Choksi, Demetris Papageorgiou, Michael Michaely, 1991 Liberalizing Foreign Trade: The Experience of Israel and Yugoslavia Demetris Papageorgiou, Michael Michaely, Armeane M. Choksi, 1991 *Liberalizing Foreign Trade: Lessons of experience in the developing world* Demetris Papageorgiou, Michael Michaely, Armeane M. Choksi, 1991 Foreign Economic Liberalization Andras Koves, 2019-03-07 This groundbreaking volume combines theories of economic liberalization with a wide variety of case studies from market and socialist economies Internationally regarded scholars and Eastern European policymakers have collaborated to evaluate the dramatic economic changes taking place throughout the world The opening essays contribute to the theoretical debate by showing that foreign economic liberalization goes beyond reducing import barriers to policies on investment financial liberalization convertability and export promotion Case studies compare successful and unsuccessful liberalization attempts world wide The disintegration of the CMEA and the policy dilemmas facing Central and Eastern Europe are examined in great detail as the authors explore the pitfalls and opportunities inherent in the transformation from a centrally planned economy This up to date text will be invaluable for courses on the history and transformation of socialist economies comparative economic systems and international trade and investment Negotiating Trade Liberalization in Argentina and Chile Andrea C. Bianculli, 2016-12-08 How do international negotiations affect domestic politics Starting in the 1990s countries throughout Latin America embarked on many and simultaneous negotiations On the shifting ground of widening and deepening trade agendas and diverse arenas what factors determined trade politics This book examines the domestic political dynamics triggered by South South North South and multilateral agendas in Argentina and Chile between 1990 and 2005 Using a much needed cross negotiation and cross country comparative perspectives and through detailed empirical analyses of several key negotiations it proposes an explanation that emphasizes the interplay between international negotiations and domestic trade politics taken as the result of the complex and dynamic interdependencies and interrelations between state and society Informed by interviews with public officials businesses and civil society the analysis reveals that variation in the depth of agendas the distributional effects and the uncertainty of political outcomes all have important consequences for domestic preference formation collective action strategies and types of relationships Given this the variety of negotiations when considered separately and comparatively show that South South North South and multilateral processes promote different patterns of trade politics In sum although national specificities and historical legacies are important the book argues that trade policy comes first in creating domestic politics in Latin America **The Dynamic Effects of Trade Liberalization** United States International Trade Commission, 1997 Trade, Development and Political Economy D. Lal, R. Snape, 2001-03-28 Trade Development and Political Economy takes fundamental issues in trade and development policy and subjects them to well based economic analysis in a form that is easily accessible to the non specialist Distinguished

Antidumping in Latin American Trade Liberalization J. Michael Finger, Julio J. Nogues, 2005-12-05 Until the 1990s the main users of safeguards and antidumping laws were Australia Canada the European Union and the United States Since then many countries have implemented such laws leading to a proliferation in antidumping and safeguard activity across the world This timely book documents the political economy surrounding the implementation of these laws in seven Latin American countries and provides details on the institutions created implementation of the laws and subsequent activity It finds that in the larger political context antidumping and safeguards are a necessary quid pro quo to certain important sectors to obtain much more liberalized trade policies for the general economy **Trade Liberalization And Trade**

Preferences (Revised Edition) Michael Michaely, 2009-08-07 Trade liberalization is arguably a major issue in the conduct of commercial policy As a component of it the relationship between universal multilateral trade liberalization and the conclusion of preferential trade agreements that is a process of liberalization which discriminates between trading partners has been a focus of analysis and debate This book is designed to enhance understanding of the salient elements of these issues The book searches for answers to significant questions that have not been raised before and elaborates those discussed earlier in the literature but not yet settled Some parts of the book are purely analytical while others focus on general principles and comprehension of concrete instances and developments The book formulates a variety of new methods including the construction of new instruments of measurement to enable both ex ante predictions and ex post assessments of the impact of liberalization and trade preferences The revised edition incorporates the outcome of two important studies exploring the impact of liberalization on trade structure and the pattern of regional trade relationships *The Order of*

Economic Liberalization Ronald I. McKinnon, 1993-10 Can knowledge of financial policies in developing countries over four decades help the socialist economies of Asia and Eastern Europe become open market economies in the 1990s In all these countries the loss of fiscal and monetary control has often resulted in high inflation that undermines the liberalization process itself In the second edition of *The Order of Economic Liberalization* Ronald McKinnon builds on his influential work on the liberalization of financial markets in less developed countries and outlines the progression necessary to move from a repressed to an open economy New to this edition are chapters that contrast the gradual Chinese approach to liberalizing domestic and foreign trade with the big bang approach followed by some Eastern European countries and republics of the former Soviet Union Financial control and macroeconomic stability McKinnon argues are more critical to a successful transition than is any crash program to privatize state owned industrial assets and the banking system *Trade*

Liberalisation and Poverty in South Asia Prema-chandra Athukorala, Jayatilleke S. Bandara, Saman Kelegama, 2012-05-23 The

link between trade liberalisation and poverty has arguably been one of the most debated topics in development policy debate Existing studies on the subject have primarily used multi country cross sectional data and there is a growing concern about the limitations of this approach in providing a sound empirical basis for informing the policy debate These limitations point to the need for undertaking in depth analyses within individual countries over time In order to examine the connection between trade liberalisation and poverty this book provides case studies of trade policy reforms and poverty reduction outcomes of seven countries in South Asia Bangladesh Bhutan India Maldives Nepal Pakistan and Sri Lanka The South Asia region allows for an excellent comparative study given the widespread emphasis on liberalisation reforms in the region over the past two decades as well as highlighting significant inter country differences in terms of the timing and comprehensiveness of reforms and the heavy concentration of world poverty in the region This book is a useful contribution to studies on South Asia as well as International Trade and Development Economics

The International Political Economy of Transformation in Argentina, Brazil and Chile Since 1960 E. Pang, 2002-09-06 This book is about how the three most important countries in South America have responded to the challenges of globalization since the mid 1960s the first OPEC price hike the Third World debt crisis leading to the lost decade for the continent and finally bold but often ill planned neo liberal reforms of the 1990s Latin America will experience another cycle of structural changes in the coming decades as the reforms of the 1980s and 1990s failed to produce the desired effects social justice fair income distribution sustainable growth and consolidation of democracy

The Geography of Trade Liberalization Omar Awapara, 2023-01-01 This book answers why anti trade forces in developing countries sometimes fail to effectively exert pressure on their governments The backlash against globalization spread across several Latin American countries in the 2000s yet a few countries such as Peru doubled down on their bets on free trade by signing bilateral agreements with the US and the EU This study uses evidence from three Latin American countries Peru Argentina and Bolivia to suggest that geography can play a significant role in shaping trade preferences and undermining the formation and clout of distributional coalitions that seek protectionism Because trade liberalization can have uneven distributional impacts along regional lines trade liberalization losers can find themselves in unfavorable conditions to associate and engage in collective action Under these circumstances few coalitions emerge to battle for protection in the policy arena and when they do geographic distance from decision makers in the capital city can be a significant barrier to realizing their interests As a result even where a majority of the population living in regions that have not benefitted from trade elect a leftist president trade reform reversal will not occur unless protectionist interests are close to the capital city The contrast between Peru on one side and Argentina and Bolivia on the other highlights the powerful influence geography can have on reversing trade policy or preserving the status quo

Economic Reforms in New Democracies Luiz Carlos Bresser Pereira, José María Maravall, Adam Przeworski, 1993-04-30 This assessment of the experiences of political transition in Southern Europe Latin America and Eastern Europe implies that the most successful reforms have been those resolved
