Esthetique De Mubet:

Bonaventure's Aesthetics Thomas J. McKenna, 2020-12-10 The authors of the standard approach to Bonaventure's aesthetics established the broad themes that continue to inform the current interpretation of his philosophy theology and mysticism of beauty his definition of beauty and its status as a transcendental of being his description of the aesthetic experience and the role of that experience in the soul's ascent into God Nevertheless they also introduced a series of pointed questions that the current literature has not adequately resolved In Bonaventure's Aesthetics The Delight of the Soul in Its Ascent into God Thomas J McKenna provides a comprehensive analysis of Bonaventure's aesthetics the first to appear since Balthasar's *Herrlichkeit* and argues for a resolution to these questions in the context of his principal aesthetic text the *Itinerarium mentis in Deum*

Art & Beauty Maurice de Wulf, 2017-11-30 This work attempts to establish a philosophy of art that is both intellectual and objective At first sight it may appear that these goals are at variance with contemporary ideas On closer examination however the reader will see that the tendency is in the opposite direction a closer approach to present day thought rather than a departure from it To admit that there exists a world other than that of our subjective states is to subscribe to an interpretation more in keeping with the real and thus also with artistic reality The intellectual and objective philosophy to which this book appeals in order to interpret the beauty of art will not be an intrusion if it guards against all exclusiveness and does not itself compromise that which gives it its value

Henry Van De Velde on

Rational Beauty, Empathy and Ornament Elie George Haddad, 2022-09-22 This book explores the different aspects of Henry van de Velde's creative activity through a study of his writings and major works of his German period 1900-1916 including his unpublished manuscript on ornament. The study casts light on this major figure in Early Modern architecture specifically on his aesthetic theory centered around themes such as rational conception and empathy. This study focuses on this specific period of van de Velde's work as it constitutes the period of his greatest activity as a designer, teacher, and architect. While examining the relation between his writings and his built works, it thematically addresses the different architectural works realized by the architect during this period.

Suzanne Noël: Cosmetic Surgery, Feminism and Beauty in Early Twentieth-Century France Paula J. Martin, 2016-03-09 Working at the forefront of cosmetic surgery at the turn of the twentieth century, Dr. Suzanne Noël was both a pioneer in her medical field and a firm believer in the advancement of women. Today, her views on the benefits of aesthetic surgery to women may seem at odds with her feminist principles, but by placing Noël in the context of the turn of the century French culture, this book is able to demonstrate how these two worldviews were reconciled. Noël was able to combine her intense convictions for gender equality and anti-ageism in the workforce with her underlying compassion and concern for her female patients during a time when there were no laws in place to protect women from workplace discrimination. She was also responsible for several advances in cosmetic surgery, a thriving industry, and is today best known for her development of the mini facelift. This book therefore sheds much valuable light on advances in aesthetic surgery, twentieth-century beauty culture, women, and the public sphere, and the new woman.

The German Aesthetic Tradition Kai Hammermeister, 2002-10-17 Publisher Description **Beauty and Holiness** James Alfred Martin, Jr., 2014-07-14 In this broad historical and critical overview based on a lifetime of scholarship, James Alfred Martin Jr. examines the development of the concepts of beauty and holiness as employed in theories of aesthetics and of religion. The injunction in the Book of Psalms to worship the Lord in the beauty of holiness addressed a tradition that has comprehended holiness primarily in terms of ethical righteousness, a conception that has strongly influenced Western understandings of religion. As the author points out, however, the Greek forbears of Western thought as well as many Eastern traditions were and are more broadly concerned with the pursuit of beauty, truth, and goodness as ideals of human excellence that is with the holiness of beauty. In this work, Martin describes a philosophical stance that should prove to be most productive for the dialogue between aesthetics and religion. Beginning with the treatment of beauty and holiness in Hebrew, Greek, and classical Christian thought, the author traces the emergence of modern theories of aesthetics and religion in the Enlightenment. He then outlines the role of aesthetics in the theories of religion proposed by Otto von Guericke, van der Leeuw, and Tillich in the cultural anthropology of Geertz, and in the thought of Santayana, Dewey, Whitehead, Heidegger, and Wittgenstein. In a global context, Martin explores the relation of aesthetic theory to religious thought in the traditions of India, China, and Japan, and concludes with reflections on the viability of modern aesthetic and religious theory in the light of contemporary

cultural and methodological pluralism Originally published in 1990 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

Subjective Universality in Kant's Aesthetics Ross Wilson, 2007 Drawing on a wide range of scholarship this book offers a new and comprehensive examination of Kant's argument that aesthetic judgements are combined with a claim to subjective universality The author gives a detailed account of the background to this claim in Kant's epistemology logic and metaphysics before closely attending to the crucial sections of the Critique of the Power of Judgement In particular it is shown that Kant's aesthetics requires that his theory of the subject be rethought Central to the theory of the subject that begins to emerge from the Third Critique is Kant's enigmatic notion of life which is extensively explored here This study therefore thoroughly examines the central features of Kant's account of aesthetic judgements suggesting that a new and exciting theory of subjectivity begins to be outlined in Kant's aesthetics The author argues for the placement of Kant's account of the subjective universality of aesthetic judgement at the centre of contemporary philosophical aesthetics

Comparative Aesthetics: Art in theory George Lansing Raymond, 1909

Decolonial Aesthetics I Michaela Ott, Babacar Mbaye Diop, 2023-01-30 The publication aims to make suggestions for a decolonisation of aesthetics within an Afro European framework The texts whose authors come from different cultural contexts between Germany France Senegal Benin Nigeria and Tunisia do not only refer to heterogeneous aesthetic practices understood as subversive and decolonial strategies but also discuss philosophical questions of a renewed non-individual humanism The artistic practices analyzed include artistic installations and ensembles as well as actions in urban and rural space deceptive manuvres at the borders and their photographic documentation and many more

From a Nation Torn Hannah Feldman, 2014-02-03 From a Nation Torn provides a powerful critique of art history's understanding of French modernism and the historical circumstances that shaped its production and reception Within art history the aesthetic practices and theories that emerged in France from the late 1940s into the 1960s are demarcated as postwar Yet it was during these very decades that France fought a protracted series of wars to maintain its far-flung colonial empire Given that French modernism was created during rather than after war Hannah Feldman argues that its interpretation must incorporate the tumultuous decades of decolonization and their profound influence on visual and public culture Focusing on the Algerian War of Independence 1954-1962 and the historical continuities it presented with the experience of the Second World War Feldman highlights decolonization's formative effects on art and related theories of representation both political and aesthetic Ultimately From a Nation Torn constitutes a profound exploration of how certain populations and events are rendered invisible and their omission naturalized within

Struggle for the Soul of the French Novel Michael Scott,1989-06-18 This book describes the challenge to traditional Christian beliefs that was inherent in the very concept of literary Realism and presents the Catholic novel as a series of conscious adaptations of Realist techniques and models Authors studied include Flaubert Bernanos and Mauriac

Gabriel Faure Edward R. Phillips,2011-04-14 First published in 2011 this research study includes a biography section as well as the works of Gabriel Urbain Faur born on 12 May 1845 Much of Faur s music especially the late pieces remain little played and little known as a result his reputation as a salon composer of pleasant music continues even among educated musicians The author suggests that it is more likely that the difficulty of much of Faur s music for the listener and the demands it places upon him or her are the principal reasons for its omission from concert programs and for a misunderstanding of Faur s place in the history of French music **Kant and the Unity of Reason** Angelica Nuzzo,2005 Angelica Nuzzo offers a comprehensive reconstruction a detailed analysis of Kant s Critique of Judgement proposing a new reading of Kant s notion of human experience in which domains as different as knowledge morality the experience of beauty life are viewed in a unified perspective *Beauty and the Good* Alice M. Ramos,2020-10-30 In the past twenty years or more there has been a growing interest among philosophers and theologians alike in the transcendentals and especially in the beautiful This seems fortuitous since so much of contemporary culture is fixated in many ways on beauty on what might be

called a superficial or man made beauty intent on outward appearance with little or no concern for the human person's interiority and distinctive nature. The Ancients and the Medievals on the contrary were sensitive not only to the beauty of nature and art but also to beauty as intelligible that is to the beauty of moral harmony and of metaphysical splendor. While the question of whether the beautiful is in fact a transcendental aspect of being continues to be a subject of dispute in contemporary scholarship, the relationship between the beautiful and the good has been accepted since ancient times and has been attended to in recent publications. None of these publications however offers a systematic treatment of this relationship by drawing from the wisdom of both ancient and medieval thought in such a way as to bring together the work of scholars in this tradition. *Beauty and the Good* intends therefore to make a singular contribution by presenting a richer alternative to the contemporary cult of beauty and appearance on the one hand and to the concomitant decline of real beauty on the other hand. In addition to highlighting the centrality of beauty in the Aristotelian account of moral virtue where virtue is *kalon* and virtuous actions are done for the sake of *kalon*, an account which is found echoed in the medieval notion of intrinsic goodness *bonum honestum* understood as intelligible or spiritual beauty, this volume will provide the metaphysical and theological grounding for beauty as influenced in part by Plato and Neoplatonism together with a much needed account of how we know and judge beauty and how for the recognition of true good and real beauty we need to be properly disposed. The integration of philosophical and theological reflection on the nature and relationship of beauty and the good on our perception and judgment of beauty and of the good as beautiful and on the motivational role of beauty in human action has as its goal to produce a coherent volume of essays.
