authors trace the continuities and ruptures of political discourses They focus especially on the ways East Central European political thinkers sought to bridge the gap between the idealized Western type of modernity and their own societies challenged by overlapping national projects social and cultural fragmentation and the lack of institutional continuity

The Cambridge Companion to Liberalism Steven Wall, 2015-02-19 The political philosophy of liberalism was first formulated during the Enlightenment in response to the growth of the modern nation state and its authority and power over the individuals living within its boundaries Liberalism is now the dominant ideology in the Western world but it covers a broad swathe of different and sometimes rival ideas and traditions and its essential features can be hard to define The Cambridge Companion to Liberalism offers a rich and accessible exploration of liberalism as a tradition of political thought It includes chapters on the historical development of liberalism its normative foundations and its core philosophical concepts as well as a survey of liberal approaches and responses to a range of important topics including freedom equality toleration religion and nationalism The volume will be valuable for students and scholars in political philosophy political theory and the history of political thought

The New Right in the New Europe Seán Hanley, 2007-08-07 Using the Czech example this book

considers the emergence of centre right parties in Eastern Europe following the collapse of communism The Struggle for the West Christopher Browning, Marko Lehti, 2009-09-29 This book problematises the idea of and debates about a divided West that have emerged since 9 11 and the controversy over the Iraq War *On Their Own Behalf* Martyn Housden, 2014-01-01 What form should Europe take Should it be based on nation states or states of nations On what basis should European unification proceed Should it be an lite undertaking pioneered by statesmen elected to democratic government offices or should true unification also demand a significant European cultural forum open to spokesmen and women representing the continent s nationality groups Was the League of Nations really such a thing Or was it a League of States All these questions were posed by Ewald Ammende and his fellow minority associates during the 1920s Coming to terms with the consequences of collapsed empires and at least four years of conflict they were forced to consider how best to re build their continent as if it were a tabula rasa In the process they provided intelligent perceptive analyses of the national and international affairs of the day particularly as they affected Central and Eastern Europe Their voices reflecting their status as national minorities and a geographical location beyond the borders of the post war Great Powers deserve to be written more thoroughly into the history of the interwar years Their ideas still provide food for thought even today **East Central Europe** Wojciech Roszkowski, 2015-01-01 What is East Central Europe Can it be defined with any precision The question of definition is a difficult one as is usually the case concerning borderlands whose historical developments show little continuity and an uncertain identity born of the conflict between aspirations and reality It is in East Central Europe that no peace settlement is ever final no frontiers are secure and each generation must begin its work anew Is there any chance that this definition will become out of date *Identity and Freedom* Leonidas Donskis, 2003-09-02 Identity and Freedom provides a discursive map of Lithuanian liberal nationalism by focusing on the work of three eminent Lithuanian migr scholars Vytautas Kavolis Aleksandras Shtromas and Tomas Venclova Presenting these critics of society and also analysing the significant impact of such writers as George Orwell and Czeslaw Milosz on Lithuanian political and cultural dissent the book elaborates their three models of liberal nationalism as social criticism Incorporating material which has so far only been available in Lithuanian Polish and Russian sources this book will be invaluable for anyone interested in Central and East European politics culture and society **The International Politics of East Central Europe** Adrian G. V. Hyde-Price, 1996 Established in the belief that imperialism as a cultural phenomenon had as significant an effect on the dominant as it did on the subordinate societies the Studies in Imperialism series seeks to develop the new socio cultural approach which has emerged through cross disciplinary work on popular culture media studies art history the study of education and religion sports history and children s literature The cultural emphasis embraces studies of migration and race while the older political and constitutional economic and military concerns are never far away It incorporates comparative work on European and American empire building with the chronological focus primarily though not exclusively on the 19th

and 20th centuries when these cultural exchanges were most powerfully at work This work explores the sexual attitudes and activities of those who ran the British Empire The study explains the pervasive importance of sexuality in the Victorian Empire both for individuals and as a general dynamic in the working of the system Among the topics included in the book are prostitution the manners and mores of missionaries and aspects of race in sexual behaviour Central European Jewish Émigrés and the Shaping of Postwar Culture: Studies in Memory of Lilian Furst (1931-2009) Julie Mell, Malachi Hacohen, 2018-10-08 This book is a printed edition of the Special Issue Between Religion and Ethnicity Twentieth Century Jewish migr s and the Shaping of Postwar Culture that was published in Religions Troubled Identity and the Modern World L. Donskis, 2009-05-25 The book maps what Leonidas Donskis terms the troubled identity that is the identity that constantly needs assurance and confirmation Through an identity building and shifting process argues Donskis we can move from political majority to cultural minority or the other way around **Loyalty, Dissent, and Betrayal** Leonidas Donskis, 2005 Features information about cultural studies history of ideas and Social Sciences *Power and Imagination* Leonidas Donskis, 2008 Classical and modern literature often reveal more about the organized world s forms of power and authority structures than do works of political philosophy What are the origins of political consciousness How does our understanding of political power and its exercise originate in literature Why do the early manifestations of political and religious tolerance appear in utopian literature rather than in philosophical treatises Is it possible to do fictionally what others tend to do academically and theoretically Exploring these questions allows Leonidas Donskis to analyze the relationship between power and imagination politics and literature and the principles of reality and imagination **Forms of Hatred** Leonidas Donskis, 2021-11-08 This book analyzes such symbolic designs of the modern troubled imagination as the conspiracy theory of society deterministic concepts of identity and order antisemitic obsessions self hatred and the myth of the loss of roots It offers among other things the unique East Central European materials incorporated in a broad imaginative synthesis and critique of contemporary social analysis Remaking Central Europe Peter Becker, Natasha Wheatley, 2020-12-29 Over the last two decades the new international order of 1919 has grown into an expansive new area of research across multiple disciplines With the League of Nations at its heart the interwar settlement s innovations in international organizations international law and many other areas shaped the world we know today This book presents the first study of the relationship between this new international order and the new regional order in Central and Eastern Europe after the collapse of the Habsburg empire An analysis of the co implication of these two orders is grounded in four key scholarly interventions understanding the legacies of empire in international organizations examining regionalism in the work of interwar international institutions creating an integrated history of the interwar order in Europe and testing recent claims of the conceptual connection between nationalism and internationalism With chapters covering international health international financial oversight human trafficking minority rights scientific networks technical expertise passports
