Liberalism In The South:

Liberalism in the South Virginius Dabney, 1932 **Perspectives on the American South** Merle Black, John Shelton Reed, 2021-11-10 First Published in 1981 In *Perspectives on the American South* we hope to gather yearly essays that deal with the society politics and culture of the region This first book in the series contains 27 articles representing the work of some 30 scholars and including the disciplines of history sociology anthropology political science and geography The papers have been organized around four broad topics violence in the region southern politics comparative studies of the region and the South s ethnic and cultural groups **Southern Liberal Journalists and the Issue of Race, 1920-1944** John T. Kneebone, 2018-06-15 Before the Civil Rights movement southern liberal journalists played a crucial role in shaping southern thought on race and racism John Kneebone presents a richly detailed intellectual history of southern racial liberalism between World War I and World War II by examining the works of five leading southern journalists Gerald W Johnson Baltimore Evening Sun George Fort Milton Chattanooga News Virginius Dabney Richmond Times Dispatch Hodding Carter Greenville Miss Delta Democrat Times and Ralph McGill Atlanta Constitution The South s leading liberal journalists came from varied backgrounds and lived in different regions of the South but all had one characteristic in common as public advocates of southern liberalism each spoke as a southerner with deep roots in the southern past Yet their editorials were not intended solely for local audiences they wrote essays for national and regional journals of opinion as well and each of these men published important books on the South and its history Through their writings they gained reputations throughout the country as articulate spokesmen for southern liberalism Their essays editorials books and letters provide rich and abundant sources for studying the changing patterns of southern liberal thought in the critical years from the 1920s to the 1940s Moreover these journalists were members of southern liberal organizations Will W Alexander s Commission on Interracial Cooperation the Southern Commission on the Study of Lynching the Southern Policy Committee the Southern Conference for Human Welfare and the Southern Regional Council and so they helped devise the reform programs that they in turn publicized While they believed that social and economic change in the modern South required reform of race relations the journalists felt that these reforms could be accommodated within the framework of racial segregation The protests of blacks against segregation during World War II challenged that way of thinking and created a crisis for southern liberals Kneebone analyzes this crisis and the disconnection between the southern liberalism of the 1920s and 1930s and the Civil Rights movement Originally published in 1985 A UNC Press Enduring Edition UNC Press Enduring Editions use the latest in digital technology to make available again books from our distinguished backlist that were previously out of print These editions are published unaltered from the original and are presented in affordable paperback formats bringing readers both historical and cultural value The Irony of the Solid South Glenn Feldman, 2013-05-31 *The Irony of the Solid South* examines how the south became the Solid South for the Democratic Party and how that solidarity began to crack with the

advent of American involvement in World War II Relying on a sophisticated analysis of secondary research as well as a wealth of deep research in primary sources such as letters diaries interviews court cases newspapers and other archival materials Glenn Feldman argues in *The Irony of the Solid South* that the history of the solid Democratic south is actually marked by several ironies that involve a concern with the fundamental nature of southern society and culture and the central place that race and allied types of cultural conservatism have played in ensuring regional distinctiveness and continuity across time and various partisan labels Along the way this account has much to say about the quality and nature of the New Deal in Dixie southern liberalism and its fatal shortcomings Feldman focuses primarily on Alabama and race but also considers at length circumstances in the other southern states as well as insights into the uses of emotional issues other than race that have been used time and again to distract whites from their economic and material interests Feldman explains how conservative political forces Bourbon Democrats Dixiecrats Wallace independents and eventually the modern GOP ingeniously fused white supremacy with economic conservatism based on the common glue of animus to the federal government A second great melding is exposed one that joined economic fundamentalism to the religious kind along the shared axis of antidemocratic impulses Feldman s study has much to say about southern and American conservatism the enduring power of cultural and emotional issues and the modern south s path to becoming solidly Republican

The Transformation of Urban Liberalism James Moore, 2017-11-30 The *Transformation of Urban Liberalism* re evaluates the dramatic and turbulent political decade following the Third Reform Act and questions whether the Liberal Party s political heartlands the urban boroughs really were in decline In contrast to some recent studies it does not see electoral reform the Irish Home Rule crisis and the challenge of socialism as representing a fundamental threat to the integrity of the party Instead this book illustrates using parallel case studies how the party gradually began to transform into a social democratic organisation through a re evaluation of its role and policy direction This process was not one directed from the centre despite the important personalities of Gladstone and Rosebery but rather one heavily influenced by grass roots politics Consequently it suggests that late Victorian politics was more democratic and open than sometimes thought with leading urban politicians forced to respond to the demands of party activists Changes in the structure of urban rule produced new policy outcomes and brought new collectivist forms of New Liberalism onto the political agenda Thus it is argued that without the political transformations of the decade 1885-1895 the radical liberal governments of the Edwardian era would not have been possible

A Revolt Against Liberalism A.A.M. van der Linden, 2023-04-12 This is the first study to provide a comprehensive picture of the revolt brought about by American radical historians in the 1960s and 1970s With the turbulent sixties as a backdrop the work of radical luminaries like Eugene Genovese Herbert Gutman Staughton Lynd William Appleman Williams and Howard Zinn is discussed These historians made a significant contribution to present day notions about slavery working class history the New Deal the Cold War and a wealth of other subjects Their main target was American liberalism Radical criticism centered

on the liberal concepts of the division of power and of the nature of man The acrimonious debate which ensued tore the historical profession apart Therefore most historians have stressed the disagreements between liberals and radicals Yet in this study it will be argued that in some respects the radicals were part and parcel of mainstream historiography though they presented a radical version of it The UAW and the Heyday of American Liberalism, 1945-1968 Kevin Boyle,1995 The UAW engaged in these struggles in an attempt to build a cross class multiracial reform coalition that would push American politics beyond liberalism and toward social democracy The effort was in vain forced to work within political structures particularly the postwar Democratic party that militated against change the union was unable to fashion the alliance it sought The UAW's political activism nevertheless suggests a new understanding of labor's place in postwar American politics and of the complex forces that defined liberalism in that period The book also supplies the first detailed discussion of the impact of the Vietnam War on a major American union and shatters the popular image of organized labor as being hawkish on the war **Constitutionalism beyond Liberalism** Michael W. Dowdle,Michael A. Wilkinson,2017-01-26 Explores the possibilities of constitutionalism from diverse theoretical and comparative perspectives particularly those from outside liberal and Anglo European paradigms Liberal Nationalisms James Kennedy,2015-03-01 The early twentieth century witnessed the emergence of Scottish and Quebec nationalisms that were closely intertwined with liberal philosophies The Young Scots Society and the Ligue nationaliste canadienne carried these liberal nationalist ideas This book offers a comparative and historical examination of their ideas and politics exploring the Young Scots as a movement as well as the ideas of key Nationalistes James Kennedy argues that the growth of the Young Scots Society and the Ligue nationaliste canadienne was largely in response to changes within empire state and civil society He suggests that the actions of the British Empire and the Canadian state not only prompted nationalist responses in Scotland and Quebec respectively but also shaped their liberal character His comparative analysis provides insights that would not arise from a single case study of either movement while detailing the important roles that geopolitics consociation and federation and organized religion played in the creation of nationalist philosophies The first ever comparative history of nationalism in Scotland and Quebec Liberal Nationalisms is an insightful study of nascent political nationalisms and a major contribution to the scholarship of nationalist movements in the early twentieth century Liberals against Apartheid R. Vigne,1997-10-15 The Liberal Party of South Africa was founded in 1953 to promote nonracial democratic liberalism in opposition to white supremacist apartheid Under Alan Paton it quickly moved into the extra parliamentary field and won considerable black support competing with Communism and black nationalism Growing influence brought heavy government attack and the banning of nearly 50 of its leaders black and white Despite forced dissolution in 1968 the Liberals ideas have triumphed over those of left and right in the new South Africa From Popular Liberalism to National Socialism Oded Heilbrunner,2017-05-15 Long live liberty equality fraternity and dynamite So went the traditional slogan of the radical liberals in Greater Swabia the south western part of modern Germany

This book investigates the development of what the author terms popular liberalism in this region in order to present a more nuanced understanding of political and cultural patterns in Germany up to the early 1930s. In particular, the author offers an explanation for the success of National Socialism before 1933 in certain regions of South Germany, arguing that the radical liberal sub culture was not subsumed by the Nazi Party but instead changed its form of representation. Together with the famous völkisch fraction and the leftist fraction within the chapters of the Nazi Party, there were radical liberal associations, ex-members of radical liberal parties, sympathizers with these parties, and notables with a radical orientation derived from family and regional traditions. These people and associations believed that the Nazi Party could fulfil their radical liberal vision rooted in the local democratic and liberal traditions which stretched from 1848 to the early 20th century. By looking afresh at the relationship between local regional identities and national politics, this book makes a major contribution to the study of the roots of Nazism. *A Short History of English Liberalism* Walter Lyon Bleasdale, 1913 **The Conservative Century**

Gregory L. Schneider, 2009-11-16 This concise history focuses on the development of American conservatism in the twentieth century up to the present. Gregory L. Schneider traces the course of a once reactionary movement opposed to progressive reform and the New Deal and describes how it came to advance alternative policies and programs that revolutionized the shaping of domestic politics, foreign policy, and economic policy. Along the way, he profiles such influential thinkers as William F. Buckley, Frank Meyer, Henry Regnery, and Barry Goldwater. He also details how the decline of liberalism after the 1960s helped conservatives gain political power and how their energized activism and organization culminated in the election of Ronald Reagan in 1980. Schneider also describes how the years since the Reagan Revolution have been decidedly mixed for American conservatives. **White Power and the Liberal Conscience** Paul B. Rich, 1984 *Four Years of Liberal*

Government (1906-9). Arthur Sherwell, 1910 Arthur M. Schlesinger Jr. and the Ideological History of American Liberalism Stephen P. Depoe, 2016-11-15 Examines the origin, elements, and evolving significance of the tides in the discourse of Arthur M. Schlesinger Jr. Arthur M. Schlesinger Jr. is a historian and political advocate whose ideas and activities have significantly influenced the shape and direction of American liberalism during the past fifty years. A central feature of Schlesinger's ideological perspective is his belief that American history has been marked by alternating periods of conservative and liberal dominance, which he has termed the tides of national politics. Throughout his career, Schlesinger has used the tides of national politics to defend the legitimacy and superiority of active liberal government and leadership. The study investigates how the tides concept has functioned in both Schlesinger's historical scholarship and his partisan political discourse. Depoe also explores the ways in which the tides concept has shaped and channeled Schlesinger's political thought over time, leading him toward certain definitions of situations and away from others. Finally, Depoe offers Schlesinger's life and work as a case study of the highs and lows of postwar American liberalism. By tracing Schlesinger's responses to the Eisenhower era, conservatism, Kennedy's New Frontier, and the problems of Vietnam and violence during the 1960s and the gradual

delegitimation of liberalism from the 1970s to the present this book offers a road map that can guide the reader toward a better understanding of the past present and future of liberalism in America **Congressional Record** United States. Congress,1971 The Congressional Record is the official record of the proceedings and debates of the United States Congress It is published daily when Congress is in session The Congressional Record began publication in 1873 Debates for sessions prior to 1873 are recorded in The Debates and Proceedings in the Congress of the United States 1789 1824 the Register of Debates in Congress 1824 1837 and the Congressional Globe 1833 1873 *The Forum* ,1928 The Founding of the German Empire by William I: Germany and France. Origin of the French War Heinrich von Sybel,1898 **The Westminster Review** ,1902

Enjoying the Melody of Appearance: An Emotional Symphony within **Liberalism In The South**

In a world consumed by monitors and the ceaseless chatter of immediate transmission, the melodic elegance and emotional symphony created by the prepared word often fade into the backdrop, eclipsed by the relentless noise and distractions that permeate our lives. But, located within the pages of **Liberalism In The South** an enchanting fictional prize filled with organic thoughts, lies an immersive symphony waiting to be embraced. Crafted by an elegant composer of language, that interesting masterpiece conducts viewers on an emotional journey, well unraveling the concealed melodies and profound affect resonating within each cautiously crafted phrase. Within the depths of the moving analysis, we can discover the book is main harmonies, analyze its enthralling writing type, and submit ourselves to the profound resonance that echoes in the depths of readers souls.
