[The Essential Nostradamus](#) John Hogue,2002 Nostradamus the 16 th century physician and prophetic giant has a lot to say about the 21st century and beyond The man who hundreds of times accurately foresaw Napoleon Hitler the World Wars and the American French and Russian revolutions and man walking on the moon did not lay down his pen after seeing the events leading up to the year 2000 His history of the future continues for at least another 1 797 years Here is a book by the world expert on Nostradamus that in 54 pages decodes the prophet s sometimes confusing words of prophecy and takes you through a fundamental examination of the master prophet s life and magical practices

The Life and Times of Nostradamus Russell Roberts,2008-03 Few people in history have incited such debate and further examination as the French prophet known as Nostradamus What manner of man was he Was he really able to part the mists of time and see into the future Was it possible that he could predict events and identify people separated hundreds of years from his own time Or are his predictions just vague and ambiguous enough that they can be made to fit almost any occasion Perhaps one way to find answers to these questions is to examine the entire life of this remarkable man not just the small portion that his

predictions constitute Read about the influences of his youth his training as a physician and the reasons he began making his predictions You may then have the power to better understand who and what he actually was and the times in which he lived
